Public indebtedness 888
Assessed valuations 888
Tax levies 888

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities, boroughs, and villages, school districts, and townships, by counties. 1931 889
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities, boroughs, and villages, by population groups. 1931 902
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities, boroughs, and villages, school districts, and townships, by counties. 1931 905
4. Governmental-cost payments and per capita total governmental-cost payments of cities, boroughs, and villages, by population groups: 1931 918
5. Gross debt classified by character, and gross debt less sinking fund assets, of counties, cities, boroughs, and villages, school districts, and townships, by counties: 1931 919
6. Gross debt classified by character, and gross debt less sinking fund assets, total and per capita, of cities, boroughs, and villages, by population groups: 1931 927
7. Total and per capita of the combined gross debt less sinking fund assets, of counties, cities, boroughs, and villages, school districts, and townships, by counties: 1931, 1922, and 1912 929
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1931, 1922, and 1912 931
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities, boroughs, and villages, school districts, and townships, by counties: 1931, 1922, and 1912 933

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Minnesota relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies for the State government, the 87 counties, the 746 cities, boroughs, and villages, the 7,743 school districts, and the 1,972 townships, or a total of 10,549 political units that have power to levy taxes or incur debt.

The data for Minnesota were compiled largely from reports on file in the offices of the State auditor and department of education, St. Paul, Minn., and from reports received through correspondence.

Fiscal year.—For Minnesota the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities, boroughs, and villages, the school districts, and the townships are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Minnesota on January 1, 1932, was 2,582,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for Minnesota the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts by $6,137,686; exclusive of capital outlays, revenue receipts exceed governmental costs by $53,186,532. For the State government the excess of governmental costs over revenue receipts was 23.8 percent; however, for the counties, the cities, boroughs, and villages, the school districts, and the townships, the revenue receipts exceeded governmental costs, the percent of excess being 15.8 for the counties, 2.6 for the cities, boroughs, and villages, 1.2 for the school districts, and 7.6 for the townships.

Receipts from the issue of debt obligations are not classed as revenue receipts or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES	
	Total	Percent of total	Total	Percent of total	Total	Percent of total	Total	Percent of total

[1] Data for the schools of Minneapolis and St. Paul are included with the data for cities, boroughs, and villages.

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Minnesota and all subdivisions of the State amounted to $216,856,114, or an average of $83.99 for each person in the State. Of this amount $60,577,792 was for the State; $40,356,985 for the counties; $69,971,272 for the cities, boroughs, and villages; $38,583,987 for the school districts; and $7,366,078 for the townships. The revenues collected include $112,445,710, general property taxes; $2,397,121, special taxes; $33,579,317, licenses and permits; $8,747,893, special assessments; $27,851,271, subventions, donations, and pension assessments; $9,011,107, interest, rents, and highway privileges; $10,917,904, earnings of public-service enterprises; $11,184,540, earnings of general departments; and $721,251, fines, forfeits, and escheats. Of the $27,851,271 classified as subventions, donations, and pension assessments, $5,757,288 represents subventions by the Federal Government to the State, principally for highways. Receipts and expenditures for the schools of Minneapolis and St. Paul form part of the financial transactions of their respective city governments. Therefore, the data for the schools of these two cities are included with the data for the cities, boroughs, and villages in the general tables of this report. Drainage districts of Minnesota are under county supervision, and all assessments and costs of construction and maintenance for drainage are included with the data reported for counties.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities, boroughs, and villages having a population of 2,500 and over.

The general property taxes of the State, the counties, and the cities, boroughs, and villages having a population of 2,500 and over amounted to $23,221,000 in 1912, $62,803,000 in 1922, and $73,995,284 in 1931, this being an increase of 17.8 percent from 1922 to 1931, and 218.7 percent from 1912 to 1931. Special taxes amounted to $1,080,000 in 1912, $1,295,000 in 1922, and $2,392,714 in 1931. Poll taxes amounted to $2,000 in 1912 and $1,000 in 1922. No poll taxes were reported for Minnesota for 1931. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $6,565,000 in 1912, $19,189,000 in 1922, and $33,468,222 in 1931. Special assessments amounted to $3,148,000 in 1912, $9,145,000 in 1922, and $8,373,923 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Minnesota and all subdivisions of the State for 1931 amounted to $222,993,800, or an average expenditure of $86.36 per person. Of the total amount expended, $74,992,757 was disbursed by the State government; $34,847,588 by the counties; $68,202,034 by the cities, boroughs, and villages; $38,108,332 by the school districts; and $6,843,089 by the townships. The total comprises $139,576,879 for operation and maintenance of general departments; $7,882,012 for operation and maintenance of public-service enterprises; $16,210,691 for interest on debt; and $59,324,218 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities, boroughs, and villages are not shown by departments in tables 3 and 4 for the reason that for the most part the reports secured for the cities, boroughs, and villages did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, and the school districts are shown by departments in table 3. Expenditures for maintenance of schools other than schools of the State government and those for the cities of Minneapolis and St. Paul, may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data for Minnesota were limited to the State, counties, and cities, boroughs, and villages with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1931 the payments for operation and maintenance of general departments and public service enterprises of the State, counties, and cities, boroughs, and villages having a population of 2,500 and over increased from $30,798,000 to $102,730,919, or 233.6 percent; interest payments, from $2,531,000 to $14,455,193, or 471.1 percent; and outlay payments, from $14,605,000 to $55,141,488, or 277.6 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking-fund assets of the State government, and of the counties, the cities, boroughs, and villages, the school districts, and the townships, by counties.

Table 6 presents for the individual cities, boroughs, and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking-fund assets, for the year 1931. The aggregate debt of the cities, boroughs, and villages in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking-fund assets—total and per capita—of the government of the State, the counties, the cities, boroughs, and villages, the school districts, and the townships. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1931 the combined gross debt of Minnesota and all subdivisions of the State less sinking-fund assets set aside to meet such debt was $285,111,357, or an average per capita of $110.42. In 1922 the average per capita was $109.99, and in 1912, $32.26.

Of the total debt reported for 1931, $40,155,822 was for the State government; $67,926,169 for the counties; $133,446,119 for the cities, boroughs, and villages; $40,086,314 for the school districts; and $3,496,933 for the townships.

The gross debt of the State government, less sinking-fund assets, increased 97.7 percent from 1922 to 1931 and 2,885.6 percent from 1912 to 1931. Similar debt for all minor civil divisions combined decreased 1.7 percent from 1922 to 1931 and increased 254.9 percent from 1912 to 1931.

ASSESSED VALUATIONS

In Minnesota all property is assessed at its true and full value in money by county assessors and deputies. All real property subject to taxation is listed and assessed every even numbered year with reference to its value on May 1 preceding the assessment. Assessment books and blanks are ready on or before the third Monday in April of each year.

The assessed valuation of all property in Minnesota subject to levies of the general property tax was $2,307,881,264 in 1931 as compared with $2,353,695,000 in 1922 and $1,474,585,000 in 1912. The per capita assessed valuation increased from $676.08 in 1912 to $960.19 in 1922, and decreased to $893.83 in 1931.

TAX LEVIES

In Minnesota each county treasurer is receiver and collector of all taxes levied for State, county, city, school, village, bridge, road, or other purposes. Taxes on both real and personal property become due on the first Monday in January next after date of assessment.

Special assessments are generally collected by county treasurers in the same way and at the same time as are the general taxes.

The total levies of the general property tax for the State and all subdivisions were $38,108,000 for 1912, $107,325,000 for 1922, and $120,344,710 for 1931, this being a per capita of $17.47, $43.78, and $46.61, respectively.

Of the total levies reported for 1931, $15,028,762 was for the State government; $23,265,097 for the counties; $44,410,935 for the cities, boroughs, and villages; $30,120,475 for the school districts; and $7,519,441 for the townships. The average rate of levy per $100 of the assessed valuation was $2.58 for 1912, $4.56 for 1922, and $5.21 for 1931.

Scope of report 936
Fiscal year 936
Population 936
Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931 936

DESCRIPTION OF GENERAL TABLES:

Revenue receipts 937
Governmental-cost payments 937
Public indebtedness 938
Assessed valuations 938
Tax levies 938

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities, towns, and villages, school districts, and other civil divisions, by counties: 1931 939
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities, towns, and villages, by population groups: 1931 951
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities, towns, and villages, school districts, and other civil divisions, by counties: 1931 953
4. Governmental-cost payments and per capita total governmental-cost payments of cities, towns, and villages, by population groups: 1931 965
5. Gross debt classified by character, and gross debt less sinking fund assets, of counties, cities, towns, and villages, school districts, and other civil divisions, by counties: 1931 966
6. Gross debt classified by character, and gross debt less sinking fund assets, total and per capita, of cities, towns, and villages, by population groups: 1931 973
7. Total and per capita of the combined gross debt less sinking fund assets, of counties, cities, towns, and villages, school districts, and other civil divisions, by counties, 1931, 1922, and 1912 974
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1931, 1922, and 1912 975
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities, towns, and villages, school districts, and other civil divisions, by counties: 1931, 1922, and 1912 977

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Mississippi relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 82 counties, the 282 cities, towns, and villages, the 5,641 school districts, and the 259 other civil divisions (drainage, delta, and levee districts), or a total of 6,265 political units that have power to levy taxes or incur debt.

The data for Mississippi were compiled from reports on file in the office of the State auditing department and the State superintendent of education, Jackson, Miss., and from reports secured by local agents and through correspondence

Fiscal year.—For Mississippi the fiscal year reported for the State government is that ending September 30, 1931, while the statistics for the counties, the cities, towns, and villages, the school districts, and the other civil divisions, are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Mississippi on January 1, 1932, was 2,032,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for Mississippi the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts by $3,671,049. This excess of governmental costs over revenue receipts was 18.8 percent for the State government, 5.5 percent for the counties, and 5.9 percent for the school districts. For the cities, towns, and villages and other civil divisions revenue receipts were in excess of governmental costs, the percent of excess being 11.4 for the cities, towns, and villages and 20.5 for the other civil divisions.

Although the aggregate of governmental costs, including those for capital outlays, is more than the revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $5,940,813.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING FUND ASSETS		GENERAL PROPERTY TAX LEVIES	
	Total	Percent of total	Total	Percent of total	Total	Percent of total	Total	Percent of total

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Mississippi and all subdivisions of the State amounted to $68,400,776, or an average of $33.66 for each person in the State. Of this amount $19,084,386 was for the State; $22,860,172 for the counties; $13,757,020 for the cities, towns, and villages; $10,405,339 for the school districts; and $2,293,859 for the other civil divisions. The revenues collected include $33,776,189, general property taxes; $1,725,596, special taxes; $1,369,286, poll taxes; $12,231,595, licenses and permits; $3,343,668, special assessments; $9,605,177, subventions, donations, and pension assessments; $998,479, interest, rents, and highway privileges; $2,605,187, earnings of public service enterprises; $2,448,847, earnings of general departments; and $296,752, fines, forfeits, and escheats. Of the $9,605,177 classified as subventions, donations, and pension assessments, $2,979,043 represents subventions by the Federal Government to the State, principally for highways.

Road districts are under supervision of the counties, and the data for them are included with the data for counties.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties and cities, towns, and villages having a population of 2,500 and over.

General property taxes of the State, the counties, and urban places having a population of 2,500 and over amounted to $8,384,000 in 1912, $24,713,000 in 1922, and $26,204,336 in 1931, this being an increase of 6 percent from 1922 to 1931, and 212.6 percent from 1912 to 1931. Special taxes amounted to $45,000 in 1912, $602,000 in 1922, and $1,725,596 in 1931. Poll taxes amounted to $701,000 in 1912, $1,272,000 in 1922, and $888,917 in 1931. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $885,000 in 1912, $2,503,000 in 1922, and $11,983,135 in 1931. Special assessments amounted to $398,000 in 1912, $304,000 in 1922, and $1,722,675 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Mississippi and all subdivisions of the State for 1931 amounted to $72,071,825, or an average expenditure of $35.47 per person. Of the total amount expended, $22,679,960 was disbursed by the State government; $24,120,784 by the counties; $12,343,828 by the cities, towns, and villages; $11,022,898 by the school districts; and $1,904,355 by the other civil divisions. The total comprises $51,294,056 for operation and maintenance of general departments; $1,455,316 for operation and maintenance of public service enterprises; $9,710,591 for interest on debt; and $9,611,862 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities, towns, and villages are not shown by departments in tables 3 and 4 for the reason that for the most part the reports secured for cities, towns, and villages did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, the school districts, and the other civil divisions are shown by departments in table 3. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities, towns, and villages or other incorporated places with a population of 2,500 and over. Data for the incorporated places reported

included data for the schools of such incorporated places. In the period from 1912 to 1931 the payments for operation and maintenance of general departments and public service enterprises of the State, counties, and cities, towns, and villages having a population of 2,500 and over increased from $13,231,000 to $39,906,229, or 201.6 percent; interest payments, from $1,046,000 to $8,152,925, or 679 4 percent; and outlay payments, from $4,030,000 to $8,540,952, or 111.9 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities, towns, and villages, the school districts, and the other civil divisions, by counties.

Table 6 presents for the individual cities, towns, and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1931. The aggregate debt of the cities, towns, and villages in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities, towns, and villages, the school districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1931 the combined gross debt of Mississippi and all subdivisions of the State less sinking fund assets set aside to meet such debt was $179,361,169, or an average per capita of $88.27. In 1922 the average per capita was $62.27, and in 1912, $15.25.

Of the total debt reported for 1931, $36,319,475 was for the State government; $73,147,789 for the counties; $42,652,648 for the cities, towns, and villages; $8,654,766 for the school districts; and $18,586,491 for the other civil divisions.

The gross debt of the State government, less sinking fund assets, increased 144.3 percent from 1922 to 1931 and 714.2 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 48 percent from 1922 to 1931 and 491.9 percent from 1912 to 1931.

ASSESSED VALUATIONS

Real property is assessed in the county, municipality, and district where situated; tangible personal property, in the county, municipality, or district in which the same may be on the day the tax lien takes effect, provided it is kept therein permanently or for the greater part of the current year.

For the purpose of assessment and taxation, each person is required to fix the value of his property at its cash value by stating the price he would accept at a private sale. Assessment is made by the county assessor, who is elected for a term of 4 years.

The assessed valuation of all property in Mississippi subject to levies of the general property tax was $692,655,464 in 1931 as compared with $708,396,000 in 1922 and $411,551,000 in 1912. The per capita assessed valuation increased from $219.26 in 1912 to $395.62 in 1922, and decreased to $340.87 in 1931.

TAX LEVIES

All State and county taxes are collected by the county sheriff (elected for a term of 4 years), who is ex officio tax collector for his county.

In municipalities the collection is made by the municipal collector.

For some counties and school districts, a report of the taxes levied could not be secured. The amount of taxes collected for these units is shown as levy.

The total levies of the general property tax for the State and all subdivisions were $9,911,000 for 1912, $30,648,000 for 1922, and $32,636,471 for 1931, this being a per capita of $5.28, $17.12, and $16.06, respectively.

Of the total levies reported for 1931, $5,541,244 was for the State government; $12,580,293 for the counties; $8,792,184 for the cities, towns, and villages; $5,278,359 for the school districts; and $444,391 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $2.41 for 1912, $4.33 for 1922, and $4.71 for 1931.

Assessed valuations 982
Tax levies 982

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities and towns, school districts, and other civil divisions, by counties: 1932 983
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities and towns, by population groups: 1932 1000
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities and towns, school districts, and other civil divisions, by counties: 1932 1002
4. Governmental-cost payments and per capita total governmental-cost payments of cities and towns, by population groups: 1932 1020
5. Gross debt classified by character, and gross debt less sinking fund assets, of counties, cities and towns, school districts, and other civil divisions, by counties: 1932 1021
6. Gross debt classified by character, and gross debt less sinking fund assets, total and per capita, of cities and towns, by population groups. 1932 1031
7. Total and per capita of the combined gross debt less sinking fund assets, of counties, cities and towns, school districts, and other civil divisions, by counties: 1932, 1922, and 1912 1033
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1932, 1922, and 1912 1035
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and towns, school districts, and other civil divisions, by counties 1932, 1922, and 1912 1037

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Missouri relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 114 counties, the 773 cities and towns, the 8,893 school districts, and the 1,428 other civil divisions (345 townships, and drainage, levee, and road districts), or a total of 11,209 political units that have power to levy taxes or incur debt.

The data for Missouri were compiled from reports on file in the office of the State superintendent of schools, Jefferson City, Mo., and from reports secured by local agents and through correspondence.

Fiscal year.—For Missouri the fiscal year reported for the State government is that ending December 31, 1931, while the statistics for the counties, the cities and towns, the school districts, and the other civil divisions, are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Missouri on January 1, 1932, was 3,652,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for Missouri the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts by $29,214,124. This excess of governmental costs over revenue receipts was 25.5 percent for the State government; 28.5 percent for the counties; 13.5 percent for the cities and towns; and 5.1 percent for the school districts. For the other civil divisions, revenue receipts were in excess of governmental costs, the percent of excess being 1.6. Although the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $36,163,565.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payment on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Missouri and all subdivisions of the State amounted to $184,064,803, or an average of $50.40 for each person in the State. Of this amount $51,484,545 was for the State; $19,201,765 for the counties; $61,573,400 for the cities and towns; $47,133,425 for the school districts; and $4,671,668 for the other civil divisions. The revenues collected include $99,585,481, general property taxes; $8,260,804, special taxes; $251,960, poll taxes; $28,267,239, licenses and permits; $6,892,704, special assessments; $15,212,826, subventions, donations, and pension assessments; $4,379,123, interest, rents, and highway privileges; $10,140,554, earnings of public service enterprises; $10,596,381, earnings of general departments; and $477,731, fines, forfeits, and escheats. Of the $15,212,826 classified as subventions, donations, and pension assessments, $7,898,655 represents subventions by the Federal Government to the State, principally for highways.

The reports received for the townships were incomplete. For this reason data for townships have been included with "other civil divisions" in the general tables of this report.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and towns having a population of 2,500 and over.

The general property taxes of the State, the counties, and the cities and towns having a population of 2,500 and over amounted to $30,825,000 in 1912, $43,812,000 in 1922, and $55,298,158 in 1932, this being an increase of 26.2 percent from 1922 to 1932, and 79.4 percent from 1912 to 1932. Special taxes amounted to $1,141,000 in 1912, $5,998,000 in 1922, and $8,260,804 in 1932. Poll taxes amounted to $218,000 in 1912, $37,000 in 1922, and $135,079 in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $6,951,000 in 1912, $9,423,000 in 1922, and $28,059,011 in 1932. Special assessments amounted to $7,408,000 in 1912, $2,787,000 in 1922, and $5,427,013 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Missouri and all subdivisions of the State for 1932 amounted to $213,278,927, or an average expenditure of $58.40 per person. Of the total amount expended $64,610,416 was disbursed by the State government; $24,673,911 by the counties; $69,857,470 by the cities and towns; $49,540,111 by the school districts; and $4,597,019 by the other civil divisions. The total comprises $127,024,165 for operation and maintenance of general departments; $6,586,177 for operation and maintenance of public-service enterprises; $14,290,896 for interest on debt; and $65,377,689 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities and towns are not shown by departments in tables 3 and 4, for the reason that for the most part the reports secured for the cities and towns did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, the school districts, and the other civil divisions are shown by departments in table 3. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data for Missouri were limited to the State, counties, and cities and towns with a population of 2,500 and over. Data for the incorporated places reported included data for

the schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments and public service enterprises of the State, counties, and cities and towns having a population of 2,500 and over increased from $40,220,000 to $85,777,091, or 113.3 percent; interest payments, from $2,375,000 to $10,738,536, or 352.1 percent; and outlay payments, from $16,014,000 to $59,857,287, or 273.8 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities and towns, the school districts, and the other civil divisions by counties.

Table 6 presents for the individual cities and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1932. The aggregate debt of the cities and towns in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt, less sinking fund assets—total and per capita—of the government of the State, the counties, the cities and towns, the school districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1932 the combined gross debt of Missouri and all subdivisions of the State less sinking fund assets set aside to meet such debt was $334,264,904, or an average per capita of $91.53. In 1922 the average per capita was $34.46, and in 1912, $18.37.

Of the total debt reported for 1932, $103,302,485 was for the State government; $37,279,125 for the counties; $117,643,455 for the cities and towns; $48,009,710 for the school districts; and $28,030,129 for the other civil divisions.

The gross debt of the State government, less sinking fund assets, increased 239.2 percent from 1922 to 1932 and 2,111.6 percent from 1912 to 1932. Similar debt for all minor civil divisions combined increased 163 percent from 1922 to 1932 and 305.5 percent from 1912 to 1932.

ASSESSED VALUATIONS

In counties, assessment of real and personal property is generally made by the county assessor, who is elected every 4 years. In counties having a township organization, the township clerk, elected biennially, is ex-officio assessor. Cities of the first, second, third, and fourth class provide for the assessment and collection of taxes and in some cases set up their own board of appeals.

The assessed valuation of all property in Missouri subject to levies of the general property tax was $4,788,878,616 in 1932 as compared with $4,633,400,000 in 1922 and $1,860,088,000 in 1912. The per capita assessed valuation increased from $554.59 in 1912 to $1,349.84 in 1922, and decreased to $1,311.30 in 1932.

TAX LEVIES

Taxes are collected by county tax collectors. Such collectors proceed to collect taxes upon receiving the tax books from the assessors. At least 20 days' notice is given as to the time taxes are due. If not paid at such time, they become delinquent. County collectors are required to collect all tax levies made for school purposes and pay the same over to the county treasurer.

The total levies of the general property tax for the State and all subdivisions were $35,491,000 for 1912, $91,445,000 for 1922, and $103,234,544 for 1932, this being a per capita of $10.58, $26.64, and $28.27, respectively.

Of the total levies reported for 1932, $5,796,399 was for the State government; $18,995,354 for the counties; $36,890,608 for the cities and towns; $38,764,873 for the school districts; and $2,787,310 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $1.91 for 1912, $1.97 for 1922, and $2.16 for 1932.

TABLE 1.—REVENUE RECEIPTS AND PER CAPITA TOTAL REVENUE RECEIPTS, AND ESTIMATED POPULATION OF COUNTIES, CITIES AND TOWNS, SCHOOL DISTRICTS, AND OTHER CIVIL DIVISIONS, BY COUNTIES: 1932

Population 1040
Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932 1040

DESCRIPTION OF GENERAL TABLES:

Revenue receipts 1041
Governmental-cost payments 1041
Public indebtedness 1042
Assessed valuations 1042
Tax levies 1042

TABLES

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities and towns, school districts, irrigation districts, and other civil divisions, by counties: 1932 1043
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities and towns, by population groups: 1932 1052
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities and towns, school districts, irrigation districts, and other civil divisions, by counties: 1932 1053
4. Governmental-cost payments and per capita total governmental-cost payments of cities and towns, by population groups: 1932 1062
5. Gross debt, classified by character, and gross debt less sinking-fund assets, of counties, cities and towns, school districts, irrigation districts, and other civil divisions, by counties: 1932 1063
6. Gross debt, classified by character, and gross debt less sinking-fund assets, total and per capita, of cities and towns, by population groups: 1932 1068
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities and towns, school districts, irrigation districts, and other civil divisions, by counties: 1932, 1922, and 1912 1069
8. Total and per capita assessed valuation of all property, subject to the general property tax, by counties: 1932, 1922, and 1912 1070
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and towns, school districts, and other civil divisions, by counties: 1932, 1922, and 1912 1071

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Montana relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 56 counties, the 115 cities and towns, the 2,200 school districts, the 56 irrigation districts, and the 84 other civil divisions (drainage districts, fire districts, light districts, light and water districts, road districts, and special improvement districts), or a total of 2,512 political units that have power to levy taxes or incur debt.

The data for Montana were compiled largely from reports on file in the offices of the State Examiner, the State Board of Public Instruction, and the State Board of Equalization, Helena, Mont., and from reports received through correspondence.

Fiscal year.—For Montana the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities and towns, the school districts, the irrigation districts, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The population of Montana on April 1, 1930, was 537,606.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for Montana the aggregate of revenue receipts is in excess of governmental costs, including those for capital outlays, by $174,162; exclusive of capital outlays, this excess amounts to $8,861,198.

The excess of revenue receipts over governmental costs was 3.3 percent for the counties, 11.4 percent for the cities and towns, and 21.2 percent for the irrigation districts. For the State government and for the school districts, governmental costs were in excess of revenue receipts, the percent of excess being 5.9 for the State and 1 for the school districts.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Montana and all subdivisions of the State amounted to $42,900,950, or an average of $79.80 for each person in the State. Of this amount $13,708,228 was for the State; $11,261,795 for the counties; $5,569,355 for the cities and towns; $11,519,920 for the school districts; $630,717 for the irrigation districts; and $210,935 for the other civil divisions. The revenues collected include $23,465,793, general property taxes; $565,001, special taxes; $74,007, poll taxes; $5,221,352, licenses and permits; $2,036,073, special assessments; $6,573,902, subventions, donations, and pension assessments; $1,709,038, interest, rents, and highway privileges; $1,225,551, earnings of public-service enterprises; $1,951,374, earnings of general departments; and $78,859, fines, forfeits, and escheats. Of the $6,573,902 classified as subventions, donations, and pension assessments, $5,235,074 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties and cities and towns having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities and towns having a population of 2,500 and over amounted to $7,865,000 in 1912, $12,612,000 in 1922, and $12,931,446 in 1932, this being an increase of 2.5 percent from 1922 to 1932, and of 64.4 percent from 1912 to 1932. Special taxes amounted to $25,000 in 1912, $150,000 in 1922, and $565,001 in 1932. Poll taxes amounted to $280,000 in 1912, $185,000 in 1922, and $71,417 in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $1,277,000 in 1912, $1,715,000 in 1922, and $5,207,359 in 1932. Special assessments amounted to $871,000 in 1912, $2,004,000 in 1922, and $1,116,431 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Montana and all subdivisions of the State for 1932 amounted to $42,726,788, or an average expenditure of $79.47 per person. Of the total amount expended, $14,516,416 was disbursed by the State government; $10,904,405 by the counties; $4,998,138 by the cities and towns; $11,634,748 by the school districts; $520,395 by the irrigation districts; and $152,686 by the other civil divisions. The total comprises $29,931,297 for operation and maintenance of general departments; $1,135,946 for operation and maintenance of public service enterprises; $2,972,509 for interest on debt; and $8,687,036 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $3,759,980; protection to person and property, $1,826,768; health and sanitation, $502,512; development and conservation of natural resources, $1,169,323; highways, $4,448,152; charities, hospitals, and corrections, $2,411,113; schools, $14,324,048; libraries, $168,107; recreation, $121,665; and miscellaneous, $1,199,629. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data for Montana were limited to the State, counties, and cities and towns with a population of 2,500 and over. Data for the incorporated places reported included the data for schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments and public service enterprises of the State, counties, and cities and towns of 2,500 population and over increased from $9,604,000 to $19,259,146, or 100.5 percent; interest payments, from $697,000 to $2,129,080, or 205.5 percent; and outlay payments, from $3,076,000 to $7,945,639, or 158.3 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking-fund assets of the State government, and of the counties, the cities and towns, the school districts, the irrigation districts, and the other civil divisions, by counties.

Table 6 presents for the individual cities and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking-fund assets, for the year 1932. The aggregate debt of the cities and towns in each county is shown in Table 5.

In Table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking-fund assets—total and per capita—of the government of the State, the counties, the cities and towns, the school districts, the irrigation districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all minor civil divisions of the county.

For 1932 the combined gross debt of Montana and all subdivisions of the State less sinking-fund assets set aside to meet such debt was $71,269,403, or an average per capita of $132.57. In 1922 the average per capita was $110.20, and in 1912, $43.29.

Of the total debt reported for 1932, $9,315,623 was for the State government; $15,113,054 for the counties; $15,599,497 for the cities and towns; $8,951,448 for the school districts; $21,182,147 for the irrigation districts; and $1,107,634 for the other civil divisions.

The gross debt of the State government, less sinking-fund assets, increased 22.9 percent from 1922 to 1932 and 515.7 percent from 1912 to 1932. Similar debt for all minor civil divisions combined increased 7.5 percent from 1922 to 1932 and 272.5 percent from 1912 to 1932.

ASSESSED VALUATIONS

Property in Montana is assessed by county assessors between the first Monday in March and the second Monday in July of each year, the assessment being as of March 1.

For the purpose of fixing tax rates, taxable property is divided into seven classes, ranging from 7 to 100 percent of true and full value. Real estate and improvements (class 4) are taxed at 30 percent of such values.

The assessed valuation of all property in Montana subject to levies of the general property tax was $410,634,611 in 1932 as compared with $460,843,000 in 1922 and $346,551,000 in 1912. The per capita assessed valuation decreased from $826.75 in 1912 to $778.57 in 1922, and to $763.82 in 1932.

TAX LEVIES

State and county taxes are collected by the county treasurer. The county treasurer also collects taxes levied by cities and towns, except in the cities of the first, second, and third class which may provide by ordinance for the city treasurer to collect taxes. One half of all taxes is payable on or before November 30 of each year, and the remaining half on or before May 31. The ad valorem levy for 1932 for State purposes upon all property in the State subject to taxation was fixed by the legislature at 2 mills on each dollar of the taxable valuation of such property.

The total levies of the general property tax for the State and all subdivisions were $11,245,000 for 1912, $26,008,000 for 1922, and $26,317,257 for 1932, this being a per capita of $26.83, $43.94, and $48.95, respectively.

Of the total levies reported for 1932, $2,253,979 was for the State government; $9,663,670 for the counties; $2,982,091 for the cities and towns; $11,384,401 for the school districts; and $33,116 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $3.24 for 1912, $5.64 for 1922, and $6.41 for 1932.

TABLE 1.—REVENUE RECEIPTS AND PER CAPITA TOTAL REVENUE RECEIPTS, AND ESTIMATED POPULATION OF COUNTIES, CITIES AND TOWNS, SCHOOL DISTRICTS, IRRIGATION DISTRICTS, AND OTHER CIVIL DIVISIONS, BY COUNTIES: 1932

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities and villages, school districts, townships and precincts, and other civil divisions, by counties: 1932 ... 1077
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities and villages, by population groups: 1932 ... 1090
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities and villages, school districts, townships and precincts, and other civil divisions, by counties: 1932 ... 1092
4. Governmental-cost payments and per capita total governmental-cost payments of cities and villages, by population groups: 1932 ... 1106
5. Gross debt classified by character, and gross debt less sinking fund assets, of counties, cities and villages, school districts, townships and precincts, and other civil divisions, by counties: 1932 ... 1107
6. Gross debt classified by character, and gross debt less sinking fund assets, total and per capita, of cities and villages, by population groups: 1932 ... 1115
7. Total and per capita of the combined gross debt less sinking fund assets, of counties, cities and villages, school districts, townships and precincts, and other civil divisions, by counties: 1932, 1922, and 1912 ... 1116
8. Total and per capita assessed valuation of all property, subject to the general property tax, by counties: 1932, 1922, and 1912 ... 1118
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and villages, school districts, townships and precincts, and other civil divisions, by counties. 1932, 1922, and 1912 ... 1120

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Nebraska relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 93 counties, the 529 cities and villages, the 7,255 school districts, the 631 townships and precincts, and the 98 other civil divisions (ditch, drainage, dike, flood protection, irrigation, metropolitan utility, and sanitary districts), or a total of 8,607 political units that have power to levy taxes or incur debt.

The data for Nebraska were compiled from reports on file in the offices of the State Auditor, the State Superintendent of Public Instruction, and the State Tax Commission, Lincoln, Nebr., and from reports secured by local agents and through correspondence.

Fiscal year.—For Nebraska the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities and villages, the school districts, the townships and precincts, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Nebraska on January 1, 1932, was 1,386,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for Nebraska the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts by $1,404,553.

The excess of governmental costs over revenue receipts was 8 percent for the State government, 10.5 percent for the counties, and 3.7 percent for the school districts. For the cities and villages, the townships and precincts, and the other civil divisions, revenue receipts were in excess of governmental costs, the percent of excess being 13.4 for the cities and villages, 6.2 for the townships and precincts, and 18.4 for the other civil divisions.

Although the aggregate of governmental costs, including those for capital outlays, is more than the revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $17,780,876.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Nebraska and all subdivisions of the State amounted to $88,401,753, or an average of $63.78 for each person in the State. Of this amount $23,561,756 was for the State; $16,016,954 for the counties; $18,956,095 for the cities and villages; $23,749,107 for the school districts; $1,628,618 for the townships and precincts; and $4,489,223 for the other civil divisions. The revenues collected include $46,635,270, general property taxes; $331,449, special taxes; $245,420, poll taxes; $11,624,615, licenses and permits; $3,419,503, special assessments; $9,030,471, subventions, donations, and pension assessments; $1,879,392, interest, rents, and highway privileges; $8,068,397, earnings of public service enterprises; $7,014,905, earnings of general departments; and $152,331, fines, forfeits, and escheats. Of the $9,030,471 classified as subventions, donations, and pension assessments, $5,211,982 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and villages having a population of 2,500 and over.

General property taxes of the State, the counties, and urban places having a population of 2,500 and over amounted to $12,195,000 in 1912, $25,184,000 in 1922, and $22,933,263 in 1932, this being a decrease of 8.9 percent from 1922 to 1932, and an increase of 88.1 percent from 1912 to 1932. Special taxes amounted to $137,000 in 1912, $320,000 in 1922, and $331,449 in 1932. Poll taxes amounted to $200,000 in 1912, $237,000 in 1922, and $185,568 in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $1,183,000 in 1912, $2,682,000 in 1922, and $11,552,715 in 1932. Special assessments amounted to $744,000 in 1912, $1,908,000 in 1922, and $2,084,124 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Nebraska and all subdivisions of the State for 1932 amounted to $89,806,306, or an average expenditure of $64.80 per person. Of the total amount expended, $25,442,842 was disbursed by the State government; $17,694,920 by the counties; $16,713,402 by the cities and villages; $24,630,126 by the school districts; $1,533,368 by the townships and precincts; and $3,791,648 by the other civil divisions. The total comprises $60,359,533 for operation and maintenance of general departments; $5,507,868 for operation and maintenance of public service enterprises; $4,753,476 for interest on debt; and $19,185,429 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities and villages are not shown by departments in tables 3 and 4, neither are those of townships and precincts in table 3, for the reason that for the most part, the reports secured for these units did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, the school districts, and the other civil divisions are shown by departments in table 3. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures, such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities and villages or other incorporated places with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments

and public service enterprises of the State, counties, and cities and villages having a population of 2,500 and over increased from $12,756,000 to $36,325,065, or 184.8 percent; interest payments, from $1,157,000 to $1,938,053 or 67.5 percent; and outlay payments, from $11,426,000 to $17,064,813, or 49.4 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities and villages, the school districts, the townships and precincts, and the other civil divisions, by counties.

Table 6 presents for the individual cities and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1932. The aggregate debt of the cities and villages in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities and villages, the school districts, the townships and precincts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1932 the combined gross debt of Nebraska and all subdivisions of the State less sinking fund assets set aside to meet such debt was $110,506,087, or an average per capita of $79.73. In 1922 the average per capita was $73.93, and in 1912, $29.80.

Of the total debt reported for 1932, $928,576 was for the State government; $6,485,575 for the counties; $48,261,059 for the cities and villages; $34,647,100 for the school districts; $496,796 for the townships and precincts; and $19,686,981 for the other civil divisions.

The gross debt of the State government, less sinking fund assets, decreased 10.5 percent from 1922 to 1932 and increased 148.3 percent from 1912 to 1932. Similar debt for all minor civil divisions combined increased 13.3 percent from 1922 to 1932 and 201.3 percent from 1912 to 1932.

ASSESSED VALUATIONS

In Nebraska all property subject to taxation is valued and assessed at its actual value, or its value in the market in the ordinary course of business. Property is assessed by county and precinct assessors. If the voters decide against the election of a county assessor, the duties devolve upon the county clerk. One precinct assessor is elected for each precinct, ward, or township, and such assessors are required to complete their work and deliver the rolls to the county treasurer for revision not later than the last Monday in May of each year.

The assessed valuation of all property in Nebraska subject to levies of the general property tax was $2,675,864,395 in 1932 as compared with $3,202,706,000 in 1922 and $463,372,000 in 1912. The per capita assessed valuation increased from $375.77 in 1912 to $2,422.07 in 1922, and decreased to $1,930.64 in 1932.

TAX LEVIES

State, county, and municipal taxes are collected by the county treasurer.

Under an act of 1933, all real property taxes levied for the State, or for any county, city, village, school district, or other political subdivision, are due and payable on January 1 following the date of levy. Personal property taxes levied become due and payable on November 1 next following the date of levy.

The total levies of the general property tax for the State and all subdivisions were $19,781,000 for 1912, $53,236,000 for 1922, and $48,522,664 for 1932, this being a per capita of $16.04, $40.26, and $35.01, respectively.

Of the total levies reported for 1932, $6,198,215 was for the State government; $8,696,221 for the counties; $9,706,921 for the cities and villages; $22,625,360 for the school districts; $1,195,431 for the townships and precincts; and $100,516 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $4.27 for 1912, $1.66 for 1922, and $1.81 for 1932.

NEVADA

INTRODUCTION — Page

Scope of report 1123
Fiscal year 1123
Population 1123
Summary of revenue receipts, governmental costs, debt, and general property tax levies, 1931 ... 1123

DESCRIPTION OF GENERAL TABLES:

Revenue receipts 1124
Governmental-cost payments 1124
Public indebtedness 1125
Assessed valuations 1125
Tax levies 1125

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities and towns, school districts, and other civil divisions, by counties: 1931 1126
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities and towns, by population groups: 1931 1129
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities and towns, school districts, and other civil divisions, by counties: 1931 1130
4. Governmental-cost payments and per capita total governmental-cost payments of cities and towns, by population groups: 1931 1133
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities and towns, school districts, and other civil divisions, by counties: 1931 1134
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities and towns, by population groups: 1931 1135
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities and towns, school districts, and other civil divisions, by counties: 1931, 1922, and 1912 1136
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1931, 1922, and 1912 1137
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and towns, school districts, and other civil divisions, by counties: 1931, 1922, and 1912 1138

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Nevada relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 17 counties, the 36 cities and towns, the 340 school districts, and the 6 other civil divisions (irrigation, drainage, and light districts), or a total of 400 political units that have power to levy taxes or incur debt.

The data for Nevada were compiled largely from reports on file at the State Capitol, Carson City, Nev.

Fiscal year.—For Nevada the fiscal year reported for the State government is that ending June 30, 1931, while the statistics for the counties, the cities and towns, the school districts, and the other civil divisions, are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Nevada on January 1, 1932 was 92,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for Nevada the aggregate of revenue receipts is in excess of governmental costs, including those for capital outlays, by $516,941. The cities and towns and school districts show an excess of governmental costs over receipts, while the State government, the counties, and the other civil divisions show an excess of revenue receipts over governmental costs.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Nevada and all subdivisions of the State amounted to $12,568,131, or an average of $136.61 for each person in the State. Of this amount $4,929,093 was for the State; $4,185,140 for the counties; $1,225,499 for the cities and towns; $1,829,611 for the school districts; and $398,788 for the other civil divisions. The revenues collected include $5,964,803, general property taxes; $108,839, special taxes; $62,925, poll taxes; $1,491,708, licenses and permits; $425,072, special assessments; $3,106,886, subventions, donations, and pension assessments; $323,202, interest, rents, and highway privileges; $288,237, earnings of public-service enterprises; $766,592, earnings of general departments; and $29,867, fines, forfeits, and escheats. Of the $3,106,886 classified as subventions, donations, and pension assessments, $1,754,356 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and towns having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities and towns having a population of 2,500 and over amounted to $2,119,000 in 1912, $4,639,000 in 1922, and $5,221,190 in 1931, this being an increase of 12.5 percent from 1922 to 1931, and 146.4 percent from 1912 to 1931. Special taxes amounted to $6,000 in 1922 and $108,839 in 1931. No special taxes were reported for Nevada in 1912. Poll taxes amounted to $63,000 in 1912, $56,000 in 1922, and $61,614 in 1931. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $301,000 in 1912, $386,000 in 1922, and $1,453,357 in 1931. Special assessments amounted to $17,000 in 1912, $580,000 in 1922, and $144,802 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Nevada and all subdivisions of the State for 1931 amounted to $12,051,190, or an average expenditure of $130.99 per person. Of the total amount expended, $4,588,289 was disbursed by the State government; $3,890,464 by the counties; $1,346,440 by the cities and towns; $1,841,766 by the school districts; and $384,231 by the other civil divisions. The total comprises $8,498,008 for operation and maintenance of general departments; $237,231 for operation and maintenance of public-service enterprises; $458,336 for interest on debt; and $2,857,615 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $1,212,178; protection to person and property, $634,984; health and sanitation, $105,703; development and conservation of natural resources, $605,700; highways, $1,116,633; charities, hospitals, and corrections, $803,149; schools, $3,744,786; libraries, $66,287; recreation, $34,277; and miscellaneous, $174,311. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities or other incorporated places with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to

1931 the payments for operation and maintenance of general departments and public-service enterprises of the State, counties, and cities and towns, having a population of 2,500 and over increased from $2,657,000 to $6,714,770, or 152.7 percent; interest payments, from $136,000 to $249,505, or 83.5 percent; and outlay payments, from $284,000 to $2,484,765, or 774.9 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking-fund assets of the State government, and of the counties, the cities and towns, the school districts, and the other civil divisions, by counties. The aggregate for the State and the totals for the counties and the cities and towns are comparable with prior reports on this subject.

Table 6 presents for the individual cities and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1931. The aggregate debt of the cities and towns in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking-fund assets—total and per capita—of the government of the State, the counties, the cities and towns, the school districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions in the county.

For 1931 the combined gross debt of Nevada and all subdivisions of the State less sinking-fund assets set aside to meet such debt was $9,945,219, or an average per capita of $108.10. In 1922 the average per capita was $90.49, and in 1912, $33.60.

Of the total debt reported for 1931, $1,369,917 was for the State government; $1,826,702 for the counties; $1,771,727 for the cities and towns; $1,596,261 for the school districts; and $3,380,612 for the other civil divisions.

The gross debt of the State government, less sinking-fund assets, decreased 21.8 percent from 1922 to 1931 and increased 125.3 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 63.2 percent from 1922 to 1931 and 233 percent from 1912 to 1931.

ASSESSED VALUATIONS

Taxable property in Nevada is assessed annually at its cash value, by county assessors, between January 1 and the second Monday in July. The assessment made by the assessors, as apportioned by the county commissioners, is the only basis of taxation for city, town, school, or other districts in the counties.

The assessed valuation of all property in Nevada subject to levies of the general property tax was $206,991,291 in 1931, as compared with $195,835,000 in 1922 and $101,087,000 in 1912. The per capita assessed valuation increased from $1,067.20 in 1912 to $2,529.94 in 1922, and decreased to $2,249.91 in 1931.

TAX LEVIES

In Nevada the county treasurers are receivers of all taxes on real and personal property. The tax rolls are delivered to the treasurers by the county auditors on or before the first Monday in November, and the taxes become delinquent on or before the first Monday in December following.

The total levies of the general property tax for the State and all subdivisions were $2,276,000 for 1912, $5,068,000 for 1922, and $6,177,810 for 1931, this being a per capita of $24.02, $65.47, and $67.15, respectively.

Of the total levies reported for 1931, $1,426,194 was for the State government; $3,457,396 for the counties; $702,559 for the cities and towns; $576,419 for the school districts; and $15,242 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $2.25 for 1912, $2.59 for 1922, and $2.98 for 1931.

5. Gross debt classified by character, and gross debt less sinking fund assets, of counties, cities, and towns, by counties: 1931 1150
6. Gross debt classified by character, and gross debt less sinking fund assets, total and per capita, of cities, by population groups: 1931 1151
7. Total and per capita of the combined gross debt less sinking fund assets, of counties, cities, and towns, by counties: 1931, 1922, and 1912 1151
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1931, 1922, and 1912 1152
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities, and towns, by counties: 1931, 1922, and 1912 1152

INTRODUCTION

Scope of report.—The statistics herein presented for the State of New Hampshire relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 10 counties, the 11 cities, and the 224 towns, or a total of 246 political units that have power to levy taxes or incur debt.

The data for New Hampshire were compiled from reports on file in the office of the State tax commission, Concord, N.H.

Fiscal year.—For New Hampshire the fiscal year reported for the State government is that ending June 30, 1931; while the statistics for the counties, the cities, and the towns are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of New Hampshire on January 1, 1932, was 468,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for New Hampshire the aggregate of revenue receipts is in excess of governmental costs, including those for capital outlays, by $88,024. The cities and the towns also show an excess of revenue receipts over all governmental costs, but for the State government and the counties an excess of governmental costs over revenue receipts is shown.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of New Hampshire and all subdivisions of the State amounted to $38,011,963, or an average of $81.22 for each person in the State. Of this amount $11,397,977 was for the State; $1,805,123 for the counties; $10,751,236 for the cities; and $14,057,627 for the towns. The revenues collected include $22,086,297, general property taxes; $2,110,460, special taxes; $401,359, poll taxes; $5,671,337, licenses and permits; $33,441, special assessments; $3,281,915, subventions, donations, and pension assessments; $460,563, interest, rents, and highway privileges; $1,381,390, earnings of public service enterprises; $2,407,409, earnings of general departments; and $177,792, fines, forfeits, and escheats Of the $3,281,915 classified as subventions, donations, and pension assessments, $1,135,044 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, cities, and towns having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities amounted to $4,015,000 in 1912, $10,645,000 in 1922, and $12,419,573 in 1931, this being an increase of 16.7 percent from 1922 to 1931, and of 209.3 percent from 1912 to 1931. Special taxes amounted to $430,000 in 1912, $1,041,000 in 1922, and $1,364,851 in 1931. Poll taxes amounted to $46,000 in 1912, $804,000 in 1922, and $190,892 in 1931. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $621,000 in 1912, $1,733,000 in 1922, and $5,611,513 in 1931. Special assessments amounted to $4,000 in 1912, $46,000 in 1922, and $25,066 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of New Hampshire and all subdivisions of the State for 1931 amounted to $37,923,939, or an average expenditure of $81.03 per person. Of the total amount expended, $13,054,306 was disbursed by the State government; $2,264,626 by the counties; $10,279,758 by the cities; and $12,325,249 by the towns. The total comprises $29,214,635 for operation and maintenance of general departments; $1,065,902 for operation and maintenance of public-service enterprises; $1,444,857 for interest on debt; and $6,198,545 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $2,225,074; protection to person and property, $2,286,682; health and sanitation, $824,604; development and conservation of natural resources by State government, $679,473; highways, $10,508,742; charities, hospitals, and corrections, $3,490,436; schools, $8,164,025; libraries, $312,412; recreation, $272,031; and miscellaneous, $451,156. Expenditures for maintenance of schools other than schools of the State government and those for cities of over 30,000 population may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data for New Hampshire were limited to the State, counties, cities, and towns, or other incorporated places with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1931 the payments for operation and maintenance of general departments and public service enterprises of the State, counties, and cities increased from $4,468,000 to $20,402,432, or 356.6 percent; interest payments, from $380,000 to $992,061, or 161.1 percent; and outlay payments, from $907,000 to $4,204,197, or 363.5 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities, and the towns, by counties. The aggregate for the State and the totals for the counties, the cities, and the towns are comparable with prior reports on this subject.

Table 6 presents for the individual cities, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1931. The aggregate debt of the cities in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities, and the towns. The amounts shown opposite the name of each county represent the combined debt of the county government and all minor civil divisions of the county.

For 1931 the combined gross debt of New Hampshire and all subdivisions of the State less sinking fund assets set aside to meet such debt was $31,735,605, or an average per capita of $67.81. In 1922 the average per capita was $36.16, and in 1912, $25.87.

Of the total debt reported for 1931, $6,505,130 was for the State government; $1,648,045 for the counties; $13,738,089 for the cities; and $9,844,341 for the towns.

The gross debt of the State government, less sinking fund assets, increased 115.5 percent from 1922 to 1931 and 232.6 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 92.5 percent from 1922 to 1931 and 170 percent from 1912 to 1931.

ASSESSED VALUATIONS

In New Hampshire taxable property is assessed by town selectmen—a board of three officials—one of whom is elected annually for 3 years. Any town, however, may choose assessors, who, with the selectmen, constitute a joint board for the assessment of taxes. The selectmen assess all State and county taxes for which they have warrants. Cities may choose assessors who perform all the duties in regard to the assessment of taxes as is required of town selectmen and assessors.

The assessed valuation of all property in New Hampshire subject to levies of the general property tax was $679,523,243 in 1931 as compared with $617,981,000 in 1922, and $439,683,000 in 1912. The per capita assessed valuation increased from $1,006.74 in 1912 to $1,386 in 1922, and to $1,451.97 in 1931.

TAX LEVIES

In New Hampshire one or more collectors of taxes are chosen annually by the various towns to collect all local and State taxes, except those on railroads and other public utilities. A collector of taxes is also appointed in each city. A list of all taxes assessed by the selectmen is sent to the collector of the town, and he, on or before September 1, or within 30 days after receipt of the list, sends to every person taxed a bill thereof. Taxes become delinquent December 1 after assessment.

The total levies of the general property tax for the State and all subdivisions were $6,978,000 for 1912, $15,029,000 for 1922, and $20,320,009 for 1931, this being a per capita of $15.98, $33.71, and $43.42, respectively.

Of the total levies reported for 1931, $2,998,073 was for the State government; $1,623,381 for the counties; $7,475,237 for the cities; and $8,223,318 for the towns. The average rate of levy per $100 of the assessed valuation was $1.59 for 1912, $2.43 for 1922, and $2.99 for 1931.

DESCRIPTION OF GENERAL TABLES:

Revenue receipts 1155
Governmental-cost payments 1156
Public indebtedness 1156
Assessed valuations 1156
Tax levies 1156

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities, towns, boroughs, and villages, school districts, townships, and other civil divisions, by counties: 1931 1157
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities, towns, boroughs, and villages, by population groups: 1931 1162
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities, towns, boroughs, and villages, school districts, townships, and other civil divisions, by counties: 1931 1167
4. Governmental-cost payments and per capita total governmental-cost payments of cities, towns, boroughs, and villages, by population groups: 1931 1172
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities, towns, boroughs, and villages, school districts, townships, and other civil divisions, by counties: 1931 1177
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities, towns, boroughs, and villages, by population groups: 1931 1179
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities, towns, boroughs, and villages, school districts, townships, and other civil divisions, by counties: 1931, 1922, and 1912 1182
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1931, 1922, and 1912 1183
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities, towns, boroughs, and villages, school districts, and townships, by counties: 1931, 1922, and 1912 1184

INTRODUCTION

Scope of report.—The statistics herein presented for the State of New Jersey relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 21 counties, the 328 cities, towns, boroughs, and villages, the 547 school districts, the 235 townships, and the 3 other civil divisions (Port of New York Authority, Delaware River Joint Commission of Pennsylvania and New Jersey, and Pensauken-Merchantville Joint Water Commission), or a total of 1,135 political units that have power to levy taxes or incur debt.

The data for New Jersey were compiled largely from reports on file in the Department of Municipal Accounts, Trenton, N.J., and from reports received through correspondence.

Fiscal year.—For New Jersey the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities, towns, boroughs, and villages, the school districts, the townships, and the other civil divisions, are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of New Jersey on January 1, 1932, was 4,132,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for New Jersey the aggregate of governmental costs, including those for capital outlays, is in excess of the revenue receipts. This excess of governmental costs over revenue receipts was 29.4 percent for the State government, 23.9 percent for the counties, 16.6 percent for the cities, towns, boroughs, and villages, 6.6 percent for the school districts, and 2.1 percent for the townships.

Although the aggregate of governmental costs, including those for capital outlays, is $109,317,718 more than the revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $47,663,737.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES

[1] Data for the schools of cities and towns having a population of 30,000 and over and for the city of Linden are included with the data for cities, towns, boroughs, and villages.

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of New Jersey and all subdivisions of the State amounted to $427,706,058, or an average of $103.51 for each person in the State. Of this amount $92,418,164 was for the State; $57,675,856 for the counties; $195,584,159 for the cities, towns, boroughs, and villages; $57,035,248 for the school districts; $19,463,301 for the townships; and $5,529,330 for the other civil divisions. The revenues collected include $235,824,072, general property taxes; $16,996,256, special taxes; $197,827, poll taxes; $36,628,313, licenses and permits; $15,689,431, special assessments; $57,530,191, subventions, donations, and pension assessments; $19,625,030, interest, rents, and highway privileges; $26,430,497, earnings of public service enterprises; $17,138,973, earnings of general departments; and $1,645,468, fines, forfeits, and escheats. Of the $57,530,191 classified as subventions, donations, and pension assessments, $2,456,675 represents subventions by the Federal Government to the State, principally for highways.

Data for schools of the cities and towns of New Jersey with 30,000 population and over and for the city of Linden are not included with the data for school districts, by counties, but are shown as a part of the financial transactions of the cities and towns in which the schools are located.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities, towns, boroughs, and villages having a population of 2,500 and over.

With few exceptions, separate data for poll taxes were not available for places in New Jersey of less than 30,000 population. These data are included with the general property tax. General property taxes of the State, the counties, and the cities, towns, boroughs, and villages having a population of 2,500 and over amounted to $39,613,000 in 1912, $110,740,000 in 1922, and $196,624,530 in 1931, this being an increase of 77.6 percent from 1922 to 1931, and of 396.4 percent from 1912 to 1931. Special taxes amounted to $759,000 in 1912, $7,752,000 in 1922, and $16,873,154 in 1931. Poll taxes amounted to $132,000 in 1912, $269,000 in 1922, and $184,950 in 1931. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $5,912,000 in 1912, $11,840,000 in 1922, and $35,569,212 in 1931. Special assessments amounted to $2,818,000 in 1912, $4,405,000 in 1922 and $10,847,438 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of New Jersey and all subdivisions of the State for 1931 amounted to $537,023,776, or an average expenditure of $129 97 per person. Of the total amount expended, $119,555,938 was disbursed by the State government; $71,451,186 by the counties; $228,097,555 by the cities, towns, boroughs, and villages; $60,784,787 by the school districts; $19,881,220 by the townships; and $37,253,090 by the other civil divisions. The total comprises $308,575,374 for operation and maintenance of general departments; $16,597,018 for operation and maintenance of public service enterprises; $54,869,929 for interest on debt; and $156,981,455 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $31,336,302; protection to person and property, $45,942,180; health and sanitation, $19,312,914; development and conservation of natural resources by State government, $2,610,448; highways, $34,366,101; charities, hospitals, and corrections, $41,652,477; schools, $115,-516,807; libraries, $2,413,735; recreation, $6,069,063; and miscellaneous, $9,355,-347. Expenditures for maintenance of schools other than schools of the State government and those for cities and towns of over 30,000 population may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data for New Jersey were limited to the State, counties, and cities, towns, boroughs, and villages with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1931 the payments for operation and maintenance of general departments and public service enterprises of the State, counties, and cities, towns, boroughs, and villages of 2,500 population and over increased from $52,599,000 to $260,273,965, or 394.8 percent; interest payments, from $7,549,000 to $40,873,774, or 441.4 percent; and outlay payments, from $17,749,000 to $108,670,699, or 512.3 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities, towns, boroughs, and villages, the school districts, the townships, and the other civil divisions, by counties.

Table 6 presents for the individual cities, towns, boroughs, and villages, by population groups, the gross debt classified by character and the total and per capita gross debt less sinking fund assets, for the year 1931. The aggregate debt of the cities, towns, boroughs, and villages in each county is shown in Table 5.

In Table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities, towns, boroughs, and villages, the school districts, the townships, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all minor civil divisions of the county.

For 1931 the combined gross debt of New Jersey and all subdivisions of the State less sinking fund assets set aside to meet such debt was $1,151,230,953, or an average per capita of $278 61. In 1922 the average per capita was $116.40, and in 1912, $61.89.

Of the total debt reported for 1931, $62,198,410 was for the State government; $171,127,648 for the counties; $636,738,869 for the cities, towns, boroughs, and villages; $108,799,558 for the school districts; $74,306,547 for the townships; and $98,059,921 for the other civil divisions.

The gross debt of the State government, less sinking fund assets, increased 280.3 percent from 1922 to 1931 and 9,588.2 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 197.7 percent from 1922 to 1931 and 542.4 percent from 1912 to 1931.

ASSESSED VALUATIONS

In New Jersey all property, real and personal, within the jurisdiction of the State, not expressly exempted, is subject to taxation annually at its true value. All property is assessed to the owners as of October 1 in each year.

Property is assessed by assessors and boards of assessors in cities, townships, towns, and boroughs. In some cities, however, assessments are made by commissioners of assessment of taxes.

The assessed valuation of all property in New Jersey subject to levies of the general property tax was $6,819,527,390 in 1931 as compared with $4,102,365,000 in 1922 and $2,490,490,000 in 1912. The per capita assessed valuation increased from $905.80 in 1912 to $1,249.44 in 1922, and to $1,650.42 in 1931.

TAX LEVIES

In New Jersey tax collectors, sometimes called receivers of taxes, collect all taxes. All taxes, except poll, are payable one half on April 1 and they become delinquent if not paid by June 1. The remaining one half is payable on or before December 1, and becomes delinquent after that date.

The total levies of the general property tax for the State and all subdivisions were $49,424,000 for 1912, $145,355,000 for 1922, and $269,595,265 for 1931, this being a per capita of $17.98, $44.27, and $65.25, respectively.

Of the total levies reported for 1931, $37,302,495 was for the State government; $47,412,532 for the counties; $134,212,517 for the cities, towns, boroughs, and villages; $38,702,557 for the school districts; and $11,965,164 for the townships. The average rate of levy per $100 of the assessed valuation was $1.98 for 1912, $3.54 for 1922, and $3.95 for 1931.

4. Governmental-cost payments and per capita total governmental-cost payments of cities, towns, and villages, by population groups: 1932 1200
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities, towns, and villages, school districts, and other civil divisions, by counties: 1932 1201
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities, towns, and villages, by population groups. 1932 1203
7. *Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities,* towns, and villages, school districts, and other civil divisions, by counties: 1932, 1922, and 1912 1204
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1932, 1922, and 1912 1205
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities, towns, and villages, and school districts, by counties. 1932, 1922, and 1912 1206

INTRODUCTION

Scope of report.—The statistics herein presented for the State of New Mexico relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 31 counties, the 60 cities, towns, and villages, the 1,075 school districts, and the 16 other civil divisions (conservancy districts, drainage districts, and irrigation districts), or a total of 1,183 political units that have power to levy taxes or incur debt.

The data for New Mexico were compiled largely from reports on file at the State Capitol, Santa Fe, N Mex.

Fiscal year.—For New Mexico the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities, towns, and villages, the school districts, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of New Mexico on January 1, 1932, was 430,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for New Mexico the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts. The State government and the school districts show an excess of governmental costs over revenue receipts, but for the counties, cities, towns, and villages, and the other civil divisions, an excess of revenue receipts over governmental costs is shown.

Although the aggregate of governmental costs, including those for capital outlays, is $398,172 more than the revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $5,188,237.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenue collected for the State of New Mexico and all subdivisions of the State amounted to $23,313,034, or an average of $54.22 for each person in the State. Of this amount $10,795,300 was for the State; $2,370,747 for the counties; $2,369,217 for the cities, towns, and villages; $6,791,932 for the school districts; and $985,838 for the other civil divisions. The revenues collected include $10,224,867, general property taxes; $58,165, special taxes; $3,576,933, licenses and permits; $1,223,910, special assessments; $4,964,862, subventions, donations, and pension assessments; $1,419,801, interest, rents, and highway privileges; $590,846, earnings of public-service enterprises; $1,187,821, earnings of general departments; and $65,829, fines, forfeits, and escheats. Of the $4,964,862 classified as subventions, donations, and pension assessments, $2,928,097 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities, towns, and villages having a population of 2,500 and over.

The general property taxes of the State, the counties, and the cities, towns, and villages having a population of 2,500 and over amounted to $2,232,000 in 1912, $9,506,000 in 1922, and $4,747,492 in 1932, this being a decrease of 50.1 percent from 1922 to 1932, and an increase of 112.7 percent from 1912 to 1932. Special taxes amounted to $33,000 in 1912, $32,000 in 1922, and $58,165 in 1932. Poll taxes amounted to $36,000 in 1912 and $82,000 in 1922. No poll taxes were reported for 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $228,000 in 1912, $648,000 in 1922, and $3,541,452 in 1932. Special assessments amounted to $11,000 in 1912, $492,000 in 1922, and $556,326 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of New Mexico and all subdivisions of the State for 1932 amounted to $23,711,206, or an average expenditure of $55.14 per person. Of the total amount expended, $11,704,322 was disbursed by the State government; $2,364,148 by the counties; $2,049,986 by the cities, towns, and villages; $6,906,762 by the school districts; and $685,988 by other civil divisions. The total comprises $16,084,151 for operation and maintenance of general departments; $492,919 for operation and maintenance of public-service enterprises; $1,547,727 for interest on debt; and $5,586,409 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $2,168,091; protection to person and property, $800,014; health and sanitation, $311,990; development and conservation of natural resources, $777,115; highways, $2,319,576; charities, hospitals, and corrections, $696,222; schools, $8,780,938; libraries, $28,358; recreation, $63,382; and miscellaneous, $138,465. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data for New Mexico were limited to State, counties, and cities, towns, and villages with a population of 2,500 and over. Data for the incorporated places reported included

data for the schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments and public-service enterprises of the State, counties, and cities, towns, and villages having a population of 2,500 and over increased from $2,584,000 to $9,939,953, or 284.7 percent; interest payments, from $254,000 to $959,514, or 277.8 percent; and outlay payments, from $426,000 to $4,926,393, or 1,056.4 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities, towns, and villages, the school districts, and the other civil divisions, by counties.

Table 6 presents for the individual cities, towns, and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking-fund assets, for the year 1932. The aggregate debt of the cities, towns, and villages in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking-fund assets—total and per capita—of the government of the State, the counties, the cities, towns, and villages, the school districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1932 the combined gross debt of New Mexico and all subdivisions of the State less sinking fund assets set aside to meet such debt was $36,942,977, or an average per capita of $85.91. In 1922 the average per capita was $67.86, and in 1912, $20.70.

Of the total debt reported for 1932, $11,406,780 was for the State government; $3,965,445 for the counties; $9,531,276 for the cities, towns, and villages; $7,289,817 for the school districts; and $4,749,659 for the other civil divisions.

The gross debt of the State government, less sinking-fund assets, increased 130.3 percent from 1922 to 1932 and 836.5 percent from 1912 to 1932. Similar debt for all minor civil divisions combined increased 27 3 percent from 1922 to 1932 and 296.3 percent from 1912 to 1932.

ASSESSED VALUATIONS

In New Mexico all property, both real and personal, is listed, assessed, and taxed in the county where situated on January 1 of each year. The lists must be returned to the county assessor on or before the first business day of February. Property assessed and valued by the State tax commission is not required to be listed and returned to the county assessors.

The assessed valuation of all property in New Mexico subject to levies of the general property tax was $334,301,418 in 1932 as compared with $329,899,000 in 1922 and $72,458,000 in 1912. The per capita assessed valuation increased from $195.73 in 1912 to $895.06 in 1922, and to $777.44 in 1932.

TAX LEVIES

In New Mexico the county treasurer is ex officio tax collector of State, county, and municipal taxes. He also collects taxes for the conservancy, irrigation, and drainage districts.

If taxes are not paid by December 1 of the year in which levied, one half becomes delinquent; if not paid by May 1 following, the remaining one half becomes delinquent. All delinquent taxes bear interest at the rate of 1 percent per month.

The total levies of the general property tax for the State and all subdivisions were $3,426,000 for 1912, $8,805,000 for 1922, and $11,908,166 for 1932, this being a per capita of $9.26, $23.89, and $27.69, respectively.

Of the total levies reported for 1932, $2,186,162 was for the State government; $2,363,411 for the counties; $1,039,211 for the cities, towns, and villages; and $6,319,382 for the school districts. The average rate of levy per $100 of the assessed valuation was $4.73 for 1912, $2.67 for 1922, and $3.56 for 1932.

TABLE 1.—REVENUE RECEIPTS AND PER CAPITA TOTAL REVENUE RECEIPTS, AND ESTIMATED POPULATION OF COUNTIES, CITIES, TOWNS, AND VILLAGES, SCHOOL DISTRICTS, AND OTHER CIVIL DIVISIONS, BY COUNTIES: 1932

Summary of revenue receipts, governmental costs, debt, and general property tax levies. 1931 ---- 1209

DESCRIPTION OF GENERAL TABLES:

Revenue receipts ---- 1210
Governmental-cost payments ---- 1210
Public indebtedness ---- 1211
Assessed valuations ---- 1211
Tax levies ---- 1212

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities and villages, school districts, towns, and other civil divisions, by counties 1931 ---- 1213
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities and villages, by population groups: 1931 ---- 1223
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities and villages, school districts, towns, and other civil divisions, by counties. 1931 ---- 1229
4. Governmental-cost payments and per capita total governmental-cost payments of cities and villages, by population groups: 1931 ---- 1230
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities and villages, school districts, towns, and other civil divisions, by counties 1931 ---- 1245
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities and villages, by population groups: 1931 ---- 1250
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities and villages, school districts, towns, and other civil divisions, by counties: 1931, 1922, and 1912 ---- 1253
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties. 1931, 1922, and 1912 ---- 1254
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and villages, school districts, towns, and other civil divisions, by counties. 1931, 1922, and 1912 ---- 1256

INTRODUCTION

Scope of report.—The statistics herein presented for the State of New York relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 57 counties, the 595 cities and villages, the 9,079 school districts, the 932 towns, and the 4 other civil divisions (Port of New York Authority, Port of Albany, Hudson River Regulating district, and Black River Regulating district), or a total of 10,668 political units that have power to levy taxes or incur debt.

The data for New York were compiled largely from reports on file at the Department of Audit and Control and the State Tax Commission, Albany, New York.

Fiscal year.—For New York the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities and villages, the school districts, the towns, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of New York on January 1, 1932, was 12,812,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for New York the aggregate of governmental costs, including those for capital outlays, is in excess of the revenue receipts. This excess of governmental costs over revenue receipts was 40.6 percent for the State government, 38.5 percent for the counties (exclusive of Bronx, Kings, New York, Queens, and Richmond Counties), 13.6 percent for the cities and villages (exclusive of Greater New York), 4.2 percent for Greater New York, 11.4 percent for the school districts, and 21.2 percent for the towns.

Although the aggregate of governmental costs, including those for capital outlays, is $250,671,379 more than the revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $182,187,734.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of New York and all subdivisions of the State amounted to $1,388,734,303, or an average of $108.39 for each person in the State. Of this amount $257,569,274 was for the State; $86,586,690 for the counties (exclusive of Bronx, Kings, New York, Queens, and Richmond Counties); $234,050,146 for the cities and villages (exclusive of Greater New York); $681,499,857 for Greater New York; $77,937,629 for the school districts; $46,223,723 for the towns; and $4,866,984 for the other civil divisions. The revenues collected include $779,530,234, general property taxes; $125,675,285, special taxes; $146,426,117, licenses and permits; $30,186,879, special assessments; $155,953,881, subventions, donations, and pension assessments; $49,223,375, interest, rents, and highway privileges; $64,234,238, earnings of public service enterprises; $34,497,006, earnings of general departments; and $3,007,288, fines, forfeits, and escheats. Of the $155,953,881 classified as subventions, donations, and pension assessments, $16,353,272 represents subventions by the Federal Government to the State, principally for highways; and $46,190,064, subventions by the State to Greater New York for education. The data reported for school districts are exclusive of data for the schools of Greater New York and certain other cities and villages in which the schools are under the jurisdiction of the city or village governments.

In the survey for 1922 data on revenues for New York were limited to general property taxes, special taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and villages having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities and villages having a population of 2,500 and over amounted to $201,343,000 in 1912, $420,025,000 in 1922, and $694,595,006 in 1931, this being an increase of 65.4 percent from 1922 to 1931, and 245 percent from 1912 to 1931. Special taxes amounted to $28,400,000 in 1912, $68,228,000 in 1922, and $122,397,690 in 1931. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $28,380,000 in 1912, $60,180,000 in 1922, and $144,662,561 in 1931. Special assessments amounted to $16,593,000 in 1912, $16,620,000 in 1922, and $30,003,185 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of New York and all subdivisions of the State for 1931 amounted to $1,639,405,682, or an average expenditure of $127.96 per person. Of the total amount expended, $362,210,410 was disbursed by the State government; $119,905,848 by the counties (exclusive of Bronx, Kings, New York, Queens, and Richmond Counties); $265,932,644 by the cities and villages (exclusive of Greater New York); $710,127,005 by Greater New York; $86,834,375 by the school districts; $56,000,973 by the towns; and $38,394,427 by the other civil divisions. The total comprises $1,027,082,797 for operation and maintenance of general departments; $33,720,981 for operation and maintenance of public-service enterprises; $145,742,791 for interest on debt; and $432,859,113 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $96,166,720; protection to person and property, $138,818,941; health and sanitation, $77,267,953; development and conservation of natural resources by the State government, $8,610,412; highways, $102,798,989; charities, hospitals, and corrections, $133 896,142; schools, $381,349,770; libraries, $5,751,753; recreation, $25,600,921; and miscellaneous,

$56,821,196. Expenditures for maintenance of schools other than schools of the State government and those for cities of over 30,000 population may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities and villages or other incorporated places with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1931 the payments for operation and maintenance of general departments and public-service enterprises of the State, counties, and cities and villages having a population of 2,500 and over increased from $225,609,000 to $951,361,386, or 321.7 percent; interest payments, from $51,748,000 to $132,529,819, or 156.1 percent; and outlay payments, from $114,629,000 to $363,300,075, or 216.9 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities and villages, the school districts, the towns, and the other civil divisions, by counties. The aggregate for the State and the totals for the counties and the cities and villages are comparable with prior reports on this subject.

Table 6 presents for the individual cities and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1931. The aggregate debt of the cities and villages in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities and villages, the school districts, the towns, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1931 the combined gross debt of New York and all subdivisions of the State less sinking fund assets set aside to meet such debt was $3,477,232,971, or an average per capita of $271.40. In 1922 the average per capita was $158.15, and in 1912, $116.59.

Of the total debt reported for 1931, $463,068,088 was for the State government; $228,510,636 for the counties (exclusive of Bronx, Kings, New York, Queens, and Richmond Counties); $550,972,002 for the cities and villages (exclusive of Greater New York); $1,913,936,971 for Greater New York; $126,551,795 for the school districts; $96,321,336 for the towns; and $97,872,143 for the other civil divisions.

The gross debt of the State government, less sinking fund assets, increased 148.2 percent from 1922 to 1931 and 437.2 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 101.3 percent from 1922 to 1931 and 188.1 percent from 1912 to 1931.

ASSESSED VALUATIONS

In New York all real and personal property subject to taxation is assessed at its full value. Real property is assessed as of July 1 in the taxing district in which situated, and personal property with few exceptions is assessed in the taxing district in which the owner or agent resides. The assessors of each taxing district are required to ascertain, between January 1 and July 1, all property and persons taxable therein, and prepare an assessment roll, which is to be completed on or before August 1.

Assessment rolls are examined and equalized by the county board of supervisors of the various counties and delivered to the collectors of each district on or before December 15 (or such date as is designated by the supervisors), with warrants for the collection of the sums specified therein on or before February 1.

The assessed valuation of all property in New York subject to levies of the general property tax was $29,559,935,648 in 1931 as compared with $15,390,399,000 in 1922 and $11,131,779,000 in 1912. The per capita assessed valuation increased from $1,146.08 in 1912 to $1,445.49 in 1922, and to $2,307.21 in 1931.

TAX LEVIES

In New York each collector of taxes, upon receipt of the assessment roll, gives notice of the places where he will receive taxes for the next 30 days after publication of such notice. After the expiration of the 30 days the collector is required to call on every person residing in the taxing district whose taxes are unpaid, and demand payment thereof. Some towns are required to elect a receiver of taxes, while in others the office of collector of taxes may be abolished and taxes are then collected by the town clerk.

The total levies of the general property tax for the State and all subdivisions were $221,467,000 for 1912, $454,878,000 for 1922, and $824,022,593 for 1931, this being a per capita of $22.80, $42.72, and $64.32, respectively.

Of the total levies reported for 1931, $2,363,298 was for the State government; $63,631,446 for the counties (exclusive of Bronx, Kings, New York, Queens, and Richmond Counties); $157,626,638 for the cities and villages (exclusive of Greater New York); $513,146,460 for Greater New York; $43,908,021 for the school districts; $43,056,373 for the towns; and $290,357 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $1.99 for 1912, $2.96 for 1922, and $2.79 for 1931.

[1] Exclusive of Bronx, Kings, New York, Queens, and Richmond Counties.
[2] Exclusive of Greater New York.
[3] Exclusive of Greater New York and certain other cities and villages in which the schools are under the jurisdiction of the city or village.
[4] Includes only the debt of school districts outside of cities and villages having a population of 2,500 and over. Debt on account of schools in cities and villages with a population of 2,500 and over is included with city or village liabilities.
[5] Not computed.
[6] Includes $80,942,143, New York's portion of the debt of Port of New York Authority, not distributable by counties.
[7] Tabulated as municipal; included in the city of Greater New York.

Fiscal year 1260
Population 1260
Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931 1260

DESCRIPTION OF GENERAL TABLES:

Revenue receipts 1261
Governmental-cost payments 1261
Public indebtedness 1262
Assessed valuations 1262
Tax levies 1262

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities, towns, and villages, school districts, and other civil divisions, by counties. 1931 1263
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities, towns, and villages, by population groups: 1931 1277
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities, towns, and villages, school districts, and other civil divisions, by counties: 1931 1280
4. Governmental-cost payments and per capita total governmental-cost payments of cities, towns, and villages, by population groups: 1931 1294
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities, towns, and villages, school districts, and other civil divisions, by counties: 1931 1296
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities, towns, and villages by population groups: 1931 1304
7. Total and per capita of the combined gross debt less sinking fund assets, of counties, cities, towns, and villages, school districts, and other civil divisions, by counties: 1931, 1922, and 1912 1305
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1931, 1922, and 1912 1308
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities, towns, and villages, school districts, and other civil divisions, by counties: 1931, 1922, and 1912 1310

INTRODUCTION

Scope of report.—The statistics herein presented for the State of North Carolina relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 100 counties, the 386 cities, towns, and villages, the 1,525 school districts, and the 284 other civil divisions (drainage, railroad, road, sanitary, and miscellaneous districts), or a total of 2,296 political units that have power to levy taxes or incur debt.

The data for North Carolina were compiled from reports on file in the office of the State tax commission, Raleigh, N.C., and from reports secured by local agents.

Fiscal year.—For North Carolina the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities, towns, and villages, the school districts, and the other civil divisions, are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of North Carolina on January 1, 1932, was 3,232,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for North Carolina the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts by $6,054,970.

The excess of governmental costs over revenue receipts was 6.7 percent for the State government, 10.4 percent for the counties, and 8.2 percent for the school districts. For the cities, towns, and villages and the other civil divisions, revenue receipts were in excess of governmental costs, the percent of excess being 7.9 for the cities, towns, and villages and 14.1 for the other civil divisions.

Although the aggregate of governmental costs, including those for capital outlays, is more than the revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $7,199,707.

Receipts from the issue of debt obligations are not classed as revenue receipts or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING FUND ASSETS		GENERAL PROPERTY TAX LEVIES

[2] Includes indebtedness to the State on account of public-school building fund.

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of North Carolina and all subdivisions of the State amounted to $123,446,524, or an average of $38.19 for each person in the State. Of this amount $44,061,761 was for the State; $42,052,010 for the counties; $27,060,720 for the cities, towns, and villages; $9,583,398 for the school districts; and $688,635 for the other civil divisions. The revenues collected include $55,784,719, general property taxes; $9,202,413, special taxes; $611,239, poll taxes; $26,457,208, licenses and permits; $3,011,222, special assessments; $10,649,194, subventions, donations, and pension assessments; $2,248,225, interest, rents, and highway privileges; $9,192,603, earnings of public-service enterprises; $5,493,081, earnings of general departments; and $796,620, fines, forfeits, and escheats. Of the $10,649,194 classified as subventions, donations, and pension assessments, $2,603,083 represents subventions by the Federal Government to the State, principally for highways. The financial transactions of county schools are included with the data for counties.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities, towns, and villages having a population of 2,500 and over.

General property taxes of the State, the counties, and urban places having a population of 2,500 and over amounted to $9,388,000 in 1912, $28,445,000 in 1922, and $45,048,784 in 1931, this being an increase of 58.4 percent from 1922 to 1931, and 379.9 percent from 1912 to 1931. Special taxes amounted to $5,000 in 1912, $1,215,000 in 1922, and $9,202,413 in 1931. Poll taxes amounted to $671,000 in 1912, $764,000 in 1922, and $562,603 in 1931. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $675,000 in 1912, $5,704,000 in 1922, and $26,356,687 in 1931. Special assessments amounted to $225,000 in 1912, $1,156,000 in 1922, and $2,630,641 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of North Carolina and all subdivisions of the State for 1931 amounted to $129,501,494, or an average expenditure of $40.07 per person. Of the total amount expended, $47,008,072 was disbursed by the State government; $46,438,993 by the counties; $25,082,751 by the cities, towns, and villages; $10,367,932 by the school districts; and $603,746 by the other civil divisions. The total comprises $83,811,427 for operation and maintenance of general departments; $4,637,161 for operation and maintenance of public-service enterprises; $27,798,229 for interest on debt; and $13,254,677 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $7,029,559; protection to person and property, $5,381,321; health and sanitation, $2,328,741; development and conservation of natural resources, $1,122,263; highways, $11,530,406; charities, hospitals, and corrections, $4,666,982; schools, $49,043,268; libraries, $163,805; recreation, $200,276; and miscellaneous, $2,344,806. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities, towns, and villages or other incorporated places with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1931 the payments for operation and maintenance of general

departments and public-service enterprises of the State, counties, and cities, towns, and villages having a population of 2,500 and over increased from $11,433,000 to $78,685,232, or 588.2 percent; interest payments, from $1,458,000 to $24,396,401, or 1,573.3 percent; and outlay payments, from $3,510,000 to to $11,929,436, or 239.9 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities, towns, and villages, the school districts, and the other civil divisions, by counties.

Table 6 presents for the individual cities, towns, and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1931. The aggregate debt of the cities, towns, and villages in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities, towns, and villages, the school districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1931 the combined gross debt of North Carolina and all subdivisions of the State less sinking-fund assets set aside to meet such debt was $532,747,098, or an average per capita of $164.84. In 1922 the average per capita was $69.03, and in 1912, $14.88.

Of the total debt reported for 1931, $164,533,606 was for the State government; $158,858,605 for the counties; $164,860,759 for the cities, towns, and villages; $36,698,036 for the school districts; and $7,796,092 for the other civil divisions.

The gross debt of the State government, less sinking-fund assets, increased 374.0 percent from 1922 to 1931 and 1,941.6 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 148.8 percent from 1922 to 1931 and 1,300.9 percent from 1912 to 1931.

ASSESSED VALUATIONS

In North Carolina, the county supervisor of taxation and the list taker and assessor of each township, ward, or district meet annually in April for the general consideration of methods for securing a complete list of all property in the county and for valuing and assessing the same in a uniform manner.

On the first Monday in May they begin to list real and personal property and are required to complete the same not later than the first Monday in July.

The assessed valuation of all property in North Carolina subject to levies of the general property tax was $2,830,758,193 in 1931 as compared with $2,521,-115,000 in 1922 and $747,501,000 in 1912. The per capita assessed valuation increased from $323.90 in 1912 to $952.46 in 1922, and decreased to $875.85 in 1931.

TAX LEVIES

In North Carolina, the State and county taxes are collected by the county sheriff or his deputy. Municipalities provide for the collection of their taxes and the collectors of municipal taxes are vested with the same power and authority as the sheriff or his deputy.

Taxes become due and are payable on the first Monday of October of each year

The total levies of the general property tax for the State and all subdivisions were $9,989,000 for 1912, $37,017,000 for 1922, and $47,711,665 for 1931, this being a per capita of $4.33, $13.98, and $14.76, respectively.

Of the total levies reported for 1931, $4,506,813 was for the State government; $20,233,297 for the counties; $13,610,184 for the cities, towns, and villages; $8,476,582 for the school districts; and $884,789 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $1.34 for 1912, $1.47 for 1922, and $1.69 for 1931.

[1] For an explanation of the population used in computing per capita figures, see text discussion, p. v.
[2] Includes $427,517, inheritance taxes, $7,153,870, income taxes, and $1,621,026, other special taxes, for State purposes only.
[3] Data for county schools are included with the data for counties.
[4] Not computed.

[a] Omission from table 1 of any civil division listed in tables 3 or 5 indicates no receipts reported for such division.

Summary of revenue receipts, governmental costs, debt, and general property-tax levies: 1932 .. 1314

DESCRIPTION OF GENERAL TABLES:

Revenue receipts 1315
Governmental-cost payments 1315
Public indebtedness 1316
Assessed valuations 1316
Tax levies 1316

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities, towns, and villages, school districts, townships, and other civil divisions, by counties: 1932 1317
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities, towns, and villages, by population groups 1932 1326
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities, towns, and villages, school districts, townships, and other civil divisions, by counties: 1932 .. 1327
4. Governmental-cost payments and per capita total governmental-cost payments of cities, towns, and villages, by population groups. 1932 1336
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities, towns, and villages, school districts, townships, and other civil divisions, by counties: 1932 .. 1336
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities, towns, and villages, by population groups: 1932 1341
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities, towns, and villages, school districts, townships, and other civil divisions, by counties: 1932, 1922, and 1912 1342
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1932, 1922, and 1912 1343
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities, towns, and villages, school districts, townships, and other civil divisions, by counties 1932, 1922, and 1912 1344

INTRODUCTION

Scope of report.—The statistics herein presented for the State of North Dakota relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 53 counties, the 333 cities, towns, and villages, the 2,187 school districts, the 1,470 townships, and the 31 other civil divisions (irrigation district and park districts), or a total of 4,075 political units that have power to levy taxes or incur debt.

The data for North Dakota were compiled largely from reports on file in the offices of the State Tax Commissioner and State Department of Education, Bismarck, N.Dak., and from reports received through correspondence.

Fiscal year.—For North Dakota the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities, towns, and villages, the school districts, the townships, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of North Dakota on January 1, 1932 was 684,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for North Dakota the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts by $1,603,266.

The excess of governmental costs over revenue receipts was 6 percent for the State government, 7.6 percent for the counties, and 5.4 percent for the school districts. For the cities, towns, and villages, the townships, and the other civil divisions, revenue receipts were in excess of governmental costs, the percent of excess being 14.7 for the cities, towns, and villages, 1.2 for the townships, and 3.6 for the other civil divisions.

Although the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $5,215,231.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of North Dakota and all subdivisions of the State amounted to $43,162,582, or an average of $63.10 for each person in the State. Of this amount $15,381,260 was for the State; $8,121,849 for the counties; $4,538,156 for the cities, towns, and villages; $12,543,082 for the school districts; $2,354,216 for the townships; and $224,019 for the other civil divisions. The revenues collected include $23,310,044, general property taxes; $271,328, special taxes; $308,939, poll taxes; $4,755,934, licenses and permits; $1,345,704, special assessments; $4,773,578, subventions, donations, and pension assessments; $2,257,174, interest, rents, and highway privileges; $2,975,834, earnings of public service enterprises; $3,130,774, earnings of general departments; and $33,273, fines, forfeits, and escheats. Of the $4,773,578 classified as subventions, donations, and pension assessments, $3,384,211 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities, towns, and villages having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities, towns, and villages, having a population of 2,500 and over amounted to $6,317,000 in 1912, $10,978,000 in 1922, and $9,791,429 in 1932, this being a decrease of 10.8 percent from 1922 to 1932, and an increase of 55 percent from 1912 to 1932. Special taxes amounted to $561,000 in 1922, and $261,953 in 1932. Poll taxes amounted to $144,000 in 1912, $13,000 in 1922, and $4,040 in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $246,000 in 1912, $1,043,000 in 1922, and $4,739,267 in 1932. Special assessments amounted to $459,000 in 1912, $1,346,000 in 1922, and $1,202,311 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of North Dakota and all subdivisions of the State for 1932 amounted to $44,765,848, or an average expenditure of $65.45 per person. Of the total amount expended, $16,301,806 was disbursed by the State government; $8,740,564 by the counties; $3,955,468 by the cities, towns, and villages; $13,224,563 by the school districts; $2,327,283 by the townships; and $216,164 by the other civil divisions. The total comprises $31,417,880 for operation and maintenance of general departments; $2,553,856 for operation and maintenance of public-service enterprises; $3,975,615 for interest on debt; and $6,818,497 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of cities, towns, and villages are not shown by departments in tables 3 and 4, neither are those of townships in table 3, for the reason that for the most part the reports secured for these units did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, the school districts, and the other civil divisions are shown by departments in table 3. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data for North Dakota were limited to the State, counties, and cities, towns, and villages with a population of 2,500 and over. Data for the incorporated places reported included the data for schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments

and public-service enterprises of the State, counties, and cities, towns, and villages of 2,500 population and over increased from $7,915,000 to $18,612,902, or 135.2 percent; interest payments from $362,000 to $2,892,289, or 699 percent; and outlay payments, from $1,413,000 to $6,176,845, or 337.1 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities, towns, and villages, the school districts, the townships, and the other civil divisions, by counties

Table 6 presents for the individual cities, towns, and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking-fund assets, for the year 1932. The aggregate debt of the cities, towns, and villages in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking-fund assets—total and per capita—of the government of the State, the counties, the cities, towns, and villages, the school districts, the townships, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all minor civil divisions of the county.

For 1932 the combined gross debt of North Dakota and all subdivisions of the State less sinking-fund assets set aside to meet such debt was $36,211,431, or an average per capita of $52.94. In 1922 the average per capita was $60.89, and in 1912, $20.07

Of the total debt reported for 1932, $5,005,185 was for the State government; $3,777,531 for the counties; $13,622,105 for the cities, towns, and villages; $11,693,976 for the school districts; $530,817 for the townships; and $1,581,817 for the other civil divisions.

The gross debt of the State government, less sinking-fund assets, decreased 15.4 percent from 1922 to 1932 and increased 510.4 percent from 1912 to 1932. Similar debt for all minor civil divisions combined decreased 9.2 percent from 1922 to 1932 and increased 150.8 percent from 1912 to 1932.

ASSESSED VALUATIONS

All real property subject to taxation is listed and assessed every odd-numbered year with reference to its value on April 1, and personal property is listed and assessed every year with reference to its value on April 1.

All property, real, personal, and mixed, subject to a general property tax, is valued and assessed at 75 percent of the full and true value, except farm buildings and improvements, which are exempted from all taxes. Assessors and boards of review assess and return all taxable property at its full and true value, and the county auditor, after equalization by the State board of equalization, makes the computations necessary to reduce such assessed value to said 75 percent.

The assessed valuation of all property in North Dakota subject to levies of the general property tax was $880,432,053 in 1932 as compared with $1,308,315,000 in 1922 and $293,048,000 in 1912. The per capita assessed valuation increased from $443.44 in 1912 to $1,978.54 in 1922, and decreased to $1,287.18 in 1932.

TAX LEVIES

In North Dakota taxes are collected by the county treasurer for State, county, city, town, school, or other purposes. All real-estate taxes and yearly installments of special assessment taxes on real estate become due on the first day of December of the year in which they are levied.

The total levies of the general property tax for the State and all subdivisions were $11,875,000 for 1912, $31,167,000 for 1922, and $27,931,287 for 1932, this being a per capita of $17.97, $47.13, and $40.84, respectively.

Of the total levies reported for 1932, $3,328,036 was for the State government; $6,880,766 for the counties; $2,637,437 for the cities, towns, and villages; $12,451,519 for the school districts; $2,422,194 for the townships; and $211,335 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $4.05 for 1912, $2.38 for 1922, and $3.17 for 1932.

INTRODUCTION: Page

Scope of report 1346
Fiscal year 1346
Population 1346
Summary of revenue receipts, governmental costs, debt, and general property-tax levies: 1931 1346

DESCRIPTION OF GENERAL TABLES:

Revenue receipts 1347
Governmental-cost payments 1347
Public indebtedness 1348
Assessed valuations 1348
Tax levies 1348

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities and villages, school districts, townships, and other civil divisions, by counties: 1931 1349
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities and villages, by population groups: 1931 1364
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities and villages, school districts, townships, and other civil divisions, by counties: 1931 1370
4. Governmental-cost payments and per capita total governmental-cost payments of cities and villages, by population groups: 1931 1384
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities and villages, school districts, townships, and other civil divisions, by counties: 1931 1390
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities and villages, by population groups: 1931 1398
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities and villages, school districts, townships, and other civil divisions, by counties: 1931, 1922, and 1912 1401
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1930, 1922, and 1912 1403
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and villages, school districts, townships, and other civil divisions, by counties: 1930, 1922, and 1912 1405

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Ohio relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 88 counties, the 860 cities and villages, the 2,018 school districts, the 1,337 townships, and the 8 other civil divisions (sanitary, conservancy, metropolitan park, and county library districts), or a total of 4,312 political units that have power to levy taxes or incur debt.

The data for Ohio were compiled largely from reports on file in the office of the auditor of State, Columbus, Ohio.

Fiscal year.—For Ohio the fiscal year reported for the State government is that ending December 31, 1931, while the statistics for the counties, cities and villages, school districts, townships, and other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Ohio on January 1, 1932, was 6,737,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for Ohio the aggregate of revenue receipts is in excess of governmental costs, including those for capital outlays, by $13,140,652. The State government, the counties, the school districts, and the townships also show an excess of revenue receipts over all governmental costs, but for the cities and villages and other civil divisions an excess of governmental costs over revenue receipts is shown.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING FUND ASSETS		GENERAL PROPERTY TAX LEVIES	
	Total	Percent of total	Total	Percent of total	Total	Percent of total	Total	Percent of total

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Ohio and all subdivisions of the State amounted to $506,534,753, or an average of $75.19 for each person in the State. Of this amount $88,327,713 was for the State; $90,609,695 for the counties; $169,443,918 for the cities and villages; $141,687,822 for the school districts; $12,099,170 for the townships; and $4,366,435 for all other civil divisions. The revenues collected include $278,927,401, general property taxes; $13,343,316, special taxes; $73,272,257, licenses and permits; $36,787,750, special assessments; $25,435,650, subventions, donations, and pension assessments; $17,919,056, interest, rents, and highway privileges; $32,529,500, earnings of public service enterprises; $25,562,506, earnings of general departments; and $2,757,317, fines, forfeits, and escheats. Of the $25,435,650 classified as subventions, donations, and pension assessments, $10,165,583 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and villages having a population of 2,500 and over.

General property taxes of the State, the counties, and urban places having a population of 2,500 and over amounted to $51,473,000 in 1912, $141,278,000 in 1922, and $136,871,064 in 1931, this being a decrease of 3.1 percent from 1922 to 1931, and an increase of 165.9 percent from 1912 to 1931. Special taxes amounted to $1,923,000 in 1912, $9,410,000 in 1922, and $12,907,221 in 1931. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $13,295,000 in 1912, $21,428,000 in 1922, and $69,608,398 in 1931. Special assessments amounted to $8,154,000 in 1912, $15,826,000 in 1922, and $32,750,012 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Ohio and all subdivisions of the State for 1931 amounted to $493,394,101, or an average expenditure of $73.24 per person. Of the total amount expended, $76,976,804 was disbursed by the State government; $87,683,305 by the counties; $171,521,948 by the cities and villages; $140,582,127 by the school districts; $11,684,799 by the townships; and $4,945,118 by all other civil divisions. The total comprises $304,950,529 for operation and maintenance of general departments; $19,999,288 for operation and maintenance of public service enterprises; $50,204,942 for interest on debt; and $118,239,342 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $31,168,367; protection of person and property, $30,568,064; health and sanitation, $16,117,562; development and conservation of natural resources by State government, $2,551,359; highways, $50,483,409; charities, hospitals, and corrections, $30,023,330; schools, $124,746,631; libraries, $3,597,463; recreation, $3,156,360; and miscellaneous, $12,537,984. Expenditures for maintenance of schools other than schools of the State government and those for cities of over 30,000 population may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities or other incorporated places with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1931

the payments for operation and maintenance of general departments and public service enterprises of the State, counties, and cities and villages having a population of 2,500 and over increased from $65,851,000 to $197,437,852, or 199.8 percent; interest payments, from $9,437,000 to $33,976,850, or 260 percent; and outlay payments, from $31,657,000 to $96,285,787, or 204.2 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities and villages, the school districts, the townships, and the other civil divisions, by counties. The aggregate for the State and the totals for the counties, and the cities and villages are comparable with prior reports on this subject.

Table 6 presents for the individual cities and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1931. The aggregate debt of the cities and villages in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities and villages, the school districts, the townships, and other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1931 the combined gross debt of Ohio and all subdivisions of the State less sinking fund assets set aside to meet such debt was $875,036,271, or an average per capita of $129.89. In 1922 the average per capita was $112.25, and in 1912, $48.27.

Of the total debt reported for 1931, $7,695,921 was for the State government; $146,038,282 for the counties; $461,578,582 for the cities and villages; $221,353,950 for the school districts; $2,346,138 for the townships; and $36,023,398 for all other civil divisions.

The gross debt of the State government, less sinking fund assets, decreased 74.5 percent from 1922 to 1931 and increased 49.7 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 35.7 percent from 1922 to 1931 and 269.8 percent from 1912 to 1931.

ASSESSED VALUATIONS

In Ohio the county is the unit for assessment purposes, and the county auditor is the assessor of all real and personal property except that owned by the public utility companies which is assessed by the State tax commission. Assessments of real property are made every six years (1925, 1931, etc.), and the listing and valuation of personal property are made as of the day preceding the second Monday of April of each year.

The assessed valuations shown in table 8 are for 1930, no data being available for 1931.

The assessed valuation of all property in Ohio subject to levies of the general property tax was $13,452,946,926 in 1930 as compared with $10,406,061,000 in 1922 and $6,481,059,000 in 1912. The per capita assessed valuation increased from $1,305.30 in 1912 to $1,744.97 in 1922, and to $2,017.54 in 1930.

TAX LEVIES

In Ohio all taxes—State, county, and local—are collected by the treasurers in the various counties, one half of the levies being due on December 20 and the remainder June 20 following.

The levies of the general property tax shown in table 9 are for 1930, no data being available for 1931.

The total levies of the general property tax for the State and all subdivisions were $76,697,000 for 1912, $224,423,000 for 1922, and $302,861,126 for 1930, this being a per capita of $15.45, $37.63, and $45.42, respectively.

Of the total levies reported for 1930, $5,378,489 was for the State government; $61,067,044 for the counties; $81,399,726 for the cities and villages; $140,981,862 for the school districts; $13,046,267 for the townships; and $987,738 for all other civil divisions.

The average rate of levy per $100 of the assessed valuation was $1.18 for 1912, $2.16 for 1922, and $2.25 for 1930.

OKLAHOMA

INTRODUCTION — Page

Scope of report — 1408
Fiscal year — 1408
Population — 1408
Summary of revenue receipts, governmental costs, debt, and general property tax levies. 1931 — 1408

DESCRIPTION OF GENERAL TABLES:

Revenue receipts — 1409
Governmental-cost payments — 1409
Public indebtedness — 1410
Assessed valuations — 1410
Tax levies — 1410

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities and towns, school districts, and townships, by counties: 1931 — 1411
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities and towns, by population groups: 1931 — 1424
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities and towns, school districts, and townships, by counties: 1931 — 1426
4. Governmental-cost payments and per capita total governmental-cost payments of cities and towns, by population groups: 1931 — 1438
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities, and towns, school districts, and townships, by counties: 1931 — 1441
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities and towns, by population groups. 1931 — 1447
7. Total and per capita of the combined gross debt less sinking-fund assets of counties, cities, and towns, school districts, and townships, by counties: 1931, 1922, and 1912 — 1449
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1931, 1922, and 1912 — 1450
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and towns, school districts, and townships, by counties. 1931, 1922, and 1912 — 1452

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Oklahoma relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies for the State government, the 77 counties, the 483 cities and towns, the 4,836 school districts, and the 956 townships, or a total of 6,353 political units that have power to levy taxes or incur debt.

The data for Oklahoma were compiled largely from reports on file in the office of the State auditor, Oklahoma City, Okla.

Fiscal year.—For Oklahoma, the fiscal year reported for the State government is that ending June 30, 1931; for the cities of Muskogee, Oklahoma City, and Tulsa, the fiscal year is that ending June 30, 1932; while the statistics for the counties, the cities and towns of less than 30,000 population, the school districts, and the townships, are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Oklahoma on January 1, 1932, was 2,433,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for Oklahoma the aggregate of governmental costs, including those for capital outlays, is in excess of the revenue receipts. This excess of governmental costs over revenue receipts was 9 percent for the State government, 15 percent for the counties, 2.9 percent for the cities and towns, 24.2 percent for the school districts, and 17.5 percent for the townships.

Although the aggregate of governmental costs, including those for capital outlays, is $15,145,139 more than the revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $16,442,847.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES	
	Total	Percent of total	Total	Percent of total	Total	Percent of total	Total	Percent of total

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Oklahoma and all subdivisions of the State amounted to $116,490,808, or an average of $47.88 for each person in the State. Of this amount $39,674,786 was for the State, $20,382,038 for the counties, $23,173,973 for the cities and towns, $30,132,923 for the school districts, and $3,127,088 for the townships. The revenues collected include $52,657,875, general property taxes; $1,001,646, special taxes; $18,831,093, licenses and permits; $3,012,640, special assessments; $19,277,203, subventions, donations, and pension assessments; $5,523,182, interest, rents, and highway privileges; $7,846,283, earnings of public service enterprises; $7,287,741, earnings of general departments; and $1,053,145, fines, forfeits, and escheats. Receipts from poll taxes are included with general property taxes. Of the $19,277,203 classified as subventions, donations, and pension assessments, $6,397,044 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and towns having a population of 2,500 and over.

The combined total of general property taxes and poll taxes of the State, the counties, and the cities and towns having a population of 2,500 and over amounted to $12,307,000 in 1912, $19,328,000 in 1922, and $25,801,960 in 1931, this being an increase of 33.5 percent from 1922 to 1931, and of 109.7 percent from 1912 to 1931. Special taxes amounted to $6,000 in 1912, $1,000,000 in 1922, and $1,001,646 in 1931. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $647,000 in 1912, $6,904,000 in 1922, and $18,707,950 in 1931. Special assessments amounted to $1,858,000 in 1912, $1,618,000 in 1922, and $3,008,564 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Oklahoma and all subdivisions of the State for 1931 amounted to $131,635,947, or an average expenditure of $54.10 per person. Of the total amount expended, $43,260,711 was disbursed by the State government; $23,432,034 by the counties; $23,855,367 by the cities and towns; $37,414,051 by the school districts; and $3,673,784 by the townships. The total comprises $83,455,357 for operation and maintenance of general departments; $4,125,089 for operation and maintenance of public service enterprises; $12,467,515 for interest on debt; and $31,587,986 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $8,959,267; protection to person and property, $6,266,601; health and sanitation, $1,660,501; development and conservation of natural resources by State government, $679,034; highways, $12,936,013; charities, hospitals, and corrections, $6,811,582; schools, $42,562,872; libraries, $327,023; recreation, $949,675; and miscellaneous, $2,302,789. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data for Oklahoma were limited to the State, counties, and cities and towns with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1931 the payments for operation and maintenance of general departments and public-service enterprises of the State, counties, and cities and towns having a population of 2,500 and over increased from $12,293,000 to $53,803,402, or 337.7 percent; interest payments, from $2,446,000 to $6,823,432, or 179 percent; and outlay payments, from $3,833,000 to $26,335,433, or 587.1 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities and towns, the school districts, and the townships, by counties.

Table 6 presents for the individual cities and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking-fund assets for the year 1931. The aggregate debt of the cities and towns in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking-fund assets—total and per capita—of the government of the State, the counties, the cities and towns, the school districts, and the townships. The amounts shown opposite the name of each county represent the combined debt of the county government and all minor civil divisions of the county.

For 1931 the combined gross debt of Oklahoma and all subdivisions of the State less sinking-fund assets set aside to meet such debt was $194,084,886, or an average per capita of $79.77. In 1922 the average per capita was $61.75, and in 1912, $31.32.

Of the total debt reported for 1931, $11,438,153 was for the State government; $43,570,197 for the counties; $77,855,111 for the cities and towns; $53,388,067 for the school districts; and $7,833,358 for the townships.

The gross debt of the State government, less sinking-fund assets, increased 138.4 percent from 1922 to 1931 and 65 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 45.9 percent from 1922 to 1931 and 239.6 percent from 1912 to 1931.

ASSESSED VALUATIONS

In Oklahoma real property is listed and assessed in each odd year, except in cases where such property becomes taxable between a 2-year period, or where the value of property has increased. All other property is listed and assessed each year. All property is listed to the owner thereof on January 1, and is assessed at its fair cash value or the estimated price it would bring at a fair voluntary sale.

County assessors, who are elected every 2 years, list all taxable property in their respective counties. The township trustee of each municipal township, by virtue of his office, is the assessor of his township.

The assessed valuation of all property in Oklahoma subject to levies of the general property tax was $1,753,601,248 in 1931 as compared with $1,687,490,000 in 1922 and $1,193,656,000 in 1912. The per capita assessed valuation increased from $615.68 in 1912 to $801.76 in 1922, and decreased to $720.76 in 1931.

TAX LEVIES

In Oklahoma the county treasurers, who are elected for 2 years, are collectors of all taxes in their respective counties. One half of all taxes levied upon an ad valorem basis becomes due on November 1, and if not paid on or before the first day of January, the entire tax becomes delinquent. If the first half is paid by January 1, the second half is not delinquent until June 15, following.

The total levies of the general property tax for the State and all subdivisions were $19,705,000 for 1912, $54,079,000 for 1922, and $68,943,951 for 1931, this being a per capita of $10.16, $25.69, and $28.34, respectively.

Of the total levies reported for 1931, $6,151,178 was for the State government; $15,681,390 for the counties; $13,364,486 for the cities and towns; $29,454,068 for the school districts; and $4,292,829 for the townships. The average rate of levy per $100 of the assessed valuation was $1.65 for 1912, $3.20 for 1922, and $3.93 for 1931.

TABLE 1.—REVENUE RECEIPTS AND PER CAPITA TOTAL REVENUE RECEIPTS, AND ESTIMATED POPULATION OF COUNTIES, CITIES AND TOWNS, SCHOOL DISTRICTS, AND TOWNSHIPS, BY COUNTIES: 1931

[Revenue receipts expressed in thousands]

OREGON

INTRODUCTION. Page

Scope of report 1456
Fiscal year 1456
Population 1456
Summary of revenue receipts, governmental costs, debt, and general property-tax levies: 1931 1456

DESCRIPTION OF GENERAL TABLES:

Revenue receipts 1457
Governmental-cost payments 1457
Public indebtedness 1458
Assessed valuations 1458
Tax levies 1458

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities and towns, school districts, and other civil divisions, by counties: 1931 1459
2. Revenue receipts and per capita total revenue receipts, and estimatede population of cities and towns, by population groups: 1931 1464
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities and towns, school districts, and other civil divisions, by counties: 1931 1466
4. Governmental-cost payments and per capita total governmental-cost payments of cities and towns, by population groups: 1931 1472
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities and towns, school districts, and other civil divisions, by counties: 1931 1473
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities and towns, by population groups: 1931 1476
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities and towns, school districts, and other civil divisions, by counties: 1931, 1922, and 1912 1477
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1931, 1922, and 1912 1478
9. Total levies of general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and towns, school districts, and other civil divisions, by counties: 1931, 1922, and 1912 1479

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Oregon relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 36 counties, the 190 cities and towns, the 2,174 school districts, and the 713 other civil divisions (bridge, dike, drainage, improvement, irrigation, port, road, and water districts), or a total of 3,114 political units that have the power to levy taxes or incur debt.

The data for Oregon were compiled from reports on file in the offices of the State Treasurer, State Tax Commission, and State Superintendent of Public Instruction, Salem, Oreg., and from reports received through correspondence.

Fiscal year.—For Oregon the fiscal year reported for the State government is that ending September 30, 1931, while the statistics for the counties, the cities and towns, the school districts, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Oregon on January 1, 1932, was 971,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for Oregon the aggregate of revenue receipts is in excess of governmental costs, including those for capital outlays, by $258,666; excluding capital outlays, this excess amounted to $21,673,625.

The excess of revenue receipts over governmental costs was 0.6 percent for the State government, 5.7 percent for the cities and towns, and 23.3 percent for the other civil divisions. For the counties and the school districts governmental costs exceeded revenue receipts, the percent of excess being 7.2 for the counties and 2.9 for the school districts.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Oregon and all subdivisions of the State amounted to $85,379,847, or an average of $87.93 for each person in the State. Of this amount $29,767,296 was for the State; $15,724,564 for the counties; $19,079,894 for the cities and towns; $17,318,426 for the school districts; and $3,489,667 for the other civil divisions. The revenues collected include $41,198,285, general property taxes; $1,207,620, special taxes; $16,016,571, licenses and permits; $4,831,021, special assessments; $9,984,597, subventions, donations, and pension assessments; $2,728,825, interest, rents, and highway privileges; $4,989,021, earnings of public-service enterprises; $3,928,538, earnings of general departments; and $495,369, fines, forfeits, and escheats. Of the $9,984,597 classified as subventions, donations, and pension assessments, $4,637,633 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and towns having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities and towns having a population of 2,500 and over amounted to $15,421,000 in 1912, $25,057,000 in 1922, and $24,414,450 in 1931, this being a decrease of 2.6 percent from 1922 to 1931, and an increase of 58.3 percent from 1912 to 1931. Special taxes amounted to $262,000 in 1912, $665,000 in 1922, and $1,207,620 in 1931. Licenses and permits, which include automobile license tax and the tax on gasoline, amounted to $1,059,000 in 1912, $5,298,000 in 1922, and $15,994,519 in 1931. Special assessments amounted to $4,264,000 in 1912, $6,770,000 in 1922, and $3,687,881 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Oregon and all subdivisions of the State for 1931 amounted to $85,121,181, or an average expenditure of $87.66 per person. Of the total amount expended, $29,579,912 was disbursed by the State government; $16,851,452 by the counties; $18,042,470 by the cities and towns; $17,817,150 by the school districts; and $2,830,197 by the other civil divisions. The total comprises $50,621,809 for operation and maintenance of general departments; $3,203,753 for operation and maintenance of public-service enterprises; $9,880,660 for interest on debt; and $21,414,959 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities and towns are not shown by departments in tables 3 and 4 for the reason that for the most part the reports secured for the cities and towns did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, the school districts, and the other civil divisions are shown by departments in table 3.

Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to the States, counties, and cities and towns with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1931 the payments for operation and maintenance of general departments and public-service enterprises of the State, counties, and cities and towns having a population of 2,500 and over increased from $12,912,000 to $35,736,133, or 176.8 percent; interest payments, from $1,879,000 to $7,598,597, or 304.4 percent; and outlay payments, from $13,040,000 to $19,549,024, or 49.9 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities and towns, the school districts, and the other civil divisions, by counties.

Table 6 presents for the individual cities and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1931. The aggregate debt of the cities and towns in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities and towns, the school districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all minor civil divisions of the county.

For 1931 the combined gross debt of Oregon and all subdivisions of the State less sinking fund assets set aside to meet such debt was $198,849,130, or an average per capita of $204.79. In 1922 the average per capita was $170.69, and in 1912, $57.90.

Of the total debt reported for 1931, $33,387,901 was for the State government; $26,058,949 for the counties; $78,029,600 for the cities and towns; $24,210,167 for the school districts; and $37,162,513 for the other civil divisions.

The gross debt of the State government, less sinking fund assets, decreased 16.5 percent from 1922 to 1931 and increased 107,602.9 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 68.6 percent from 1922 to 1931 and 277.8 percent from 1912 to 1931.

ASSESSED VALUATIONS

All real property within the State, and all personal property situated or owned within this State, except such as is specifically exempted, is subject to assessment and taxation in equal and ratable proportion.

Both real and personal property is assessed annually by county assessors with reference to March 1 at its true cash value. Owners are required to furnish lists of all their real and personal property and the value thereof, but the same is appraised by the assessors.

The assessed valuation of all property in Oregon subject to levies of the general property tax was $1,092,771,441 in 1931 as compared with $1,009,499,000 in 1922 and $905,012,000 in 1912. The per capita assessed valuation increased from $1,195.54 in 1912 to $1,247.80 in 1922, and decreased to $1,125.41 in 1931.

TAX LEVIES

The sheriff of each county is the tax collector. All taxes levied by any incorporated city or town, or by any school, road, port, or other taxing district or agency are collected by him at the same time as are county taxes.

The first half of all taxes levied is required to be paid on or before May 5 next following date of levy, and the second half on or before November 5 following.

The total levies of general property tax for the State and all subdivisions were $17,139,000 for 1912, $40,090,000 for 1922, and $41,488,103 for 1931, this being a per capita of $22.64, $49.55, and $42.73, respectively.

Of the total levies reported for 1931, $12,646,493 was for the counties; $10,731,258 for the cities and towns; $16,278,081 for the school districts; and $1,832,271 for the other civil divisions. For the year reported there were no levies of the general property tax for State purposes. The average rate of levy per $100 of the assessed valuation was $1.89 for 1912, $3.97 for 1922, and $3.80 for 1931.

TABLES:
1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities, boroughs, and towns, school districts, townships, and poor districts, by counties, and the Delaware River Joint Commission. 1932 1487
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities, boroughs, and towns, by population groups. 1932 1498
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities, boroughs, and towns, school districts, townships, and poor districts, by counties, and the Delaware River Joint Commission: 1932 1508
4. Governmental-cost payments and per capita total governmental-cost payments of cities, boroughs, and towns, by population groups: 1932 1520
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities, boroughs, and towns, school districts, townships, and poor districts, by counties, and the Delaware River Joint Commission: 1932 1531
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities, boroughs, and towns, by population groups: 1932 1538
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities, boroughs, and towns, school districts, townships, and poor districts, by counties, and the Delaware River Joint Commission: 1932, 1922, and 1912 1544
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1932, 1922, and 1912 1545
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities, boroughs, and towns, school districts, townships, and poor districts, by counties: 1932, 1922, and 1912 1547

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Pennsylvania relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 67 counties, the 984 cities, boroughs, and towns, the 2,613 school districts, the 1,574 townships, the 372 poor districts, and the Delaware River Joint Commission, or a total of 5,612 political units that have power to levy taxes or incur debt.

The data for Pennsylvania were compiled largely from reports on file in the offices of the department of internal affairs, State department of education, and State highway department, Harrisburg, Pa., and from reports received through correspondence.

Fiscal year.—For Pennsylvania the fiscal year reported for the State government is that ending May 31, 1932, while the statistics for the counties, the cities, boroughs, and towns, the school districts, the townships, the poor districts, and the Delaware River Joint Commission, are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Pennsylvania on January 1, 1932, was 9,724,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for Pennsylvania the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts by $55,362,386. This excess of governmental costs over revenue receipts was 26.6 percent for the counties, 21.3 percent for the cities, boroughs, and towns, 2.5 percent for the school districts, and 19.1 percent for the poor districts. For the State government, the townships, and the Delaware River Joint Commission, revenue receipts were in excess of governmental costs, the percent of excess being 2.5 for the State government, 5.9 for the townships, and 70.7 for the Delaware River Joint Commission.

Although the aggregate of governmental costs, including capital outlays, is in excess of revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $99,799,000.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES

[1] No general property tax is levied for State purposes.

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Pennsylvania and all subdivisions of the State amounted to $626,563,214, or an average of $64.43 for each person in the State. Of this amount $169,841,342 was for the State; $63,542,059 for the counties; $181,188,693 for the cities, boroughs, and towns; $182,451,722 for the school districts; $21,013,537 for the townships; $6,980,072 for the poor districts; and $1,545,789 for the Delaware River Joint Commission. The revenues collected include $340,371,986, general property taxes; $59,131,275, special taxes; $81,752,096, licenses and permits; $5,750,100, special assessments; $54,982,271, subventions, donations, and pension assessments; $29,005,683, interest, rents, and highway privileges; $20,631,253, earnings of public-service enterprises; $33,180,770, earnings of general departments; and $1,757,780, fines, forfeits, and escheats. Of the $54,982,271 classified as subventions, donations, and pension assessments, $10,853,126 represents subventions by the Federal Government to the State, principally for highways. The poll tax collected for the different political units is included with the general property tax.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities, boroughs, and towns having a population of 2,500 and over.

The combined total for general property and poll taxes of the State, the counties, and the cities, boroughs, and towns having a population of 2,500 and over amounted to $70,542,000 in 1912, $112,556,000 in 1922, and $173,942,360 in 1932, this being an increase of 54.5 percent from 1922 to 1932 and 146.6 percent from 1912 to 1932. Special taxes amounted to $18,876,000 in 1912, $39,825,000 in 1922, and $59,131,275 in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $12,753,000 in 1912, $31,348,000 in 1922, and $81,686,227 in 1932. Special assessments amounted to $3,071,000 in 1912, $5,260,000 in 1922, and $5,267,523 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Pennsylvania and all subdivisions of the State for 1932 amounted to $681,925,600, or an average expenditure of $70.13 per person. Of the total amount expended, $165,691,108 was disbursed by the State government; $80,418,122 by the counties; $219,705,281 by the cities, boroughs, and towns; $187,046,491 by the school districts; $19,844,639 by the townships; $8,314,607 by the poor districts; and $905,352 by the Delaware River Joint Commission. The total comprises $457,950,033 for operation and maintenance of general departments; $9,807,635 for operation and maintenance of public-service enterprises; $59,006,546 for interest on debt; and $155,161,386 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $47,534,260; protection to person and property, $47,391,876; health and sanitation, $19,802,149; development and conservation of natural resources by the State government, $4,686,433; highways, $66,083,590; charities, hospitals, and corrections, $53,080,263; schools, $196,960,495; libraries, $2,115,208; recreation, $6,958,576; and miscellaneous, $13,337,183. Expenditures for maintenance of schools other than schools of the State government and those for cities having a population of 30,000 and over may include certain other expenditures such as for elections, financial offices, and recreation.

For a few cities and boroughs which reported payments undistributed by departments, an estimated distribution was made based on the per capita average of the cities and boroughs of the same population group. In tables 3 and 4 footnotes indicate the inclusion of this estimate.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities, boroughs, and towns or other incorporated places with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments and public-service enterprises of the State, counties, and cities, boroughs, and towns having a population of 2,500 and over increased from $103,521,000 to $290,328,032, or 180.5 percent; interest payments, from $10,429,000 to $43,572,752, or 317.8 percent; and outlay payments, from $30,731,000 to $127,168,587, or 313.8 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking-fund assets of the State government, and of the counties, the cities, boroughs, and towns, the school districts, the townships, and the poor districts, by counties, and the Delaware River Joint Commission.

Table 6 presents for the individual cities, boroughs, and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking-fund assets, for the year 1932. The aggregate debt of the cities, boroughs, and towns in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking-fund assets—total and per capita—of the government of the State, the counties, the cities, boroughs, and towns, the school districts, the townships, the poor districts, and the Delaware River Joint Commission. The amounts shown opposite the name of each county represent the combined debt of the county government and all minor civil divisions in the county.

For 1932 the combined gross debt of Pennsylvania and all subdivisions of the State less sinking-fund assets set aside to meet such debt was $1,213,705,622, or an average per capita of $124.82. In 1922 the average per capita was $61.28, and in 1912, $30.34.

Of the total debt reported for 1932, $75,858,392 was for the State government; $185,012,578 for the counties; $657,368,245 for the cities, boroughs, and towns; $247,127,549 for the school districts; $28,571,148 for the townships; $4,280,931 for the poor districts; and $15,486,779 for the Delaware River Joint Commission.

The gross debt of the State government, less sinking-fund assets, increased 51.8 percent from 1922 to 1932. Similar debt for all minor civil divisions combined increased 127.4 percent from 1922 to 1932 and 362.6 percent from 1912 to 1932.

ASSESSED VALUATIONS

In Pennsylvania, the county assessment is made triennially by the assessors of the respective townships, wards, and districts. The assessors are required to assess, rate, and value all objects of taxation for State, county, city, district, ward, township, or borough purposes at their actual value. In some counties assessments are made by the board for the assessment and revision of taxes; in other counties the local assessors are elected for 3 years; in cities of the third class an assessor is elected for each ward therein. In counties of the first class there is one chief assessor of personal property and eight deputies. County boards of assessment and revision of taxes in counties of the second class divide each such county into one or more assessment districts and appoint one subordinate assessor for each such district.

The assessed valuation of all property in Pennsylvania subject to levies of the general property tax was $12,762,317,281 in 1932 as compared with $9,767,274,000 in 1922 and $5,068,803,000 in 1912. The per capita assessed valuation increased from $625.17 in 1912 to $1,087.35 in 1922, and to $1,312.46 in 1932.

TAX LEVIES

In Pennsylvania, taxes are collected in cities of the first class by receivers of taxes and local receivers, the latter being in charge of local branch offices. In counties containing cities of the third class, the commissioners may appoint one person as collector of State and county taxes for one or more wards therein. In boroughs and townships a collector of taxes is elected for 3 years. In counties having a population between 300,000 and 1,000,000, county taxes are collected by the county tax collector, who is appointed by the board for the assessment and revision of taxes. Special provisions prevail for the assessment and collection of taxes in Philadelphia and Pittsburgh.

The total levies of the general property tax for the State and all subdivisions were $93,375,000 for 1912, $239,795,000 for 1922, and $370,671,775 for 1932, this being a per capita of $11.52, $26.70, and $38.12, respectively.

Of the total levies reported for 1932, $51,371,878 was for the counties; $137,811,890 for the cities, boroughs, and towns; $155,130,306 for the school districts; $19,747,956 for the townships; and $6,609,745 for the poor districts. In Pennsylvania, no general property tax is levied for State purposes. The average rate of levy per $100 of the assessed valuation was $1.84 for 1912, $2.46 for 1922, and $2.90 for 1932.

TABLE 1.—REVENUE RECEIPTS AND PER CAPITA TOTAL REVENUE RECEIPTS, AND ESTIMATED POPULATION OF COUNTIES, CITIES, BOROUGHS, AND TOWNS, SCHOOL DISTRICTS, TOWNSHIPS, AND POOR DISTRICTS, BY COUNTIES, AND THE DELAWARE RIVER JOINT COMMISSION: 1932

[1] For an explanation of the population used in computing per capita figures, see text discussion, p. v.
[2] Includes $18,932,865, inheritance taxes, and $40,198,410, other special taxes, for State purposes only.
[3] Includes poll and occupation taxes.
[4] Exclusive of Philadelphia County.
[5] Excludes population of Larksville, Luzerne County, for which no report was received.
[6] Not computed.
[7] Pennsylvania's portion of the Delaware River Joint Commission; not distributable by counties.
[8] Exclusive of the borough of Larksville, for which no report was received.
[9] Tabulated as municipal; coextensive with the city of Philadelphia.

73203—34—95

[1] Includes $4,686,433, payments for development and conservation of natural resources by State governments.
[2] Includes for cities, boroughs, and towns not reporting a distribution by departments an estimate based on the average for cities, boroughs, and towns of the same group.
[3] Not computed.
[4] Pennsylvania's portion of the Delaware River Joint Commission; not distributable by counties.
[5] Exclusive of the borough of Larksville, for which no report was received.
[6] Tabulated as municipal; coextensive with the city of Philadelphia.

[1] Sinking-fund assets exceed total debt.
[2] Includes only the debt of school districts outside of cities, boroughs, and towns having a population of 2,500 and over. Debt on account of schools in cities, boroughs, and towns with a population of 2,500 and over is included with city, borough, or town liabilities.
[3] Not computed.
[4] Pennsylvania's share of the Delaware River Joint Commission; not distributable by counties.
[5] Exclusive of the borough of Larksville, for which no report was received.

Scope of report 1551
Fiscal year 1551
Population 1551
Summary of revenue receipts, governmental costs, debt, and general property tax levies 1551

DESCRIPTION OF GENERAL TABLES:

Revenue receipts 1552
Governmental-cost payments 1552
Public indebtedness 1553
Assessed valuations 1553
Tax levies 1553

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of cities and towns, and fire districts, by counties: 1932 1554
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities and towns, by population groups: 1932 1555
3. Governmental-cost payments and per capita total governmental-cost payments of cities and towns, and fire districts, by counties: 1932 1556
4. Governmental-cost payments and per capita total governmental-cost payments of cities and towns by population groups: 1932 1557
5. Gross debt classified by character, and gross debt less sinking-fund assets, of cities and towns, and fire districts, by counties: 1932 1558
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities and towns, by population groups: 1932 1559
7. Total and per capita of the combined gross debt less sinking-fund assets, of cities and towns, and fire districts, by counties: 1932, 1922, and 1912 1559
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1932, 1922, and 1912 1560
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, cities and towns, and fire districts, by counties: 1932, 1922, and 1912 1560

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Rhode Island relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies for the State government, the 39 cities and towns, and the 32 fire districts, or a total of 72 political units that have power to levy taxes or incur debt. The five counties of Rhode Island exercise no independent financial functions.

Fiscal year.—For Rhode Island the fiscal year reported for the State government is that ending June 30, 1932, while for the cities and towns and fire districts the fiscal year is that most nearly conforming to that of the State.

Population.—The estimated population of Rhode Island on January 1, 1932, was 696,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies, 1932.—The following statement discloses that for Rhode Island the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts, but the revenue receipts exceeded governmental costs, exclusive of capital outlays, by $8,219,632. This excess of governmental costs over revenue receipts was 0.4 percent for the State government, 17.6 percent for the cities and towns, and 4.4 percent for fire districts.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING FUND ASSETS		GENERAL PROPERTY TAX LEVIES	
	Total	Per cent of total	Total	Per cent of total	Total	Per cent of total	Total	Per cent of total

Fire districts	286,832	.6	299,491	.6	439,143	.4	172,951	.6

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Rhode Island and all subdivisions of the State amounted to $46,100,798, or an average of $66.24 for each person in the State. Of this amount $13,141,394 was for the State; $32,672,572 for cities and towns; and $286,832 for fire districts. The revenues collected include $27,434,409, general property taxes; $3,647,215, special taxes; $130,083 poll taxes; $5,675,258, licenses and permits; $424,212, special assessments; $2,362,734, subventions, donations, and pension assessments; $1,674,920, interest, rents, and highway privileges; $2,854,684, earnings of public-service enterprises; $1,748,467, earnings of general departments; and $148,816, fines, forfeits, and escheats. Of the $2,362,734 classified as subventions, donations, and pension assessments, $1,608,242 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and towns having a population of 2,500 and over.

General property taxes of the State, and urban places having a population of 2,500 and over amounted to $8,065,000 in 1912, $18,069,000 in 1922, and $26,652,870 in 1932, this being an increase of 47.5 percent from 1922 to 1932, and 230.5 percent from 1912 to 1932. Special taxes amounted to $535,000 in 1912, $3,226,000 in 1922, and $3,647,215 in 1932. Poll taxes amounted to $38,000 in 1912, $146,000 in 1922, and $128,607 in 1932. Licenses and permits which include the sales tax on gasoline, amounted to $1,779,000 in 1912, $2,206,000 in 1922, and $5,666,000 in 1932. Special assessments amounted to $119,000 in 1912, $219,000 in 1922, and $424,212 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Rhode Island and its political subdivisions for 1932 amounted to $51,906,221, or an average expenditure of $74.58 per person. Of the total amount expended, $13,188,515 was disbursed by the State government; $38,418,215 by cities and towns; and $299,491 by fire districts. The total comprises $31,415,378 for operation and maintenance of general departments; $1,216,117 for operation and maintenance of public-service enterprises; $5,249,671 for interest on debt; and $14,025,055 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $3,206,101; protection to person and property, $5,465,058; health and sanitation, $2,303,520; development and conservation of natural resources by State government, $437,520; highways, $3,868,045; charities, hospitals, and corrections, $3,271,364; schools, $10,720,182; libraries, $186,241; recreation, $630,040; and miscellaneous, $1,327,789. Expenditures for maintenance of schools other than schools of the State government and those for cities of over 30,000 population include certain other expenditures such as for elections, financial offices, and recreation.

For 1932 the governmental-cost payments were $5,805,423 in excess of revenue receipts. Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities or other incorporated places with a population of 2,500 and over, and did not include smaller incorporated places or fire districts.

In the period from 1912 to 1932 the payments for the operation and maintenance of general departments and public-service enterprises of the State, and cities and towns over 2,500 population increased from $10,049,000 to $31,811,496, or 216.6 percent; interest payments, from $1,583,000 to $5,169,808, or 226 6 percent; and outlay payments, from $2,198,000 to $13,953,275, or 534.8 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking-fund assets of the State government, and of cities and towns and fire districts by counties. The aggregate for the State and the totals for the cities and towns are comparable with the prior reports on this subject.

Table 6 presents for the individual cities and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking-fund assets, for the year 1932. The aggregate debt of the cities and towns in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking-fund assets—total and per capita—of the government of the State, the cities and towns, and the fire districts. The amounts shown opposite the name of each county represent the combined debt of all the minor civil divisions in the county.

For 1932 the combined gross debt of Rhode Island and its political subdivisions, less sinking-fund assets set aside to meet such debt, was $110,352,432, or an average per capita of $158.55. In 1922 the average per capita was $79.38, and in 1912, $52.99.

Of the total debt reported for 1932, $16,806,957 was for the State government; $93,106,332 for the cities and towns; and $439,143 for fire districts.

The gross debt of the State government, less sinking-fund assets, increased 80 percent from 1922 to 1932, and 227.8 percent from 1912 to 1932. Similar debt for all minor civil divisions combined increased 124.1 percent from 1922 to 1932 and 259.3 percent from 1912 to 1932.

ASSESSED VALUATIONS

In Rhode Island property is assessed by assessors and boards of assessors in the various cities and towns. The date of assessment is June 15 in each year. Real estate is taxed in the town where situated. Except as otherwise provided, all ratable personal property, tangible and intangible, is assessed to the owner thereof in the town of his actual place of abode.

The assessed valuation of property shown in table 8 as for the year 1932 is the valuation reported as of June 15, 1931.

The assessed valuation of all property in Rhode Island subject to levies of the general property tax was $1,447,034,202 in 1932 as compared with $1,046,-691,000 in 1922, and $619,010,000 in 1912. The per capita assessed valuation increased from $1,067.87 in 1912 to $1,687.37 in 1922, and $2,079.07 in 1932.

TAX LEVIES

In Rhode Island all taxes on property levied by a town, as well as poll taxes, are collected by the town collectors, but any town may elect its treasurer the collector of town taxes. In every city in which a collector of taxes is not elected, the city treasurer acts as collector of taxes.

The levies of the general property tax shown in table 9 as for 1932 are based on the assessment made June 15, 1931, for cities and towns and fire districts, but the levies for the State government are based on the 1932 assessment.

The total levies of the general property tax for the State and all subdivisions were $8,192,000 in 1912, $19,925,000 in 1922, and $28,954,055 in 1932, this being a per capita of $14 13, $32.12, and $41.60, respectively.

Of the total levies reported for 1932, $1,208,656 was for the State government; $27,572,448 for cities and towns; and $172,951 for fire districts.

The average rate of levy per $100 of the assessed valuation was $1.32 in 1912, $1 90 in 1922, and $2 in 1932.

Scope of report 1562
Fiscal year 1562
Population 1562
Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932 1562

DESCRIPTION OF GENERAL TABLES:

Revenue receipts 1563
Governmental-cost payments 1563
Public indebtedness 1564
Assessed valuations 1564
Tax levies 1564

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities and towns, school districts, and other civil divisions, by counties. 1932 1565
2. *Revenue receipts and per capita total revenue receipts, and estimated population of cities and towns, by population groups: 1932* 1572
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities and towns, school districts, and other civil divisions, by counties: 1932 1574
4. *Governmental-cost payments and per capita total governmental-cost payments of cities and towns, by population groups. 1932* 1581
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities and towns, school districts, and other civil divisions, by counties 1932 1582
6. *Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities and towns, by population groups. 1932* 1586
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities and towns, school districts, and other civil divisions, by counties: 1932, 1922, and 1912 1587
8. *Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1932, 1922, and 1912* 1588
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and towns, school districts, and other civil divisions, by counties: 1932, 1922, and 1912 1589

INTRODUCTION

Scope of report.—The statistics herein presented for the State of South Carolina relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies for the State government, the 46 counties, the 265 cities and towns, the 1,795 school districts, and the 26 other civil divisions (drainage districts, sewer districts, and 2 townships), or a total of 2,133 political units that have power to levy taxes or incur debt.

The data for South Carolina were compiled largely from reports on file in the offices of the State comptroller and the State board of education, Columbia, S.C., and from reports received through correspondence.

Fiscal year.—For South Carolina the fiscal year reported for the State government is that ending December 31, 1931, while the statistics for the counties, the cities and towns, the school districts, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of South Carolina on January 1, 1932, was 1,744,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for South Carolina the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts by $6,958,372. For the State government the excess of governmental costs over revenue receipts was 52.6 percent; however, for the counties, the cities and towns, the school districts, and the other civil divisions, the revenue receipts exceeded governmental costs, the percent of excess being 33.2 for the counties, 12.3 for the cities and towns, 16.2 for the school districts, and 21.3 for the other civil divisions.

Although the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts, the revenue receipts exceeded governmental costs, exclusive of outlays, by $15,558,034.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of South Carolina and all subdivisions of the State amounted to $61,871,670, or an average of $35.48 for each person in the State. Of this amount $25,088,731 was for the State; $12,735,248 for the counties; $9,404,249 for the cities and towns; $14,479,590 for the school districts; and $163,852 for the other civil divisions. The revenues collected include $25,045,260, general property taxes; $2,513,707, special taxes; $428,761, poll taxes; $13,629,295, licenses and permits; $631,174, special assessments; $13,681,304, subventions, donations, and pension assessments; $752,524, interest, rents, and highway privileges; $2,468,518, earnings of public-service enterprises; $2,159,906, earnings of general departments; and $561,221, fines, forfeits, and escheats. Of the $13,681,304 classified as subventions, donations, and pension assessments, $5,349,925 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and towns having a population of 2,500 and over.

The general property taxes of the State, the counties, and the cities and towns having a population of 2,500 and over amounted to $6,155,000 in 1912, $12,939,000 in 1922, and $14,175,944 in 1932, this being an increase of 9.6 percent from 1922 to 1932, and 130.3 percent from 1912 to 1932. Special taxes amounted to $123,000 in 1912, $1,291,000 in 1922, and $2,513,707 in 1932. Poll taxes amounted to $302,000 in 1912, $374,000 in 1922, and $269,707 in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $536,000 in 1912, $1,695,000 in 1922, and $13,445,444 in 1932. Special assessments amounted to $84,000 in 1912, $926,000 in 1922, and $553,867 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of South Carolina and all subdivisions of the State for 1932 amounted to $68,830,042, or an average expenditure of $39.47 per person. Of the total amount expended, $38,297,182 was disbursed by the State government; $9,560,681 by the counties; $8,377,394 by the cities and towns; $12,459,712 by the school districts; and $135,073 by the other civil divisions. The total comprises $33,693,259 for operation and maintenance of general departments; $1,239,820 for operation and maintenance of public-service enterprises; $11,380,557 for interest on debt; and $22,516,406 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities and towns are not shown by departments in tables 3 and 4 for the reason that for the most part the reports secured for the cities and towns did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, the school districts, and the other civil divisions are shown by departments in table 3. Expenditures for maintenance of schools other than schools of the State government and those for cities having a population of 30,000 and over may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data for South Carolina were limited to the State, counties, and cities and towns with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments and public-service enterprises of the State, counties, and cities and towns having a population of 2,500 and over increased from $7,316,000 to $23,317,950, or 218.7 percent; interest payments, from $914,000 to $9,751,711, or 966.9 percent; and outlay payments, from $1,262,000 to $22,194,048, or 1,658.6 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities and towns, the school districts, and the other civil divisions by counties.

Table 6 presents for the individual cities and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking-fund assets, for the year 1932. The aggregate debt of the cities and towns in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking-fund assets—total and per capita—of the government of the State, the counties, the cities and towns, the school districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1932 the combined gross debt of South Carolina and all subdivisions of the State less sinking-fund assets set aside to meet such debt was $171,698,350, or an average per capita of $98.45. In 1922 the average per capita was $37.64, and in 1912, $13.54.

Of the total debt reported for 1932, $77,083,711 was for the State government; $31,241,899 for the counties; $43,561,926 for the cities and towns; $16,484,205 for the school districts; and $2,426,609 for the other civil divisions.

The gross debt of the State government, less sinking-fund assets, increased 793.4 percent from 1922 to 1932 and 1,159.8 percent from 1912 to 1932. Similar debt for all minor civil divisions combined increased 66.5 percent from 1922 to 1932 and 520.8 percent from 1912 to 1932.

ASSESSED VALUATIONS

In South Carolina all property is assessed at its true value in money. Personal property is listed for taxation between January 1 and March 1 of each year. Real property is listed between said dates every fourth year (1928, 1932), except in cities having a population of 50,000 or over, in which returns are also made in any intermediate year upon order of the special board of equalization of any such city.

In counties in which townships have been laid out, each township is a tax district; in other counties the auditors thereof are required to divide the counties into as many tax districts as may be necessary.

With the exception of a few counties, the duties relative to the valuation, assessment, and return of property for taxation devolve upon township boards of assessors, special boards of assessors for cities and towns, and the county boards of equalization, said township boards and special boards being appointed by the Governor every 2 years.

The assessed valuation of all property in South Carolina subject to levies of the general property tax was $407,909,083 in 1932 as compared with $436,000,000 in 1922 and $291,531,000 in 1912. The per capita assessed valuation increased from $185.42 in 1912 to $252.45 in 1922, and decreased to $233.89 in 1932.

TAX LEVIES

In South Carolina the county treasurer is the collector of all State, county, and city taxes. The time of payment of taxes is from the 15th day of September to the 31st day of December.

The total levies of the general property tax for the State and all subdivisions were $6,899,000 for 1912, $20,886,000 for 1922, and $27,378,605 for 1932, this being a per capita of $4.39, $12.09, and $15.70, respectively.

Of the total levies reported for 1932, $2,755,213 was for the State government; $7,753,027 for the counties; $5,564,407 for the cities and towns; $11,187,697 for the school districts; and $118,261 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $2.37 for 1912, $4.79 for 1922, and $6.71 for 1932.

Scope of report 1591
Fiscal year 1591
Population 1591
Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932 1591

DESCRIPTION OF GENERAL TABLES

Revenue receipts 1592
Governmental-cost payments 1592
Public indebtedness 1593
Assessed valuations 1593
Tax levies 1593

TABLES

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities and towns, school districts, townships, and other civil divisions, by counties: 1932 1594
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities and towns, by population groups: 1932 1605
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities and towns, school districts, townships, and other civil divisions, by counties: 1932 1606
4. Governmental-cost payments and per capita total governmental-cost payments of cities and towns, by population groups: 1932 1617
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities and towns, school districts, townships, and other civil divisions, by counties: 1932 1617
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities and towns, by population groups: 1932 1624
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities and towns, school districts, townships, and other civil divisions, by counties: 1932, 1922, and 1912 1624
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1932, 1922, and 1912 1626
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and towns, school districts, townships, and other civil divisions, by counties: 1932, 1922, and 1912 1628

INTRODUCTION

Scope of report.—The statistics herein presented for the State of South Dakota relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 69 counties, the 299 cities and towns, the 3,449 school districts, the 1,172 townships, and the 76 other civil divisions (drainage, irrigation, and levee districts), or a total of 5,066 political units that have power to levy taxes or incur debt.

The data for South Dakota were compiled from reports on file in the offices of the division of taxation and the State superintendent of public instruction, Pierre, S.Dak., and from reports received through correspondence.

Fiscal year.—For South Dakota the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities and towns, the school districts, the townships, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of South Dakota on January 1, 1932, was 699,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for South Dakota the aggregate of revenue receipts is in excess of governmental costs, including those for capital outlays, by $1,793,100. This excess of revenue receipts over governmental costs was 11 percent for the cities and towns, 15.8 percent for the school districts, and 9.4 percent for the townships. For the State government and for the counties, governmental costs exceeded revenue receipts, the percent of excess being 6.2 for the State and 1.1 for the counties.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of South Dakota and all subdivisions of the State amounted to $52,079,927, or an average of $74.51 for each person in the State. Of this amount $17,329,915 was for the State; $10,316,576 for the counties; $6,715,407 for the cities and towns; $15,615,346 for the school districts; $1,695,448 for the townships; and $407,235 for the other civil divisions. The revenues collected include $29,626,809, general property taxes; $254,730, special taxes; $33,904, poll taxes; $6,930,368, licenses and permits; $763,158. special assessments; $5,796,315, subventions, donations, and pension assessments; $1,932,276, interest, rents, and highway privileges; $2,719,279, earnings of public-service enterprises; $3,894.805, earnings of general departments; and $128,283, fines, forfeits, and escheats. Of the $5,796,315 classified as subventions, donations, and pension assessments, $3,928,701 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and towns having a population of 2,500 and over.

The general property taxes of the State, the counties, and the cities and towns having a population of 2,500 and over amounted to $6,017,000 in 1912, $13,552,000 in 1922, and $14,217,872 in 1932, this being an increase of 4.9 percent from 1922 to 1932, and 136.3 percent from 1912 to 1932. Special taxes amounted to $10,000 in 1912, $268,000 in 1922, and $254,730 in 1932. Poll taxes amounted to $117,000 in 1912, $9,000 in 1922, and $10,570 in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $456,000 in 1912, $1,067,000 in 1922, and $6,911,200 in 1932. Special assessments amounted to $398,000 in 1912, $304,000 in 1922, and $378,704 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of South Dakota and all subdivisions of the State for 1932 amounted to $50,286,827, or an average expenditure of $71.94 per person. Of the total amount expended, $18,412,374 was disbursed by the State government; $10,435,049 by the counties; $6,049,575 by the cities and towns; $13,481,143 by the school districts; $1,550,085, by the townships; and $358,601 by the other civil divisions. The total comprises $32,845,533 for operation and maintenance of general departments; $2,145,009 for operation and maintenance of public-service enterprises; $4,559,441 for interest on debt; and $10,736,844 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities and towns are not shown by departments in tables 3 and 4 for the reason that for the most part the reports secured for the cities and towns did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, the school districts, and the other civil divisions are shown by departments in table 3. Expenditures for maintenance of schools, other than schools of the State government, may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data for South Dakota were limited to State, counties, and cities and towns or other incorporated places with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments and public-service enterprises of the State, counties, and cities and towns having a population of 2,500 and over increased from $7,458,000 to

$19,544,227, or 162.1 percent; interest payments, from $399,000 to $3,387,274, or 748.9 percent; and outlay payments, from $1,942,000 to $9,717,204, or 400.4 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities and towns, the school districts, the townships, and the other civil divisions, by counties.

Table 6 presents for the individual cities and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1932. The aggregate debt of the cities and towns in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities and towns, the school districts, the townships, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1932 the combined gross debt of South Dakota and all subdivisions of the State less sinking fund assets set aside to meet such debt was $51,086,516, or an average per capita of $73.09. In 1922 the average per capita was $78.09, and in 1912, $19.72.

Of the total debt reported for 1932, $15,509,571 was for the State government; $6,263,404 for the counties; $10,006,454 for the cities and towns; $13,402,733 for the school districts; $361,005 for the townships; and $5,543,349 for the other civil divisions.

The gross debt of the State government, less sinking fund assets, increased 0.5 percent from 1922 to 1932 and 4,091.8 percent from 1912 to 1932. Similar debt for all minor civil divisions combined increased 1.3 percent from 1922 to 1932 and 188.9 percent from 1912 to 1932.

ASSESSED VALUATIONS

All real and personal property in the State, all personal property of persons residing therein, the property of corporations, banks and banking companies, except such as is expressly exempted, is subject to taxation and is assessed at its true and full value in money, such value being determined by the assessors.

The territory of each county not included in any city, incorporated town, or organized civil township, constitutes an assessor's district, for which an assessor is elected for a term of 2 years. Each organized civil township also constitutes an assessor's district, for which an assessor may be elected or appointed. Each unorganized county having a population of not less than 500 persons is deemed an independent taxing district, for which an assessor is appointed for a term of 2 years. Each city or town constitutes an assessor's district, and each city or town assessor performs all duties in relation to the assessing of property for the purpose of levying municipal, county, school, and State taxes.

The assessed valuation of all property in South Dakota subject to levies of the general property tax, was $1,508,675,996 in 1932 as compared with $1,977,128,000 in 1922 and $354,279,000 in 1912. The per capita assessed valuation increased from $550.87 in 1912 to $3,053.97 in 1922, and decreased to $2,158.33 in 1932.

TAX LEVIES

The county treasurer is the collector of all taxes extended upon the county list, and all delinquent taxes for the State, county, city, town, township, school, or other purposes; this provision also applies to unorganized counties, the taxes therein being payable to the treasurer of the county to which the unorganized county is attached. All taxes become due on January 1 of the year following that in which they are assessed.

The total levies of the general property tax for the State and all subdivisions were $10,720,000 for 1912, $32,483,000 for 1922, and $29,975,271 for 1932, this being a per capita of $16.67, $50.18, and $42.88, respectively.

Of the total levies reported for 1932, $4,865,236 was for the State government; $6,715,341 for the counties; $3,515,465 for the cities and towns; $13,514,236 for the school districts; $1,227,413 for the townships; and $137,580 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $3.03 for 1912, $1.64 for 1922, and $1.99 for 1932.

Tax levies	1634
TABLES:	
1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities, towns, and villages, special school districts, and other civil divisions, by counties. 1932	1635
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities, towns, and villages, by population groups: 1932	1646
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities, towns, and villages, special school districts, and other civil divisions, by counties 1932	1648
4. Governmental-cost payments and per capita total governmental-cost payments of cities, towns, and villages, by population groups. 1932	1660
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities, towns, and villages, special school districts, and other civil divisions, by counties 1932	1661
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities, towns, and villages, by population groups. 1932	1667
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities, towns, and villages, special school districts, and other civil divisions, by counties. 1932, 1922, and 1912	1668
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1932, 1922, and 1912	1670
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities, towns, and villages, and special school districts, by counties: 1932, 1922, and 1912	1672

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Tennessee relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 95 counties, the 218 cities, towns, and villages, the 89 special school districts, and the 70 other civil divisions (drainage districts), or a total of 473 political units that have power to levy taxes or incur debt. No report for the town of Humboldt was received.

The data for Tennessee were compiled from reports on file in the office of the State department of education, Nashville, Tenn., and from reports secured by local agents and through correspondence.

Fiscal year.—For Tennessee the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities, towns, and villages, the special school districts, and the other civil divisions, are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Tennessee on January 1, 1932, was 2,645,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for Tennessee the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts by $8,285,518. This excess of governmental costs over revenue receipts was 12.3 percent for the State government, 3.8 percent for the counties, 9.9 percent for the cities, towns, and villages, and 1.8 percent for the special school districts. For the other civil divisions, the revenue receipts were 4.5 percent in excess of governmental costs.

Although the aggregate of governmental costs, including those for capital outlays, is more than the revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays by $10,027,758.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES	
	Total	Percent of total	Total	Percent of total	Total	Percent of total	Total	Percent of total

[1] Data for schools under county supervision are included with the data for counties, and data for the schools of the cities of Alcoa, Bristol, Chattanooga, Clarksville, Dyersburg, Jackson, Johnson City, Kingsport, Knoxville, Maryville, Memphis, and Nashville, and the town of Springfield are included with the data for cities, towns, and villages.

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Tennessee and all subdivisions of the State amounted to $98,397,984, or an average of $37.20 for each person in the State. Of this amount $32,752,752 was for the State; $32,418,926 for the counties; $30,692,751 for the cities, towns, and villages; $1,379,952 for the special school districts; and $1,153,603 for the other civil divisions. The revenues collected include $40,243,248, general property taxes; $1,743,695, special taxes; $686,582, poll taxes; $25,887,833, licenses and permits; $2,716,449, special assessments; $15,464,266, subventions, donations, and pension assessments; $1,447,836, interest, rents, and highway privileges; $4,970,315, earnings of public-service enterprises; $4,671,605, earnings of general departments; and $566,155, fines, forfeits, and escheats. Of the $15,464,266 classified as subventions, donations, and pension assessments, $3,049,260 represents subventions by the Federal Government to the State, principally for highways.

The schools of 12 cities and 1 town, as disclosed by the tables, are administered by the city or town government. With the exception of these and the special school districts, the schools of Tennessee are under county supervision.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities, towns, and villages having a population of 2,500 and over.

General property taxes of the State, the counties, and urban places having a population of 2,500 and over amounted to $12,794,000 in 1912, $34,053,000 in 1922, and $39,069,325 in 1932, this being an increase of 14.7 percent from 1922 to 1932, and 205.4 percent from 1912 to 1932. Special taxes amounted to $91,000 in 1912, $903,000 in 1922, and $1,743,695 in 1932. Poll taxes amounted to $458,000 in 1912, $679,000 in 1922, and $674,088 in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $3,015,000 in 1912, $6,026,000 in 1922, and $25,807,652 in 1932. Special assessments amounted to $710,000 in 1912, $803,000 in 1922, and $1,511,593 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Tennessee and all subdivisions of the State for 1932 amounted to $106,683,502, or an average expenditure of $40.33 per person. Of the total amount expended, $36,794,819 was disbursed by the State government; $33,642,561 by the counties; $33,738,012 by the cities, towns, and villages; $1,404,246 by the special school districts; and $1,103,864 by the other civil divisions. The total comprises $69,884,696 for operation and maintenance of general departments; $2,352,621 for operation and maintenance of public-service enterprises; $16,132,909 for interest on debt; and $18,313,276 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities, towns, and villages are not shown by departments in tables 3 and 4 for the reason that for the most part the reports secured for cities, towns, and villages did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, the special school districts, and the other civil divisions are shown by departments in table 3. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities, towns, and villages or other incorporated places with a population of 2,500 and over. Data for the incorporated places

reported included data for the schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments and public service enterprises of the State, counties, and cities, towns, and villages, having a population of 2,500 and over increased from $16,034,000 to $69,986,846, or 336.5 percent; interest payments, from $2,513,000 to $15,483,847, or 516.1 percent; and outlay payments, from $5,572,000 to $17,675,487, or 217.2 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking-fund assets of the State government, and of the counties, the cities, towns, and villages, the special school districts, and the other civil divisions, by counties.

Table 6 presents for the individual cities, towns, and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking-fund assets, for the year 1932. The aggregate debt of the cities, towns, and villages in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking-fund assets—total and per capita—of the government of the State, the counties, the cities, towns, and villages, the special school districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1932 the combined gross debt of Tennessee and all subdivisions of the State less sinking fund assets set aside to meet such debt was $323,496,009, or an average per capita of $122.30. In 1922 the average per capita was $56.27, and in 1912, $26.41.

Of the total debt reported for 1932, $94,032,702 was for the State government; $104,321,717 for the counties; $119,411,107 for the cities, towns, and villages; $394,159 for the special school districts; and $5,336,324 for the other civil divisions.

The gross debt of the State government, less sinking-fund assets, increased 391.2 percent from 1922 to 1932 and 696.1 percent from 1912 to 1932. Similar debt for all minor civil divisions combined increased 100.9 percent from 1922 to 1932 and 385.3 percent from 1912 to 1932.

ASSESSED VALUATIONS

In Tennessee, the assessment of property for State, county, and municipal purposes is made by county assessors. Personal property, privileges, and polls are assessed annually, and real estate is assessed every 2 years in the odd-numbered years. All property is assessed at its actual cash value, which is determined by its selling price at a voluntary sale.

The assessed valuation of all property in Tennessee subject to levies of the general property tax was $1,663,892,254 in 1932 as compared with $1,730,828,000 in 1922 and $625,687,000 in 1912. The per capita assessed valuation increased from $279.56 in 1912 to $730.49 in 1922, and decreased to $629.07 in 1932.

TAX LEVIES

With the exception of the taxes of certain cities which collect their own taxes, and the State tax assessed against railroad, telegraph, telephone, and certain other companies, all ad valorem taxes are collected by the county trustee. Taxes assessed for the State by the railroad and public utilities commission are collected by the State comptroller.

Taxes are due and payable the first Monday in October of each year.

The total levies of the general property tax for the State and all subdivisions were $14,112,000 for 1912, $35,127,000 for 1922, and $43,988,890 for 1932, this being a per capita of $6.31, $14.83, and $16.63, respectively.

Of the total levies reported for 1932, $1,331,114 was for the State government; $21,908,468 for the counties; $20,247,396 for the cities, towns, and villages; and $501,912 for the special school districts. The average rate of levy per $100 of the assessed valuation was $2.26 for 1912, $2.03 for 1922, and $2.64 for 1932.

[1] For an explanation of the population used in computing per capita figures, see text discussion, p. 1
[2] Includes $770,988, inheritance taxes, for State purposes only.
[3] Exclusive of the town of Humboldt, for which no report was received.
[4] Exclusive of schools that are administered by counties or by cities and towns.
[5] Not computed.

[a] Omission from table 1 of any civil division listed in tables 3 or 5 indicates no receipts reported for such division.

Fiscal year 1676
Population 1676
Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931 1676

DESCRIPTION OF GENERAL TABLES

Revenue receipts 1677
Governmental-cost payments 1677
Public indebtedness 1678
Assessed valuations 1678
Tax levies 1678

TABLES.

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities, towns, and villages, school districts, and other civil divisions, by counties: 1931 1679
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities, towns, and villages, by population groups. 1931 1714
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities, towns, and villages, school districts, and other civil divisions, by counties. 1931 1719
4. Governmental-cost payments and per capita total governmental-cost payments of cities, towns, and villages, by population groups 1931 1754
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities, towns, and villages, school districts, and other civil divisions, by counties: 1931 1757
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities, towns, and villages, by population groups: 1931 1777
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities, towns, and villages, school districts, and other civil divisions, by counties 1931, 1922, and 1912 1780
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1931, 1922, and 1912 1785
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities, towns, and villages, school districts, and other civil divisions, by counties: 1931, 1922, and 1912 1790

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Texas relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 254 counties, the 529 cities, towns, and villages, the 7,266 school districts, and the 693 other civil divisions (drainage, road, levee, navigation, irrigation, conservation, and water improvement districts), or a total of 8,743 political units that have power to levy taxes or incur debt. The only data received for the city of Seymour related to indebtedness and tax levies.

The data for Texas were compiled from reports on file in the office of the State Comptroller and the State Board of Education, Austin, Tex., and from reports secured by local agents and through correspondence.

Fiscal year.—For Texas the fiscal year reported for the State government is that ending August 31, 1931, while the statistics for the counties, the cities, towns, and villages, the school districts, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Texas on January 1, 1932, was 5,943,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for Texas the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts by $9,757,108. This excess of governmental costs over revenue receipts was 7 percent for the counties, 9.1 percent for the cities, towns, and villages, and 9.3 percent for the school districts. For the State government and the other civil divisions, revenue receipts were in excess of governmental costs, the percent of excess being 3.9 for the State government and 10.3 for the other civil divisions.

Although the aggregate of governmental costs, including those for capital outlays, is more than the revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays by $66,854,029.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING FUND ASSETS		GENERAL PROPERTY TAX LEVIES	
	Total	Percent of total	Total	Percent of total	Total	Percent of total	Total	Percent of total

[1] Data for the schools of the cities of Beaumont, Dallas, El Paso, Galveston, Laredo, and Waco are included with the data for cities, towns, and villages.

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Texas and all subdivisions of the State amounted to $301,347,779, or an average of $50 71 for each person in the State. Of this amount $110,738,248 was for the State; $48,042,903 for the counties; $64,333,347 for the cities, towns, and villages; $64,227,786 for the school districts; and $14,005,495 for the other civil divisions. The revenues collected include $145,821,714, general property taxes; $2,781,527, special taxes; $2,376,796, poll taxes; $54,833,229, licenses and permits; $12,705,375, special assessments; $43,728,576, subventions, donations, and pension assessments; $10,028,141, interest, rents, and highway privileges; $16,947,527, earnings of public-service enterprises; $10,709,255, earnings of general departments; and $1,415,639, fines, forfeits, and escheats. Of the $43,728,576 classified as subventions, donations, and pension assessments, $12,979,921 represents subventions by the Federal Government to the State, principally for highways.

Data for the schools of the cities of Dallas, El Paso, Beaumont, Waco, Galveston, and Laredo are included with the data for the city government in the general tables of this report.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties and cities, towns, and villages having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities, towns, and villages having a population of 2,500 and over amounted to $28,780,000 in 1912, $71,398,000 in 1922, and $96,372,157 in 1931, this being an increase of 35 percent from 1922 to 1931, and 234.9 percent from 1912 to 1931. Special taxes amounted to $542,000 in 1912, $1,486,000 in 1922, and $2,781,527 in 1931. Poll taxes amounted to $1,107,000 in 1912, $1,981,000 in 1922, and $2,362,389 in 1931. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $2,622,000 in 1912, $10,525,000 in 1922, and $54,798,880 in 1931. Special assessments amounted to $1,357,000 in 1912, $884,000 in 1922, and $12,448,980 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Texas and all subdivisions of the State for 1931 amounted to $311,104,887, or an average expenditure of $52.35 per person. Of the total amount expended, $106,623,295 was disbursed by the State government; $51,390,596 by the counties; $70,183,905 by the cities, towns, and villages; $70,211,193 by the school districts; and $12,695,898 by the other civil divisions. The total comprises $189,273,596 for operation and maintenance of general departments; $8,363,931 for operation and maintenance of public service enterprises; $36,856,223 for interest on debt; and $76,611,137 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities, towns, and villages are not shown by departments in tables 3 and 4, for the reason that for the most part the reports secured for cities, towns, and villages did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, the school districts, and the other civil divisions are shown by departments in table 3. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities, towns, and villages or other incorporated places

with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1931 the payments for operation and maintenance of general departments and public service enterprises of the State, counties, and cities, towns, and villages having a population of 2,500 and over increased from $32,728,000 to $138,902,714, or 324.4 percent; interest payments, from $3,535,000 to $22,792,406, or 544.8 percent; and outlay payments, from $13,077,000 to $62,651,247, or 379.1 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities, towns, and villages, the school districts, and the other civil divisions, by counties.

Table 6 presents for the individual cities, towns, and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1931. The aggregate debt of the cities, towns, and villages in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities, towns, and villages, the school districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1931 the combined gross debt of Texas and all subdivisions of the State less sinking fund assets set aside to meet such debt was $748,390,932 or an average per capita of $125.93. In 1922 the average per capita was $73.71 and in 1912, $21.07.

Of the total debt reported for 1931, $10,316,987 was for the State government; $197,873,397 for the counties; $274,214,699 for the cities, towns, and villages; $112,326,903 for the school districts; and $153,658,946 for the other civil divisions.

The gross debt of the State government, less sinking fund assets, increased 67.9 percent from 1922 to 1931 and 121.6 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 110.8 percent from 1922 to 1931 and 786.7 percent from 1912 to 1931.

ASSESSED VALUATIONS

In Texas, all property, real, personal, or mixed, except such as is expressly exempted, is subject to State, county, and municipal taxation.

All property is listed for taxation with the county assessor (who is elected for two years) between January 1 and April 30, with the value as of the former date.

Cities with a population of more than 5,000, unless otherwise provided by charter, are empowered to levy, assess, and collect such taxes as the governing body may determine, not to exceed for any 1 year 2½ percent of the taxable property of such city, for current expenses or permanent improvements.

The assessed valuation of all property in Texas subject to levies of the general property tax was $4,241,682,299 in 1931 as compared with $3,382,110,000 in 1922 and $2,532,710,000 in 1912. The per capita assessed valuation increased from $607.07 in 1912 to $699.60 in 1922, and to $713.73 in 1931.

TAX LEVIES

In Texas counties having a population of 10,000 and over, a tax collector is elected for a term of 2 years; in counties having a population of less than 10,000, the sheriff is the tax collector. Each such collector and his deputies collect all taxes for State, county, or other purposes.

Each city and town has an assessor and collector of taxes, unless the powers performed by such an officer have been conferred by the council upon other officers

Collection of taxes is begun on October 1, annually, or as soon thereafter as the collector receives the assessment rolls.

The total levies of the general property tax for the State and all subdivisions were $32,965,000 for 1912, $109,234,000 for 1922, and $175,649,072 for 1931, this being a per capita of $7.90, $22.60, and $29.56, respectively.

Of the total levies reported for 1931, $31,388,449 was for the State government; $42,258,125 for the counties; $46,525,101 for the cities, towns, and villages; $39,995,337 for the school districts; and $15,482,060 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $1.30 for 1912, $3.23 for 1922, and $4.14 for 1931.

[1] For an explanation of the population used in computing per capita figures, see text discussion, p. v.
[2] Includes $910,399, inheritance taxes, and $1,871,128, other special taxes, for State purposes only.
[3] Excludes population of Seymour, Baylor county.
[4] Exclusive of the schools in the cities of Beaumont, Dallas, El Paso, Galveston, Laredo, and Waco, data for which are tabulated with the city.
[5] Not computed.
[6] No report was received for Seymour, the only city in Baylor county.
[7] Exclusive of the schools in the city of Dallas, data for which are tabulated with the city
[8] Exclusive of the schools in the city of El Paso, data for which are tabulated with the city.
[9] Exclusive of the schools in the city of Galveston, data for which are tabulated with the city.
[10] Exclusive of the schools in the city of Beaumont, data for which are tabulated with the city
[11] Exclusive of the schools in the city of Waco, data for which are tabulated with the city
[12] Exclusive of the schools in the city of Laredo, data for which are tabulated with the city.

TABLE 2.—REVENUE RECEIPTS AND PER CAPITA TOTAL REVENUE RECEIPTS, AND ESTIMATED POPULATION OF CITIES, TOWNS, AND VILLAGES, BY POPULATION GROUPS: 1931

[Revenue receipts expressed in thousands]

CITY, TOWN, OR VILLAGE	Estimated population[1]	REVENUE RECEIPTS											
		Total	Per capita	Taxes				Special assessments	Fines, forfeits, and escheats	Subventions and grants	Donations, gifts, and pension assessments	Highway privileges, rents, and interest	Earnings of general departments	Earnings of public-service enterprises
				Total	General property	Poll	Licenses and permits							
Grand total	2,916,911	$64,333	$22 06	$40,424	$39,987	$45	$392	$1,191	$624	$2,418	$240	$1,663	$2,076	$15,697

Revenue receipts 1798
Governmental-cost payments 1798
Public indebtedness 1799
Assessed valuations 1799
Tax levies 1799

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities and towns, school districts, and other civil divisions, by counties: 1932 1800
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities and towns, by population groups: 1932 1804
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities and towns, school districts, and other civil divisions, by counties: 1932 1805
4. Governmental-cost payments and per capita total governmental-cost payments of cities and towns, by population groups: 1932 1810
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities and towns, school districts, and other civil divisions, by counties: 1932 1811
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities and towns, by population groups: 1932 1814
7. Total and per capita of the combined gross debt less sinking-fund assets of counties, cities and towns, school districts, and other civil divisions, by counties: 1932, 1922, and 1912 1815
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1932, 1922, and 1912 1816
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and towns, and school districts, by counties: 1932, 1922, and 1912 1817

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Utah relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 29 counties, the 143 cities and towns, the 40 school districts, and the 34 other civil divisions (drainage districts, irrigation districts, and water-conservation districts), or a total of 247 political units that have power to levy taxes or incur debt.

The data for Utah were compiled largely from reports on file in the office of the State auditor, Salt Lake City, Utah, and reports received through correspondence.

Fiscal year.—For Utah the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities and towns, the school districts, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Utah on January 1, 1932, was 514,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for Utah the aggregate of governmental costs, including those for capital outlays, is in excess of the revenue receipts. This excess of governmental costs over revenue receipts was 3.8 percent for the counties, and 28.9 percent for the cities and towns.

For the State government, for school districts, and for other civil divisions the revenue receipts were in excess of governmental costs, the percent of excess being 3.8 for the State, 0.8 for the school districts, and 16.2 for other civil divisions.

Although the aggregate of governmental costs, including those for capital outlays, is $1,513,413 more than the revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $6,086,497.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES	
	Total	Per-cent of total	Total	Per-cent of total	Total	Per-cent of total	Total	Per-cent of total

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Utah and all subdivisions of the State amounted to $34,923,617, or an average of $67.95 for each person in the State. Of this amount $14,322,853 was for the State; $4,400,995 for the counties; $6,778,202 for the cities and towns; $9,298,517 for the school districts; and $123,050 for the other civil divisions. The revenues collected include $17,436,989, general property taxes; $639,336, special taxes; $4,318,664, licenses and permits; $1,347,366, special assessments; $6,061,223, subventions, donations, and pension assessments; $956,728, interest, rents, and highway privileges; $1,887,407, earnings of public-service enterprises; $2,099,901, earnings of general departments; and $176,003, fines, forfeits, and escheats. Of the $6,061,223 classified as subventions, donations, and pension assessments, $2,703,432 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and towns having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities and towns having a population of 2,500 and over amounted to $5,802,000 in 1912, $9,393,000 in 1922, and $11,219,471 in 1932, this being an increase of 19.4 percent from 1922 to 1932, and of 93.4 percent from 1912 to 1932. Special taxes amounted to $317,000 in 1912, $352,000 in 1922, and $639,336 in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $593,000 in 1912, $1,204,000 in 1922, and $4,272,901 in 1932. Special assessments amounted to $681,000 in 1912, $2,093,000 in 1922, and $1,199,812 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Utah and all subdivisions of the State for 1932 amounted to $36,437,030, or an average expenditure of $70.89 per person. Of the total amount expended, $13,799,557 was disbursed by the State government; $4,569,118 by the counties; $8,733,723 by the cities and towns; $9,228,698 by the school districts; and $105,934 by the other civil divisions. The total comprises $25,409,042 for operation and maintenance of general departments; $1,142,934 for operation and maintenance of public-service enterprises; $2,285,144 for interest on debt; and $7,599,910 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities and towns are not shown by departments in tables 3 and 4 for the reason that, for the most part, the reports secured for the cities and towns did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, the school districts, and the other civil divisions are shown by departments in table 3. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data for Utah were limited to the State, counties, and cities and towns having a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments and public-service enterprises of the State, counties, and cities and towns having a population of 2,500 and over increased from $6,805,000 to $17,589,500, or 158.5 percent; interest payments, from $586,000 to $1,534,093, or 161.8 percent; and outlay payments, from $1,740,000 to $6,944,327, or 299.1 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking-fund assets of the State government, and of the counties, the cities and towns, the school districts, and the other civil divisions, by counties.

Table 6 presents for the individual cities and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking-fund assets, for the year 1932. The aggregate debt of the cities and towns in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking-fund assets—total and per capita—of the government of the State, the counties, the cities and towns, the school districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all minor civil divisions of the county.

For 1932 the combined gross debt of Utah and all subdivisions of the State less sinking-fund assets set aside to meet such debt was $46,149,913, or an average per capita of $89.78. In 1922 the average per capita was $106.85, and in 1912, $37.77.

Of the total debt reported for 1932, $5,694,744 was for the State government; $4,116,606 for the counties; $18,678,594 for the cities and towns; $11,598,280 for the school districts; and $6,061,689 for the other civil divisions.

The gross debt of the State government, less sinking-fund assets, decreased 42 percent from 1922 to 1932 and increased 298.2 percent fom 1912 to 1932. Similar debt for all minor civil divisions combined increased 0.6 percent from 1922 to 1932 and 191.9 percent from 1912 to 1932.

ASSESSED VALUATIONS

All property is assessed annually by county assessors, elected for 4 years. Sworn returns are required from each taxpayer with the amount and value of property as of January 1. All property is assessed at its full cash value.

The assessed valuation of all property in Utah subject to levies of the general property tax was $618,404,571 in 1932 as compared with $630,073,000 in 1922 and $200,299,000 in 1912. The per capita assessed valuation increased from $494.89 in 1912 to $1,345.37 in 1922, and decreased to $1,203.12 in 1932.

TAX LEVIES

In Utah each county treasurer, elected for 4 years, is the collector of State, county, and local taxes. All taxes are due on the third Monday in September and become delinquent November 30.

The total levies of the general property tax for the State and all subdivisions were $6,529,000 for 1912, $17,711,000 for 1922, and $19,676,378 for 1932, this being a per capita of $16.13, $37.82, and $38.28, respectively.

Of the total levies reported for 1932, $5,124,384 was for the State government; $4,229,614 for the counties; $3,791,897 for the cities and towns; and $6,530,483 for the school districts. The average rate of levy per $100 of the assessed valuation was $3.26 for 1912, $2.81 for 1922, and $3.18 for 1932.

6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities and villages, by population groups: 1932 ... 1831
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities and villages, school districts, towns, and fire districts, by counties: 1932, 1922, and 1912 ... 1832
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1932, 1922, and 1912 ... 1832
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and villages, school districts, towns, and fire districts, by counties: 1932, 1922, and 1912 ... 1833

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Vermont relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 14 counties, the 70 cities and villages, the 27 school districts, the 240 towns, and the 24 fire districts, or a total of 376 political units that have power to levy taxes or incur debt.

The data for Vermont were compiled from reports on file in the office of the State commissioner of finance, and in the State library, Montpelier, Vt., and from reports received through correspondence.

Fiscal year.—For Vermont the fiscal year reported for the State government is that ending June 30, 1932; while the statistics for the counties, the cities and villages, the school districts, the towns, and the fire districts are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Vermont on January 1, 1932, was 360,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for Vermont the aggregate of revenue receipts is in excess of governmental costs, including those for capital outlays, by $505,124. The State government, the cities and villages, the school districts and the fire districts show an excess of revenue receipts over all governmental costs, but for the counties and towns an excess of governmental costs over revenue receipts is shown.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES	
	Total	Percent of total	Total	Percent of total	Total	Percent of total	Total	Percent of total

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Vermont and all subdivisions of the State amounted to $25,030,367, or an average of $69.53 for each person in the State. Of this amount $10,883,879 was for the State; $72,767 for the counties; $4,968,614 for the cities and villages; $560,058 for the school districts; $8,483,193 for the towns; and $61,856 for the fire districts. The revenues collected include $11,132,571, general property taxes; $2,515,912, special taxes; $246,074, poll taxes; $4,966,132, licenses and permits; $205,295, special assessments; $2,977,007, subventions, donations, and pension assessments; $312,997, interest, rents, and highway privileges; $1,483,144, earnings of public-service enterprises; $1,054,998, earnings of general departments; and $136,237, fines, forfeits, and escheats. Of the $2,977,007 classified as subventions, donations, and pension assessments, $1,135,050 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, towns, and cities and villages having a population of 2,500 and over. In 1932 poll taxes collected for the minor civil divisions of Vermont were included with general property taxes.

General property taxes of the State, the counties, and the cities and villages having a population of 2,500 and over amounted to $1,206,000 in 1912, $3,454,000 in 1922, and $4,051,109 in 1932, this being an increase of 17.3 percent from 1922 to 1932, and of 235.9 percent from 1912 to 1932. Special taxes amounted to $747,000 in 1912, $1,187,000 in 1922, and $2,515,912 in 1932. Poll taxes amounted to $32,000 in 1912, $132,000 in 1922, and $246,074 in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $736,000 in 1912, $1,104,000 in 1922, and $4,902,260 in 1932. Special assessments amounted to $21,000 in 1912, $20,000 in 1922, and $185,772 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Vermont and all subdivisions of the State for 1932 amounted to $24,525,243, or an average expenditure of $68.13 per person. Of the total amount expended, $10,259,672 was disbursed by the State government; $111,673 by the counties; $4,938,523 by the cities and villages; $539,309 by the school districts; $8,622,777 by the towns; and $53,289 by the fire districts. The total comprises $16,683,459 for operation and maintenance of general departments; $952,695 for operation and maintenance of public-service enterprises; $1,254,410 for interest on debt; and $5,634,679 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $1,432,997; protection to person and property, $797,686; health and sanitation, $452,522; development and conservation of natural resources by State government, $616,500; highways, $5,043,302; charities, hospitals, and corrections, $1,905,070; schools, $5,878,133; libraries, $126,880; recreation, $85,709; and miscellaneous, $344,660. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

For 1932 the revenue receipts were $505,124 in excess of governmental-cost payments. Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data for Vermont were limited to the State, the counties, the towns, and the cities and villages or

other incorporated places with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments and public-service enterprises of the State, the counties, and the cities and villages having a population of 2,500 and over increased from $3,267,000 to $9,286,003, or 184.2 percent; interest payments, from $166,000 to $735,093, or 343.2 percent; and outlay payments, from $515,000 to $4,156,190, or 707 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities and villages, the school districts, the towns, and the fire districts, by counties. The aggregate for the State and the totals for the counties are comparable with prior reports on this subject.

Table 6 presents for the individual cities and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1932. The aggregate debt of the cities and villages in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities and villages, the school districts, the towns, and the fire districts. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1932 the combined gross debt of Vermont and all subdivisions of the State less sinking fund assets set aside to meet such debt was $27,179,482, or an average per capita of $75.50. In 1922 the average per capita was $34.03, and in 1912, $19.39.

Of the total debt reported for 1932, $9,545,032 was for the State government; $140,312 for the counties; $8,793,208 for the cities and villages; $545,233 for the school districts; $7,940,987 for the towns; and $214,710 for the fire districts.

The gross debt of the State government, less sinking fund assets, increased 351.9 percent from 1922 to 1932 and 1,574.6 percent from 1912 to 1932. Similar debt for all minor civil divisions combined increased 78.5 percent from 1922 to 1932 and 175.1 percent from 1912 to 1932.

ASSESSED VALUATIONS

In Vermont taxable real estate in the town, village, school, and fire district where it is located, is listed each year to the owner as of April 1. Taxable personal estate, with certain exceptions, is also listed to the owner on that date in the various districts. Only 1 percent of all property is listed.

Real estate is appraised quadrennially (1918, 1922, etc.). In each such year the listers make a new appraisal of the taxable real estate in each town, and return the list to the town clerk's office on or before the fourth Tuesday in August in such year.

The assessed valuation of all property in Vermont subject to levies of the general property tax was $440,931,113 in 1932 as compared with $307,255,000 in 1922 and $221,530,000 in 1912. The per capita assessed valuation increased from $615.44 in 1912 to $871.82 in 1922, and to $1,224.81 in 1932.

TAX LEVIES

In Vermont the State, county, town, and town school district taxes are collected by the first constable provided no collector of taxes is elected at the annual town meeting. However, any town, town school district, incorporated school or fire district, or incorporated village may vote to have its taxes collected by its treasurer. In unorganized towns and gores, taxes are collected by the supervisors thereof.

The total levies of the general property tax for the State and all subdivisions were $4,020,000 for 1912, $9,188,000 for 1922, and $12,100,674 for 1932, this being a per capita of $11.17, $26.07, and $33.61, respectively.

Of the total levies reported for 1932, $1,266,935 was for the State government; $63,116 for the counties; $3,313,927 for the cities and villages; $413,340 for the school districts; $7,007,100 for the towns; and $36,256 for the fire districts. The average rate of levy per $100 of the assessed valuation was $1.81 for 1912, $2.99 for 1922, and $2.74 for 1932.

TABLE 1.—REVENUE RECEIPTS AND PER CAPITA TOTAL REVENUE RECEIPTS, AND ESTIMATED POPULATION OF COUNTIES, CITIES AND VILLAGES, SCHOOL DISTRICTS, TOWNS, AND FIRE DISTRICTS, BY COUNTIES: 1932

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, towns, and other civil divisions, by counties, and of independent cities, 1931 ... 1838
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities and towns, by population groups: 1931 ... 1848
3. Governmental-cost payments and per capita total governmental-cost payments of counties, towns, and other civil divisions, by counties, and of independent cities: 1931 ... 1850
4. Governmental-cost payments and per capita total governmental-cost payments of cities and towns, by population groups: 1931 ... 1860
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, towns, and other civil divisions, by counties, and of independent cities: 1931 ... 1861
6. Gross debt classified by character, and gross debt less sinking fund assets, total and per capita, of cities and towns, by population groups: 1931 ... 1867
7. Total and per capita of the combined gross debt less sinking-fund assets of counties, towns, and other civil divisions, by counties, and of independent cities: 1931, 1922, and 1912 ... 1868
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties and independent cities: 1931, 1922, and 1912 ... 1870
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, towns, and other civil divisions, by counties, and of independent cities: 1931, 1922, and 1912 ... 1873

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Virginia relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 100 counties, the 24 independent cities, the 171 towns, the 2 sanitary districts, and the 1 drainage district, or a total of 299 political units that have power to levy taxes or incur debt.

The data for Virginia were compiled largely from reports on file in the office of the auditor of public accounts, Richmond, Va.

Fiscal year.—For Virginia the fiscal year reported for the State government is that ending June 30, 1932; while the statistics for the counties and other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Virginia on January 1, 1932, was 2,433,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for Virginia the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts. The counties and the towns show an excess of revenue receipts over governmental costs, while the State government, the independent cities, and the other civil divisions show an excess of governmental costs over revenue receipts.

Although the aggregate of governmental costs, including those for capital outlays, is 0.5 percent in excess of revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $18,443,838.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Virginia and all subdivisions of the State amounted to $106,166,719, or an average of $43.64 for each person in the State. Of this amount $42,198,545 was for the State; $26,217,478 for the counties; $34,233,635 for the independent cities; $3,426,700 for the towns; and $90,361 for the sanitary and drainage districts. The revenues collected include $40,497,555, general property taxes; $1,511,936, special taxes; $963,611, poll taxes; $28,841,773, licenses and permits; $428,279, special assessments; $11,869,452, subventions, donations, and pension assessments; $3,885,334, interest, rents, and highway privileges; $7,461,433, earnings of public-service enterprises; $6,732,393, earnings of general departments; and $974,953, fines, forfeits, and escheats. Of the $11,869,452 classified as subventions, donations, and pension assessments, $3,483,402 represents subventions by the Federal Government to the State principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and towns having a population of 2,500 and over.

General property taxes of the State, counties, independent cities, and urban places having a population of 2,500 and over amounted to $11,169,000 in 1912, $31,451,000 in 1922, and $39,638,903 in 1931, this being an increase of 26 percent from 1922 to 1931, and 254.9 percent from 1912 to 1931. Special taxes amounted to $413,000 in 1912, $3,248,000 in 1922, and $1,511,936 in 1931. Poll taxes amounted to $446,000 in 1912, $893,000 in 1922, and $958,908 in 1931. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $4,305,000 in 1912, $10,206,000 in 1922, and $28,662,738 in 1931. Special assessments amounted to $130,000 in 1912, $135,000 in 1922, and $417,848 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Virginia and its political subdivisions for 1931 amounted to $106,722,359, or an average expenditure of $43.86 per person. Of the total amount expended, $42,493,034 was disbursed by the State government; $25,518,396 by the counties; $35,243,579 by the independent cities; $3,225,731 by the towns; and $241,619 by the sanitary and the drainage districts. The total comprises $74,563,143 for operation and maintenance of general departments, $3,260,383 for operation and maintenance of public-service enterprises, $9,899,355 for interest on debt, and $18,999,478 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $7,363,559; protection to person and property, $6,293,813; health and sanitation, $3,426,452; development and conservation of natural resources by State government, $1,401,897; highways, $14,308,527; charities, hospitals, and corrections, $5,412,521; schools, $31,025,772; libraries, $265,418; recreation, $437,362; miscellaneous, $2,061,428; and disbursements by towns and sanitary districts, not distributable by departments, $1,666,394. Expenditures for maintenance of schools other than schools of the State government and those for cities of over 30,000 population may include certain other expenditures such as for elections, financial offices, and recreation.

For 1931 the governmental-cost payments were $555,640 in excess of revenue receipts. Receipts from the issue of debt obligations are not classed as revenue receipts or payments on account of debt obligations as governmental-cost payments.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities or other incorporated places with a population of

2,500 and over, and did not include smaller incorporated places or sanitary or drainage districts. In the period from 1912 to 1931 the payments for operation and maintenance of general departments and public service enterprises of the State, counties, and cities and towns having a population of 2,500 and over increased from $14,567,000 to $76,751,136, or 426.9 percent; interest payments, from $2,707,000 to $9,541,769, or 252.5 percent; and outlay payments, from $4,250,000 to $18,632,361, or 338.4 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the towns, and the sanitary and drainage districts, by counties, and of the independent cities. The aggregate for the State and the totals for the counties, independent cities, and towns are comparable with prior reports on this subject.

Table 6 presents for the individual cities and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1931. The aggregate debt of the cities and towns in each county is shown in Table 5.

In Table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the independent cities, the towns, and the sanitary and drainage districts. The amounts shown opposite the name of each county represent the combined debt of all the minor civil divisions in the county.

For 1931 the combined gross debt of Virginia and its political subdivisions less sinking fund assets set aside to meet such debt was $181,242,324, or an average per capita of $74.49. In 1922 the average per capita was $50.33, and in 1912, $29.09.

Of the total debt reported for 1931, $25,982,560 was for the State government; $30,296,872 for the counties; $113,329,223 for the independent cities; $10,691,865 for the towns; and $941,804 for the sanitary and drainage districts.

The gross debt of the State government, less sinking fund assets, increased 19.4 percent from 1922 to 1931 and 17.9 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 59.5 percent from 1922 to 1931 and 289.2 percent from 1912 to 1931.

ASSESSED VALUATIONS

In Virginia property is assessed by commissioners of revenue in the various counties and cities. Each commissioner commences on January 1 annually to assess taxes on real estate to the owner thereof on said date. All taxable tangible personal property, and the tangible personal property of public service corporations (except rolling stock of steam railroads), and the capital of merchants are subject to local taxation only. All real estate, except such as is exempted by the State constitution, is subject to annual taxation.

The assessed valuation of property shown in Table 8 as for the year 1931 is the valuation reported as of January 1, 1931.

The assessed valuation of all property in Virginia subject to levies of general property tax was $2,353,629,451 in 1931 as compared with $1,826,263,000 in 1922 and $864,963,000 in 1912. The per capita assessed valuation increased from $406.28 in 1912 to $771.69 in 1922, and to $967.38 in 1931.

TAX LEVIES

In Virginia each county and city treasurer collects State revenues and the county and city levies. The collection of taxes begins each year as soon as the commissioners of revenue complete their assessment, and continues up to and including December 5 of each year.

The levies of the general property tax shown in Table 9 as for 1931 are based on the assessment made January 1, 1931.

The total levies of the general property tax for the State and all subdivisions were $13,822,000 in 1912, $33,878,000 in 1922, and $43,386,587 in 1931, this being a per capita of $6.49, $14.32, and $17.83, respectively.

Of the total levies reported for 1931, $5,259,556 was for the State government; $15,714,348 for the counties; $20,607,949 for the independent cities; $1,667,975 for the towns; and $136,759 for the sanitary and drainage districts.

The average rate of levy per $100 of the assessed valuation was $1.60 in 1912, $1.86 in 1922, and $1.84 in 1931.

DESCRIPTION OF GENERAL TABLES

Revenue receipts ... 1879
Governmental-cost payments ... 1879
Public indebtedness ... 1880
Assessed valuations ... 1880
Tax levies ... 1880

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities and towns, school districts, road districts, and other civil divisions, by counties: 1932 ... 1881
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities and towns, by population groups: 1932 ... 1888
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities and towns, school districts, road districts, and other civil divisions, by counties: 1932 ... 1890
4. Governmental-cost payments and per capita total governmental-cost payments of cities and towns, by population groups: 1932 ... 1898
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities and towns, school districts, road districts, and other civil divisions, by counties: 1932 ... 1900
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities and towns, by population groups: 1932 ... 1904
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities and towns, school districts, road districts, and other civil divisions, by counties: 1932, 1922, and 1912 ... 1905
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties, 1932, 1922, and 1912 ... 1906
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and towns, school districts, road districts, and other civil divisions, by counties, 1932, 1922, and 1912 ... 1907

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Washington relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 39 counties, the 251 cities and towns, the 2,003 school districts, the 203 road districts, and the 482 other civil divisions (74 townships, and drainage districts, irrigation districts, port districts, dike districts, harbor-improvement districts, water districts, ditch districts, sewer districts, weed-control districts, commercial-waterways districts, pest-control district, and park district), or a total of 2,982 political units that have power to levy taxes or incur debt.

The data for Washington were compiled principally from reports on file in the office of the Division of Municipal Corporations, Olympia, Wash.

Fiscal year.—For Washington the fiscal year reported for the State government is that ending March 31, 1932, while the statistics for the counties, the cities and towns, the school districts, the road districts, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Washington on January 1, 1932, was 1,584,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for Washington the aggregate of governmental costs, including those for capital outlays, is in excess of the revenue receipts. This excess of governmental costs over revenue receipts was 8.7 percent for the counties, 9.6 percent for the cities and towns, and 16.9 percent for the school districts.

For the State government, for road districts, and for other civil divisions the revenue receipts were in excess of governmental costs, the percent of excess being 3.3 for the State, 11.6 for the road districts, and 14.3 for the other civil divisions.

Although the aggregate of governmental costs, including those for capital outlays, is $8,196,615 more than the revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $33,770,403.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Washington and all subdivisions of the State amounted to $144,229,941, or an average of $91.05 for each person in the State. Of this amount $40,265,584 was for the State; $20,171,929 for the counties; $17,997,482 for the cities and towns; $25,493,522 for the school districts; $4,592,882 for the road districts; and $5,708,542 for the other civil divisions. The revenues collected include $67,273,610, general property taxes; $979,029, special taxes; $17,873,085, licenses and permits; $9,127,663, special assessments; $16,533,260, subventions, donations, and pension assessments; $3,320,316, interest, rents, and highway privileges; $22,052,285, earnings of public service enterprises; $6,182,440, earnings of general departments; and $888,253, fines, forfeits, and escheats. Of the $16,533,260 classified as subventions, donations, and pension assessments, $4,406,675 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties and cities and towns having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities and towns having a population of 2,500 and over amounted to $23,701,000 in 1912, $38,054,000 in 1922, and $46,452,216 in 1932, this being an increase of 22.1 percent from 1922 to 1932, and of 96 percent from 1912 to 1932. Special taxes amounted to $186,000 in 1912, $315,000 in 1922, and $979,029 in 1932. Poll taxes amounted to $2,000 in 1912, and $2,056,000 in 1922. No poll taxes were reported for Washington in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $2,979,000 in 1912, $6,189,000 in 1922, and $17,765,232 in 1932. Special assessments amounted to $7,908,000 in 1912, $6,114,000 in 1922, and $6,839,746 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Washington and all subdivisions of the State for 1932 amounted to $152,426,556, or an average expenditure of $96.23 per person. Of the total amount expended, $38,975,340 was disbursed by the State government; $21,917,406 by the counties; $52,616,126 by the cities and towns; $29,810,354 by the school districts; $4,115,152 by the road districts; and $4,992,178 by the other civil divisions. The total comprises $87,645,368 for operation and maintenance of general departments; $12,188,598 for operation and maintenance of public service enterprises; $10,625,572 for interest on debt; and $41,967,018 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $8,178,406; protection to person and property, $9,410,784; health and sanitation, $2,781,124; development and conservation of natural resources, $1,862,951; highways, $14,067,752; charities, hospitals, and corrections, $5,260,674; schools, $41,814,063; libraries, $734,388; recreation, $1,072,837; miscellaneous, $2,244,211; and disbursed by townships but not distributable by departments, $218,178. Townships are included with "other civil divisions." Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data for Washington were limited to the State, counties, and cities and towns with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments and public

service enterprises of the State, counties, and cities and towns of 2,500 population and over increased from $26,816,000 to $67,130,714, or 150.3 percent; interest payments, from $4,536,000 to $7,101,894, or 56.6 percent; and outlay payments, from $18,804,000 to $37,000,027, or 96.8 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities and towns, the school districts, the road districts, and the other civil divisions, by counties.

Table 6 represents for the individual cities and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1932. The aggregate debt of the cities and towns in each county is shown in table 5.

Special assessment debt for local improvement districts, although not a legal obligation of the cities and towns, is included with city or town liabilities for places having a population of less than 30,000. From the reports submitted for these places the financial transactions relating to local improvement districts could not be identified, and therefore the debt for these districts was not eliminated.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities and towns, the school districts, the road districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all minor civil divisions of the county.

For 1932 the combined gross debt of Washington and all subdivisions of the State less sinking fund assets set aside to meet such debt was $217,430,541, or an average per capita of $137.27. In 1922 the average per capita was $120.21, and in 1912, $71.37.

Of the total debt reported for 1932, $8,257,400 was for the State government; $21,008,658 for the counties; $118,160,597 for the cities and towns; $35,968,386 for the school districts; $4,094,181 for the road districts; and $29,941,319 for the other civil divisions.

The gross debt of the State government, less sinking fund assets, decreased 37.4 percent from 1922 to 1932 and increased 430.7 percent from 1912 to 1932. Similar debt for all minor civil divisions combined, increased 31.2 percent from 1922 to 1932 and 121.5 percent from 1912 to 1932.

ASSESSED VALUATIONS

Property in Washington is assessed by county assessors in every even-numbered year, the assessment being with reference to March 1 of the year in which assessed.

The preliminary work of assessing begins not later than February 1 of each year, while listing and placing valuations must be completed by March 31 of each even-numbered year. All property is assessed at 50 percent of its true and fair value.

The assessed valuation of all property in Washington subject to levies of the general property tax was $1,250,039,549 in 1932 as compared with $1,111,890,000 in 1922 and $1,005,086,000 in 1912. The per capita assessed valuation increased from $747.45 in 1912 to $790.61 in 1922, and decreased to $789.17 in 1932.

TAX LEVIES

Each county treasurer is the receiver and collector of all taxes, whether levied for State, county, school, road, or other purposes. Special assessments are collected by city treasurers, unless delinquent, then they are collected by the county treasurers.

The total levies of the general property tax for the State and all subdivisions were $31,205,000 for 1912, $66,283,000 for 1922, and $73,130,920 for 1932, this being a per capita of $23.21, $47.13, and $46.17, respectively.

Of the total levies reported for 1932, $12,298,334 was for the State government; $19,516,656 for the counties; $17,569,335 for the cities and towns; $19,144,459 for the school districts; $3,064,859 for the road districts; and $1,537,277 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $3.10 for 1912, $5.96 for 1922, and $5.85 for 1932.

WEST VIRGINIA

INTRODUCTION: Page

Scope of report 1910
Fiscal year 1910
Population 1910
Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932 1910

DESCRIPTION OF GENERAL TABLES:

Revenue receipts 1911
Governmental-cost payments 1911
Public indebtedness 1912
Assessed valuations 1912
Tax levies 1912

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities, towns, and villages, and school districts, by counties: 1932 1913
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities, towns, and villages, by population groups: 1932 1920
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities, towns, and villages, and school districts, by counties: 1932 1922
4. Governmental-cost payments and per capita total governmental-cost payments of cities, towns, and villages, by population groups: 1932 1930
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities, towns, and villages, and school districts, by counties: 1932 1932
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities, towns, and villages, by population groups: 1932 1936
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities, towns, and villages, and school districts, by counties: 1932, 1922, and 1912 1937
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1932, 1922, and 1912 1938
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities, towns, and villages, and school districts, by counties: 1932, 1922, and 1912 1939

INTRODUCTION

Scope of report.—The statistics herein presented for the State of West Virginia relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 55 counties, the 199 cities, towns, and villages, and the 400 school districts, or a total of 655 political units that have power to levy taxes or incur debt.

The data for West Virginia were compiled largely from reports on file in the office of State Tax Commissioner, Charleston, W.Va.

Fiscal year.—For West Virginia the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities, towns, and villages, and the school districts are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of West Virginia on January 1, 1932, was 1,756,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for West Virginia the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts by $8,497,259. This excess of governmental costs over revenue receipts was 31.1 percent for the State government, 2.4 percent for the counties, 0.5 percent for the cities, towns, and villages, and 2 percent for the school districts.

Although the aggregate of governmental costs, including capital outlays, is in excess of revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $14,220,244.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of West Virginia and all subdivisions of the State amounted to $76,615,330, or an average of $43.63 for each person in the State. Of this amount $24,118,342 was for the State; $17,031,889 for the counties; $8,153,076 for the cities, towns, and villages; and $27,312,023 for the school districts. The revenues collected include $50,049,743, general property taxes; $1,554,756, special taxes; $433,310, poll taxes; $13,577,072, licenses and permits; $347,033, special assessments; $4,904,462, subventions, donations, and pension assessments; $1,102,583, interest, rents, and highway privileges; $1,443,540, earnings of public service enterprises; $2,736,139, earnings of general departments; and $466,692, fines, forfeits, and escheats. Of the $4,904,462 classified as subventions, donations, and pension assessments, $3,106,805 represents subventions by the Federal Government to the State, principally for highways. In the cities, towns, and villages of less than 30,000 population, poll tax is included with general property tax.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities, towns, and villages having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities, towns, and villages having a population of 2,500 and over amounted to $6,315,000 in 1912, $18,343,000 in 1922, and $23,721,783 in 1932, this being an increase of 29.3 percent from 1922 to 1932, and 275.6 percent from 1912 to 1932. Special taxes amounted to $588,000 in 1912, $1,436,000 in 1922, and $1,554,756 in 1932. Poll taxes amounted to $317,000 in 1912, $643,000 in 1922, and $433,049 in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $1,370,000 in 1912, $5,101,000 in 1922, and $13,543,063 in 1932. Special assessments amounted to $388,000 in 1912, $1,139,000 in 1922, and $300,761 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of West Virginia and all subdivisions of the State for 1932 amounted to $85,112,589, or an average expenditure of $48.47 per person. Of the total amount expended, $31,623,080 was disbursed by the State government; $17,432,452 by the counties; $8,192,313 by the cities, towns, and villages; and $27,864,744 by the school districts. The total comprises $53,921,271 for operation and maintenance of general departments; $918,047 for operation and maintenance of public-service enterprises; $7,555,768 for interest on debt; and $22,717,503 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $6,977,900; protection to person and property, $3,859,945; health and sanitation, $1,366,230; development and conservation of natural resources by the State, $497,722; highways, $8,690,966; charities, hospitals, and corrections, $3,182,869; schools, $28,919,622; libraries, $40,695; recreation, $171,936; and miscellaneous, $213,386. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities, towns, and villages or other incorporated places with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments and

public-service enterprises of the State, counties, and cities and towns having a population of 2,500 and over increased from $8,385,000 to $29,956,725, or 257.3 percent; interest payments, from $379,000 to $6,554,780 or 1,629.5 percent; and outlay payments, from $1,978,000 to $19,684,865, or 895.2 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities, towns, and villages, and the school districts.

Table 6 presents for the individual cities, towns, and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking-fund assets, for the year 1932. The aggregate debt of the cities, towns, and villages in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking-fund assets—total and per capita—of the government of the State, the counties, the cities, towns, and villages, and the school districts. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1932 the combined gross debt of West Virginia and all subdivisions of the State less sinking-fund assets set aside to meet such debt was $151,593,880, or an average per capita of $86.33. In 1922 the average per capita was $46.58, and in 1912, $8.57.

Of the total debt reported for 1932, $86,393,930 was for the State government; $34,244,851 for the counties; $15,421,963 for the cities, towns, and villages; and $15,533,136 for the school districts.

The gross debt of the State government, less sinking-fund assets, increased 257.3 percent from 1922 to 1932. Similar debt for all minor civil divisions combined increased 40.7 percent from 1922 to 1932 and 482.4 percent from 1912 to 1932.

ASSESSED VALUATIONS

In West Virginia each county constitutes an assessment district, for which an assessor is elected every 4 years.

All property is assessed annually as of January 1, at its true and actual value.

The assessed valuation of all property in West Virginia subject to levies of the general property tax was $1,877,968,467 in 1932 as compared with $2,092,557,000 in 1922 and $1,168,013,000 in 1912. The per capita assessed valuation increased from $894.11 in 1912 to $1,382.43 in 1922, and decreased to $1,069.46 in 1932.

TAX LEVIES

In West Virginia each sheriff is ex-officio tax collector of his county and collects the taxes (except municipal) assessed therein for all purposes. Taxes and special assessments due municipalities are collected by the sergeant thereof, or by such other officer as the council may designate.

The total levies of the general property tax for the State and all subdivisions were $10,026,000 for 1912, $38,435,000 for 1922, and $50,657,489 for 1932, this being a per capita of $7.67, $25.39, and $28.85, respectively.

Of the total levies reported for 1932, $3,568,140 was for the State government; $15,192,793 for the counties; $5,788,208 for the cities, towns, and villages; and $26,108,348 for the school districts. The average rate of levy per $100 of the assessed valuation was $0.86 for 1912, $1.84 for 1922, and $2.70 for 1932.

Scope of report 1942
Fiscal year 1942
Population 1942
Summary of revenue receipts, governmental costs, debt, andgeneral pr operty tax levies: 1932 ... 1942

DESCRIPTION OF GENERAL TABLES:

Revenue receipts 1943
Governmental-cost payments 1943
Public indebtedness 1944
Assessed valuations 1944
Tax levies 1944

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities and villages, school districts, towns, and drainage districts, by counties: 1932 1945
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities and villages, by population groups: 1932 1957
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities and villages, school districts, towns, and drainage districts, by counties: 1932 1960
4. Governmental-cost payments and per capita total governmental-cost payments of cities and villages, by population groups: 1932 1972
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities and villages, school districts, towns, and drainage districts, by counties: 1932 1975
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities and villages, by population groups: 1932 1982
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities and villages, school districts, towns, and drainage districts, by counties: 1932, 1922, and 1912 1983
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1932, 1922, and 1912 1985
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and villages, school districts, and towns, by counties: 1932, 1922, and 1912 1988

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Wisconsin relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 71 counties, the 504 cities and villages, the 7,367 school districts, the 1,280 towns, and the 132 drainage districts, or a total of 9,355 political units that have power to levy taxes or incur debt.

The data for Wisconsin were compiled principally from reports on file in the office of the Wisconsin Tax Commission, Madison, Wis.

Fiscal year.—For Wisconsin the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities and villages, the school districts, the towns, and the drainage districts are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Wisconsin on January 1, 1932, was 2,970,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for Wisconsin the aggregate of governmental costs, including those for capital outlays, is in excess of the revenue receipts. This excess of governmental costs over revenue receipts was 12.1 percent for the State, 11.6 percent for the counties, and 1.5 percent for the cities and villages. For the school districts, for towns, and for drainage districts, the revenue receipts were in excess of governmental costs, the percent of excess being 0.5 for the school districts, 21 for the towns and 106.1 for the drainage districts.

Although the aggregate of governmental costs, including those for capital outlays, is $13,037,671 more than the revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $60,390,729.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Wisconsin and all subdivisions of the State amounted to $256,456,747, or an average of $86.35 for each person in the State. Of this amount $65,016,140 was for the State; $55,929,781 for the counties; $98,795,144 for the cities and villages; $21,317,313 for the school districts; $15,232,002 for the towns; and $166,367 for the drainage districts. The revenues collected include $125,709,871, general property taxes; $21,031,290, special taxes; $33,428,690, licenses and permits; $6,174,473, special assessments; $31,724,101, subventions, donations, and pension assessments; $3,626,215, interest, rents, and highway privileges; $12,513,908, earnings of public service enterprises; $20,565,761, earnings of general departments; and $782,438, fines, forfeits, and escheats. Of the $31,724,101 classified as subventions, donations, and pension assessments, $5,421,270 represents subventions by the Federal Government to the State, principally for highways. The schools of Wisconsin are organized as the district school and the city school. Data for the city school plan are included with the data for cities and villages in the general tables of this report.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and villages having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities and villages having a population of 2,500 and over amounted to $25,857,000 in 1912, $70,630,000 in 1922, and $98,642,989 in 1932, this being an increase of 39.7 percent from 1922 to 1932, and of 281.5 percent from 1912 to 1932. Special taxes amounted to $1,004,000 in 1912, $10,324,000 in 1922, and $20,730,439 in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $4,116,000 in 1912, $6,399,000 in 1922, and $33,038,372 in 1932. Special assessments amounted to $1,431,000 in 1912, $3,136,000 in 1922, and $5,621,387 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Wisconsin and all subdivisions of the State for 1932 amounted to $269,494,418, or an average expenditure of $90.74 per person. Of the total amount expended, $72,869,682 was disbursed by the State government; $62,432,598 by the counties; $100,316,079 by the cities and villages; $21,204,748 by the school districts; $12,590,579 by the towns; and $80,732 by the drainage districts. The total comprises $177,572,855 for operation and maintenance of general departments; $9,302,268 for operation and maintenance of public-service enterprises; $9,190,895 for interest on debt; and $73,428,400 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $13,279,091; protection to person and property, $15,013,857; health and sanitation, $9,619,078; development and conservation of natural resources, $2,427,184; highways, $37,825,032; charities, hospitals, and corrections, $24,713,889; schools, $65,787,345; libraries, $1,434,519; recreation, $3,416,714; and miscellaneous, $4,056,146. Expenditures for maintenance of schools other than schools of the State government and those for cities of over 30,000 population may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data for Wisconsin were limited to the State, counties, and cities and villages with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments and public

service enterprises of the State, counties, and cities and villages of 2,500 population and over increased from $32,010,000 to $152,724,820, or 377.1 percent; interest payments, from $1,418,000 to $8,381,776, or 491.1 percent; and outlay payments, from $8,222,000 to $67,405,933, or 719.8 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking-fund assets of the State government, and of the counties, the cities and villages, the school districts, the towns, and the drainage districts, by counties.

Table 6 presents for the individual cities and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking-fund assets, for the year 1932. The aggregate debt of the cities and villages in each county is shown in Table 5.

In Table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking-fund assets—total and per capita—of the government of the State, the counties, the cities and villages, the school districts, the towns, and the drainage districts. The amounts shown opposite the name of each county represent the combined debt of the county government and all minor civil divisions of the county.

For 1932 the combined gross debt of Wisconsin and all subdivisions of the State less sinking-fund assets set aside to meet such debt was $205,234,228, or an average per capita of $69.10. In 1922 the average per capita was $38.81, and in 1912, $16.56.

Of the total debt reported for 1932, $1,183,700 was for the State government; $80,857,361 for the counties; $108,563,274 for the cities and villages; $10,618,577 for the school districts; $1,860,822 for the towns; and $2,150,494 for the drainage districts.

The gross debt of the State government, less sinking fund assets, decreased 45.3 percent from 1922 to 1932 and 47.4 percent from 1912 to 1932. Similar debt for all minor civil divisions combined increased 99.3 percent from 1922 to 1932 and 439.6 percent from 1912 to 1932.

ASSESSED VALUATIONS

Unless otherwise provided, one assessor is elected at each annual election for each assessment district in the State. If any town, ward, village, or city, constituting a single assessment district, has more than one assessor, the assessors therein act together as an assessment board. In Milwaukee, the tax commissioner divides the city into assessment districts, and appoints one assessor for each district.

The assessor of each assessment district begins as soon as practicable after the April election, in districts where an assessor is elected at such an election, and in other assessment districts as soon as practicable after the first day of January, to assess all the real and personal property liable to taxation in such district. All real and personal property is assessed as of May 1, except as otherwise provided.

The assessed valuation of all property in Wisconsin subject to levies of the general property tax was $5,073,700,514 in 1932 as compared with $5,106,126,000 in 1922 and $2,466,637,000 in 1912. The per capita assessed valuation increased from $1,019.31 in 1912 to $1,895.72 in 1922, and decreased to $1,708.32 in 1932.

TAX LEVIES

The treasurer of each town, city, or village is required to give notice that the tax rolls for the current year are in his hands for collection, and that the taxes charged therein are subject to payment on or before January 31. After said date the treasurers call upon all taxpayers who have not paid their taxes and demand the same.

The city treasurer of each city, elected for 2 years, collects all State, county, and city taxes. In towns and villages, the treasurers thereof collect all taxes.

The total levies of the general property tax for the State and all subdivisions were $36,848,000 for 1912, $108,944,000 for 1922, and $121,591,679 for 1932, this being a per capita of $15.23, $40.45, and $40.94, respectively.

Of the total levies reported for 1932, $8,270,183 was for the State government; $29,552,297 for the counties; $62,662,177 for the cities and villages; $11,445,248 for the school districts; and $9,661,774 for the towns. The average rate of levy per $100 of the assessed valuation was $1.49 for 1912, $2.13 for 1922, and $2.40 for 1932.

Population 1992
Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932 ... 1992

DESCRIPTION OF GENERAL TABLES:

Revenue receipts 1993
Governmental-cost payments 1993
Public indebtedness 1994
Assessed valuations 1994
Tax levies 1994

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities and towns, school districts, irrigation districts, and other civil divisions, by counties: 1932 1995
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities and towns, by population groups: 1932 1999
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities and towns, school districts, irrigation districts, and other civil divisions, by counties: 1932 2000
4. Governmental-cost payments and per capita total governmental-cost payments of cities and towns, by population groups: 1932 2004
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities and towns, school districts, irrigation districts, and other civil divisions, by counties: 1932 2005
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities and towns, by population groups: 1932 2007
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities and towns, school districts, irrigation districts, and other civil divisions, by counties: 1932, 1922, and 1912 2007
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1932, 1922, and 1912 2008
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and towns, and school districts, by counties: 1932, 1922, and 1912 2009

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Wyoming relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 23 counties, the 79 cities and towns, the 394 school districts, the 15 irrigation districts, and the 17 other civil divisions (conservation district and drainage districts), or a total of 529 political units that have the power to levy taxes or incur debt.

The data for Wyoming were compiled from reports on file in the office of the State Superintendent of Public Instruction, Cheyenne, Wyoming, and from reports received through correspondence.

Fiscal year.—For Wyoming the fiscal year reported for the State government is that ending September 30, 1931, while the statistics for the counties, the cities and towns, the school districts, the irrigation districts, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Wyoming on January 1, 1932, was 229,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for Wyoming the aggregate of revenue receipts is in excess of governmental costs, including those for capital outlays, by $360,614; excluding capital outlays, this excess amounts to $6,411,244.

The excess of revenue receipts over governmental costs was 6.6 percent for the counties, 13.6 percent for the cities and towns, 0.6 percent for the school districts, and 20 percent for the irrigation districts. For the State government, governmental costs were 3.7 percent in excess of revenue receipts.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Wyoming and all subdivisions of the State amounted to $24,399,265, or an average of $106.55 for each person in the State. Of this amount $10,487,372 was for the State; $4,780,399 for the counties; $3,122,000 for the cities and towns; $5,677,899 for the school districts; $224,917 for the irrigation districts; and $106,678 for the other civil divisions. The revenues collected include $9,747,055, general property taxes; $103,760, special taxes; $101,618, poll taxes; $2,694,710, licenses and permits; $965,759, special assessments; $6,749,051, subventions, donations, and pension assessments; $1,868,870, interest, rents, and highway privileges; $855,842, earnings of public service enterprises; $1,188,846, earnings of general departments; and $123,754, fines, forfeits, and escheats. Of the $6,749,051 classified as subventions, donations, and pension assessments, $3,957,399 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and towns having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities and towns having a population of 2,500 and over amounted to $2,041,000 in 1912, $4,729,000 in 1922, and $6,327,184 in 1932, this being an increase of 33.8 percent from 1922 to 1932, and of 210 percent from 1912 to 1932. Special taxes amounted to $11,000 in 1912, $83,000 in 1922, and $103,760 in 1932. Poll taxes amounted to $25,000 in 1912, $18,000 in 1922, and $44,702 in 1932. Licenses and permits, which include automobile license tax and the tax on gasoline, amounted to $262,000 in 1912, $850,000 in 1922, and $2,667,280 in 1932. Special assessments amounted to $43,000 in 1912, $907,000 in 1922, and $650,242 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Wyoming and all subdivisions of the State for 1932 amounted to $24,038,651, or an average expenditure of $104.97 per person. Of the total amount expended, $10,877,876 was disbursed by the State government; $4,486,062 by the counties; $2,749,139 by the cities and towns; $5,646,143 by the school districts; $187,388 by the irrigation districts; and $92,043 by the other civil divisions. The total comprises $16,226,017 for operation and maintenance of general departments; $490,201 for operation and maintenance of public-service enterprises; $1,271,803 for interest on debt; and $6,050,630 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities and towns are not shown by departments in table 3 and 4 for the reason that for the most part the reports secured for the cities and towns did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, the school districts, the irrigation districts, and the other civil divisions are shown by departments in table 3. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to the States, counties, and cities and towns with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1932 the payments for operation

and maintenance of general departments and public-service enterprises of the State, counties, and cities and towns having a population of 2,500 and over increased from $2,249,000 to $10,621,831, or 372.3 percent; interest payments, from $145,000 to $803,930, or 454.4 percent; and outlay payments from $487,000 to $5,680,880, or 1,066.5 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities and towns, the school districts, the irrigation districts, and the other civil divisions, by counties.

Table 6 presents for the individual cities and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1932. The aggregate debt of the cities and towns in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities and towns, the school districts, the irrigation districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all minor civil divisions of the county.

For 1932 the combined gross debt of Wyoming and all subdivisions of the State less sinking fund assets set aside to meet such debt was $43,009,339, or an average per capita of $187.81. In 1922 the average per capita was $93.02, and in 1912, $26.48.

Of the total debt reported for 1932, $5,568,560 was for the State government; $1,566,242 for the counties; $12,684,287 for the cities and towns; $7,197,484 for the school districts; $13,924,866 for the irrigation districts; and $2,067,900 for the other civil divisions.

The gross debt of the State government, less sinking fund assets, increased 38.8 percent from 1922 to 1932 and 4,464.4 percent from 1912 to 1932. Similar debt for all minor civil divisions combined increased 147.7 percent from 1922 to 1932 and 791 percent from 1912 to 1932.

ASSESSED VALUATIONS

In Wyoming the assessment of property is made by the county assessor (elected biennially) and his deputies. Each county is divided into assessment districts by the county commissioners and one deputy assessor is appointed for each district.

All property, real and personal, excepting that specifically exempted, is subject to State, county, and municipal taxation. Personal property is listed in the county where it may be on February 1 of the current year. All taxable property is listed and valued each year. Real property is assessed at its true value in money.

The assessed valuation of all property in Wyoming subject to levies of the general property tax was $418,659,784 in 1932 as compared with $366,412,000 in 1922 and $180,751,000 in 1912. The per capita assessed valuation increased from $1,106.69 in 1912 to $1,781.92 in 1922, and to $1,828.21 in 1932.

TAX LEVIES

The county treasurer, elected biennially, is ex-officio collector of all State, county, city, town, and school taxes.

Beginning September 1 in each year, 50 percent of all State, county, and school taxes is due and payable, and becomes delinquent on November 10. The balance is due on March 1 following, and becomes delinquent May 10.

The total levies of the general property tax for the State and all subdivisions were $2,610,000 for 1912, $8,365,000 for 1922, and $10,937,597 for 1932, this being a per capita of $15.98, $40.68, and $47.76, respectively.

Of the total levies reported for 1932, $2,120,009 was for the State government; $3,636,550 for the counties; $1,400,098 for the cities and towns; and $3,780,940 for the school districts. The average rate of levy per $100 of the assessed valuation was $1.44 for 1912, $2.28 for 1922, and $2.61 for 1932.
